Lotus Robison called in and made himself a good fellow with the G-T. force on Tuesday, when down from his home near Hardman. Mr. Robison pronounces this one of the longest feeding spells he has experienced in many years; there was still plenty of snow at his place and he is having to feed his cattle every day, and he would not attempt to say when Spring would open in the foothills and the ground get in shape for farming. Mr. Robison still has an abundant supply of feed but says stock would be faring far better to be on the grass, which in other seasons is well advanced by this time in his locality.

In order to bring Patriotic Week to an appropriate close, a meeting of our citizens was held on Monday evening at the council chambers to discuss and arrange for a public meeting of the citizens later in the week. After some discussion of the subject, in which a number took part, it was decided to arrange for a public meeting on Saturday afternoon and committees to carry out the purpose of the meeting were appointed by Chairman Notson. We are hoping that every pupil in the county will be entitled to one of these certificates, if not this year, it should be an incentive for them to earn one next year.

Very truly yours, LENA SNELL SHURTE, County School Superintendent.

PERFECT CONFIDENCE

Heppner People Have Good Reasons For Complete Reliance.

Do you know how—
To find relief from backache;
To correct distressing urinary ills;
To assist weak kidneys?
Your neighbors know the way—
Have used Doan's Kidney Pills;
Have proved their worth in many tests.

Here's Heppner testimony.
Mrs. A. Missildine, Court St., Heppner, says: "It was a good many years ago that I took Doan's Kidney Pills and I know from the benefit I received at that time that they are all that is claimed for them. If it would be necessary to take a kidney medicine again, I would use Doan's Kidney Pills, for I have always had a great deal of confidence in them."
Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Missildine had. Foster-Milburn Co., Props., Buffalo, N. Y.

The Old Notion That Corporations Have No Souls is Passing.

Affairs in some of the war-torn nations today would hardly warrant the general statement that the world is growing better; and yet normally there is evidence that it is. Two hundred and fifty thousand workmen employed in American industries have had their lives insured by their employers. This represents insurance policies to the total amount of about \$250,000,000. The premiums on these insurance policies are paid by the companies, for which the men work. This system of insurance for employees, paid for and maintained by the employers, has been growing over a period of about five years, but has attracted little attention. The whole subject was forced to the front the first of the year by the action of the board of directors of the Union Pacific System, which took out insurance policies covering every one of its employees from sixteen to seventy years of age who have been in service one year or longer and who are not receiving more than \$4,000 a year in salary.

This one instance means an insurance policy of \$30,000,000 and includes some 30,000 employees at work on 8,000 miles of railway. Men and women are included, the office boy as well as the oldest employee. There was no examination, the first of the year the Union Pacific System had more than two hundred men in its employ who were sixty-five years of age or over. No distinction was made between the clerk in the general office and the men employed in hazardous occupations, nor between union and non-union employees.

Judge W. A. Day, President of the Equitable Life Insurance Society who is looked upon as the father of the plan in America, has compressed the great humanitarian idea into these fitting words: "I look upon group insurance as an expression of the group soul—which most happily is the English translation for the great French call of brotherhood, esprit-de-corps."

Will Hold Union Services.

A union platform service will be held on Sunday evening at the Christian church, which will be presided over by Mayor Notson who will give the opening address. Other speakers will be Attorney C. E. Woodson and Pastors MacDonald and Noyes. This meeting is called for the purpose of arousing interest and sympathy for the European war sufferers. The Belgians, Armenians, Servians, Poles and Jews are special sufferers, besides the citizens of the contending nations. Aid for these will be called for, and all contributions made will be forwarded to the particular class of sufferers designated by the donors. This is something that appeals to all and a large gathering of our citizens is looked for on this occasion.

Read these Extracts from the St. Louis Papers the Day following the Wonderful Comparison which is here illustrated.

ST. LOUIS REPUBLIC

"The problem of music in the home is solved when the singing of the greatest artists is made possible by an instrument that does not betray itself in the very presence of the artist."

GLOBE-DEMOCRAT

"None in the audience was able to distinguish when Miss Case ceased singing, except by observing that her lips did not move. The union between the tones of her voice and the reproduction on the instrument was so remarkable that trained ears could not detect the slightest difference."

POST-DISPATCH

"The test convinced many skeptics of the triumph of Mr. Edison's genius in re-creating the human voice in all its naturalness."

Let Us Prove It to You

WE WANT you to hear this wonderful new instrument, which the New York Globe calls "the phonograph with a soul." After you have heard it, we are sure you will not be satisfied with a talking machine. Let us prove through your own ears that the New Edison does literally Re-Create all forms of music.

NOTICE: Please do not ask us to sell you Edison Re-Creations if you intend to attempt to play them on any other instrument than a New Edison. No other instrument can bring out the true musical quality of Edison Re-Creations. Furthermore, injury to the records is likely to result if you attempt to play them on an ordinary phonograph or talking machine.
