NEWS NOTES FROM NEIGHBORING CITIES

In a divorce proceeding filed here this week by Mary A. Roberts it is alleged that Loyd A. Roberts treated plaintiff in a cruel and inhuman manner and plaintiff prays for a severance of the bonds of matrimony. They were married at Hardman in 1908 and have two children. Erret Hicks appears as attorney for plaintiff.—Canyon City Eagle.

Mrs. O. G. Crawford gave a much enjoyed dinner Monday evening in honor of her husband's birthday anniversary. Covers were laid for Aaron Olmstead, Fred Holmes, C. C. Clearwater, L. E. Fleener, G. E. Odle and Mr. Crawford. The party was a complete surprise to Mr. Crawford.—Enterprise Record Chieftain.

Mrs. Bert Bowker of Heppner who has been visiting Mrs. George Purdy for the past week, left for her home in Heppner on Monday.—Condon Times.

One of the old landmarks disappeared this week when S. B. Barker tore down the old Maddock Hotel building on the corner of Spring and Main streets. Rumor has it that Mr. Barker will put up a two-story brick building in its place. He has also made some improvements in the building occupied by B. K. Searcy.—Condon Times.

Dillard French came in the first of the week from Butter creek. He reports that there is no snow four miles below the timber line in Morrow and Umatilla counties, that stock is in good condition and that hay is plentiful at \$6 to \$12 per ton.—Long Creek Ranger.

The Federated Church. Whether you attend the Christian or the Federated church next Sunday morning you will hear in either a discussion of the reasons for keeping sacred in our speech the name of God.

In the evening a union service will be held in the Christian church. The purpose of this service is to give the people of Heppner an opportunity to contribute for the relief of the sufferers in the various nations caused by the European war. The pupil is cordially invited.
 H. A. NOYES, Pastor

A. H. Rea has returned from a stay of several months in Nevada and with his family have moved out on the ranch to begin the Spring work.

Mr. and Mrs. Alex Lindsay, of Ione accompanied O. B. Barlow on a business visit to Heppner Tuesday. Mr. Lindsay has about finished the lambing of his band of ewes on the willow creek ranch and has had splendid success, getting many pairs of twins and several sets or triplets. The weather has not been good but Mr. Lindsay is well situated to care for his sheep and he is meeting with no loss whatever. He is one of our successful sheepmen that never drives his flocks to the mountain ranges; he uses his sheep to help in ridding his section of the country from weeds and has succeeded well.

M. H. Kopple returned the last of the week from Condon, where he was called as a result of a fire which destroyed a large part of his store there. He expects to leave for San Francisco this week to select a stock of goods for his Condon store and also the one in this city.

Some 7 Per Cent Money to Loan. Smead & Crawford have seven per cent money to loan on improved farm lands and stock ranches. If you desire to readjust your farm loans give them a call. Savings Bank Building Heppner.

LEXINGTON SECTION MAKES IMPROVEMENTS

New Residences Going Up. Water Systems Being Installed—Other News Notes of Interest.

A genuine spirit of improvement has struck the city of Lexington and surrounding territory, and no small amount of the profits realized during the past season from the excellent wheat crop, are being put into repairs and improvements of a permanent nature. These improvements are not confined alone to the little city, but are reaching out into the country, and the farmers are getting the spirit, building new homes and putting in water systems and otherwise beautifying the surroundings and making the country a more pleasant place in which to live. This paper is informed by Karl Beach, of Beach & Allyn, that they have been quite busy the past six weeks installing water systems and among those who are adding this convenience to their residences, we mention John McMillan, Neal White, B. F. Clark and G. L. McMillan. These parties have put in complete water systems and have their homes well and conveniently supplied in a modern way. A number of other farmers who have good wells are putting in pumping plants and many of them getting ready to have the water properly installed in their houses. New residences and other buildings are either building or in contemplation and the coming Spring months will witness lots of activity in this line. Among those in the country who have begun construction work is George White who is now pouring the concrete for his elegant new farm home and will have the basement of the structure completed within a very few days. Henry Johnson & Sons, of Heppner, have the contract for putting up this new home, which, when completed, will be one of the very finest farm residences in Morrow county. The plans for this dwelling were furnished by Tuma-Lum Lumber Co., of Lexington and they have also furnished the material going into it. Mr. White will have every modern convenience installed and a home that he will justly be proud of. It is a pleasure to be able to chronicle such substantial improvements and to record the fact that so many of the farmers are now reaching the financial condition that will permit of them improving their farm homes and making them attractive. Nothing speaks louder of the prosperity of the country.

Have Potato Planting Day. Realizing the fact that potatoes have become a luxury as well as one of the necessary staples of the everyday food supply, the Ladies' Aid of the Congregational church gathered at their headquarters on Wednesday last and organized themselves and their friends into a potato planting club.

They have a lot of considerable size on which the house is located where the Society holds its meetings, and they conceived the idea that it would be a profitable investment to plant the lot to potatoes and thus lay the foundation, at least, for a fortune. With this idea in view, the ladies gathered and begun the work, providing in the meantime, a sumptuous dinner which was served to the laborers at noon, and having so abundantly prepared for this feature there was plenty left over for supper which was served and greatly enjoyed after the completion of the day's labor. The lot now being planted, the ladies will watch the spuds grow into dollars.

Henry Zoehard who recently purchased some lots from Mrs. Penland on Knob Hill, has just finished a well and will shortly begin the erection of a residence and expects to complete one of the neatest homes in the town.

Putting Up Concrete Pump House. Lexington Water Company, W. G. Scott, proprietor, has just recently completed a new well. This was bored a short distance from the old one and is 300 feet deep and furnishes an abundance of good, pure water. A new pumping plant is being installed and Mr. Scott will enclose the same with a concrete building, constructed with a view to being entirely sanitary and insuring Lexington a water system second to none in the county.

A waive of patriotism has spread over the community and a number of the young men have already gone forth to enlist in the Navy. H. L. McAllister has taken his departure for Portland with the avowed intention of joining the army for the country's defense. He is a Spanish War veteran and has always held himself in readiness to enlist in the service of the country. The impression prevails that there will be a number more answer their country's call for volunteers.

K. L. Beach is having a new fence of neat design put up around his residence property. Karl stands in the front rank of the progressive citizens of Lexington.
