Despicable Vandalism.

A species of despicable vandalism is that of entering the yards of residents of the city and wantonly breaking off and destroying flowers and plants growing there. Complaint comes to this office from one of our citizens that this thing has happened to him. His good wife had spent much time in putting out some choice bulbs and the plants had no sooner reached the flowering stage than the yard was entered during the night and practically every plant broken down and destroyed, it apparently being the work of boys. Just what possesses people to do a thing of this kind is beyond our comprehension, but there seems to be a desire in the hearts of some to destroy what others take pleasure in. The attention of the marshal has been called to this case and we hope that official will be able to nab any youngsters caught doing such work in the future.

Position wanted during harvest as engineer; can handle either steam or gas engines. Call at Star Theatre, Heppner.

Miss Virginia Crawford was abundantly showered on last Saturday evening at the home of her parents. Her friends to the number of about 75 prepared a surprise on the eve of her wedding and as a consequence the Crawford home was filled to overflowing by those who had prepared the affair. There were gifts of silverware, linen, cut glass and a very large number of useful articles that will be needed in housekeeping. One especially highly prized gift was a complete set of Community silver, the present of some thirty members of the Christian church. Miss Crawford was thoroughly surprised and could not find words to express her appreciation to the many friends who thus so kindly remembered her on the eve of her wedding.
