COMMUNICATION.

To the Editor:
 The Federal Government, through the United States District Attorney, has requested me to call attention to the proclamation of the President of April 6, 1917. It is unlawful for any alien, who is a citizen of any country which is at war with the United States, to have in his possession the following articles:
 Any firearm, weapon, or implement of war, or component part thereof, ammunition, maxim or other silencer, bomb, or explosive, or material used in the manufacture of explosives; any aircraft or wireless apparatus, or any form of signaling device, or any form of cipher code, or any paper, document, or book written or printed in cipher or in which there may be invisible writing.
 All alien enemies of the United States within this county are required to bring in and surrender to the sheriff of this county or one of his deputies or to the marshals or policemen of the cities and all the articles which it is unlawful for them to have in their possession. The officer receiving such articles shall give a detailed receipt for the articles so surrendered, and at the close of the war the surrendered articles will be returned. Any alien enemy who fails to surrender such articles within twenty-four hours after the publication of this notice, the date of publication being April 26, 1917, will be subject to arrest if any such articles be found in his possession, and the articles will be confiscated and forfeited to the use of the United States.

All persons, citizens as well as others, are required to bear in mind that it is their duty to halt at once if challenged by any soldier of the United States, for soldiers doing guard duty are under instructions to shoot and not to argue.
 Respectfully,
S. E. NOTSON,
 District Attorney.

J. J. Adkins Sells Farm.
 Another important deal of the past few days is that made between J. J. Adkins of Rhea creek and A. J. Haverstick of Bellingham, Wash. Mr. Adkins sells his ranch, consisting of 1040 acres outright to Mr. Haverstick. Mr. Haverstick has already taken possession of the property. The ranch is at this time largely devoted to wheat raising, although it is an ideal combination stock and grain ranch.

Mr. and Mrs. Adkins and son Albert will move to Heppner, where they have owned a home for several years. In leaving Rhea creek, that section loses two of its earliest pioneers. Mr. and Mrs. Adkins located on the creek forty-one years ago and have made their home there continually with the exception of a few months out of each year spent in Heppner while the children attended school.
