Have you heard the latest? Sam Notson is about to announce himself as a candidate for governor. He has decided to make a no-limit tax the chief plank in his platform. "This thing of economy in public office is getting to be an old pun with the people," says the district attorney, and he believes the other extreme would now appeal to them inasmuch as taxes continue to rise anyway. He is of the opinion that every section of the state will have a candidate, so why not Morrow county. A divided field may land the persimmon for our folks. Maybe Sam can be induced to become a bona-fide candidate. We know him as one who would uphold the dignity of the state in a manner nowise unsatisfactory.

**ST. LOUIS REPUBLIC**

"The problem of music in the home is solved when the singing of the greatest artists is made possible by an instrument that does not betray itself in the very presence of the artist."

**GLOBE-DEMOCRAT**

"None in the audience was able to distinguish when Miss Case ceased singing, except by observing that her lips did not move. The union between the tones of her voice and the reproduction on the instrument was so remarkable that trained ears could not detect the slightest difference."

**POST-DISPATCH**

"The test convinced many skeptics of the triumph of Mr. Edison's genius in re-creating the human voice in all its naturalness."

**Let Us Prove It to You**

**W**E WANT you to hear this wonderful new instrument, which the New York Globe calls "the phonograph with a soul." After you have heard it, we are sure you will not be satisfied with a talking machine. Let us prove through your own ears that the New Edison does literally Re-Create all forms of music.

**NOTICE:** Please do not ask us to sell you Edison Re-Creations if you intend to attempt to play them on any other instrument than a New Edison. No other instrument can bring out the true musical quality of Edison Re-Creations. Furthermore, injury to the records is likely to result if you attempt to play them on an ordinary phonograph or talking machine.
