The Most Beautiful Car in America

**T**HERE are two very excellent reasons why you should place your order for a Paige Linwood "Six-39" immediately.

First, the present volume of orders, from all sections of the country, indicates that we shall not be able to supply more than one-third of the demand for this car.

Second, the scarcity and steadily advancing cost of manufacturing materials can result in only one thing—a price higher than \$1175

## A FINAL WORD ON ROAD BOND BILL

**Provides Immediate Construction of Permanent Highways Without Increasing Taxes.**

Much has been said in opposition to the good roads bond bill that has no bearing whatever on the measure and which could be designed only to poison and prejudice the voters against it. That being the case, the following pertinent facts are submitted for the information and thoughtful consideration of the impartial voter on the eve of the special election June 4th:

This road bond bill proposes the issuance of \$6,000,000 twenty-five year four per cent bonds for the construction of a system of state-wide hard-surfaced highways. The roads to be improved are designated in the bill and include the main-traveled roads throughout the state.

Adequate revenue has been provided by statute for paying both interest and principal and retire the bonds at maturity without increasing taxes. The money derived from the increased automobile licenses and the existing quarter-mill state road tax will pay the interest and retire the bonds and leave a substantial balance for the construction of other roads not enumerated in the bond bill.

The increased automobile license and the state road tax are provided by statutes now in effect and will have to be paid regardless of whether or not the road bonds are voted at the special election June 4th.

The automobile owner is willing to pay the increased license. All that he asks is that the license money, which has to be paid anyway, be expended in constructing the roads proposed in the bond bill. The automobile owner will provide all of the money necessary to meet the interest charges and retire the bonds. He fails to see why there should be any opposition to the expenditure of the money so provided in the construction of good roads, in view of the fact that it is his money that will pay for the improvements.

All of the money raised from the bonds will be expended under the direction of the State Highway Commission, appointed by Governor Withycombe. The Commission has announced that in expending the fund all sections of the state will be considered impartially. A dollar's worth of road construction for every dollar expended is guaranteed by the Commissioners, who have declared that they will purchase one or more paving plants and lay paving unless satisfactory bids are submitted by paving contractors. Ordinary common-sense business principles will also govern the Commissioners in their work of road building. Scarcity of labor and the reasonableness of war-time prices for materials will determine the time for inaugurating work and the scope of actual road construction. Road building will not be undertaken by the Commission unless conditions are favorable.

Approval of the road bond bill June 4th will be an indorsement of a plan that insures for the state the construction of a system of hard-surfaced roads with funds already provided by law and without increasing other taxes.

Vote 314 X YES and help "Pull Oregon Out of the Mud."

### PROVIDES GOOD ROADS WHERE MOST NEEDED

I am for the road bond issue because I believe it will give us of Oregon good roads and at places where we have not good roads now, and where we need them most. There is only one plan before us by which we may obtain some really good and serviceable roads and that is the present scheme of permitting the state to sell \$6,000,000 in four per cent serial bonds to be redeemed both in principal and interest by the revenue derived from a state tax on automobiles. If we do not adopt this plan we of Oregon will continue as we have already continued too long, with poorly drained, wretchedly located and miserably surfaced roads, impassable in winter and impractical and expensive at all times.—Rufus C. Holman, President of State Association of County Judges and County Commissioners.

### WHAT GOOD ROADS MEAN TO MOTORISTS

Every motorist has observed how his car accelerates when he goes from an unimproved road to a stretch of hard-surfaced; but he may not realize how large a saving of power and gasoline that acceleration represents. If he were to travel over a hard even surface habitually instead of over the average country road, his gasoline bill would be greatly reduced. A motorist in Mississippi has figured out that hard-surfaced roads in his community save him \$30 per year in the gasoline consumed by a single car.

In the face of these facts, is there any possible reason why every automobile owner should not vote for the \$6,000,000 good roads bond bill?

Poor roads are very expensive things for country communities. The farmer who thinks that improved highways are mainly for the benefit of those who drive automobiles should reflect on the result of a recent investigation by the Department of Agriculture, which finds that the cost of hauling farm produce over ordinary country roads is 23 cents a ton, whereas over hard-surfaced roads it is only 13 cents.—Fact and Comment in Youth's Companion, May 10, 1917.

"Your Country needs you."

This appeal from the federal government is meeting with the phenomenal success in the enlistment of boys under 21 years of age who desire to serve their country in the most commendable way possible.

The enlistment of a boy in the working reserve means only that he has a desire to be of use to his country and government and is taking the means offered by that country and government so express himself.

The farmer boy who helps his father cultivate his acres need not leave the home place in order to receive the credit due him for patriotic service. A boy so situated should fill out an enlistment blank and state at the bottom of same that he is employed on his father's ranch and he will be given the same credit as if he had enlisted in the army or had gone away from home to serve his country in the same or some other capacity.

It is the intention of the government employment service, which has charge of the assignment work to place as many of the town boys as near to their homes as possible and it is only the excess enlistment of the neighborhood having more help than it needs that will be sent to other districts where there is a shortage of helpers in the harvest.

"Your country needs you," is an appeal to the boys to be patriotic and to enable them to show that they have been patriotic because they have served Uncle Sam in gathering a harvest that is the most important one ever gathered by the American farmer.
