AGRICULTURAL COLLEGE
SEED CLEARING HOUSE

Emergency Measures Taken to Collect and Distribute Oregon Seeds.

O. A. C., Corvallis, Ore., April 25.—The crop crisis has forced the Agricultural College to undertake the collection and distribution of Oregon seeds suited to the late, wet spring. Planting is late and must be done with early maturing varieties if the crops succeed. These varieties are largely in the State but often not in possession of the farmer, who doesn't know where or how to get them. The College, through cooperation with the press, hopes to be able to get this necessary information to them at once.

Farmers, warehousemen, marketing associations and seed companies having seed of early spring wheat, barley, oats, rye, silage corn, grain corn or beans, or seed of buckwheat, kale or root crops, are urged to report to the College at Corvallis by mail the variety, quality, quantity and price. Farmers and others unable to get the right seed from their regular dealers should report their needs to the College at once.

For Eastern Oregon list Early Baart, Marquis and Blue Stem wheat; Hannchen, White Smyrna, Swanneck and other varieties of barley; Sixty-day, Silvermine and Black American oats; spring rye; Minnesota No. 13, Minnesota No. 23, Walla Walla White Dent and other early corn; Lady Washington and other early bean varieties.
