

# PAIGE

The Most Beautiful Car in America

## Paige Prices Will Be Advanced on July 15th

On July 15th the list price of every car in the Paige line will be very substantially increased—with no change whatsoever in our models.

In order to maintain the well-known standards of Paige quality, such a step is unavoidable. The market quotations of all raw materials, accessories and labor have steadily advanced—some commodities to the extent of 300 per cent.

Inasmuch as we insist upon using only the best of materials, we are left with but one alternative—an increased list price to absorb the increased manufacturing cost.

As a matter of economic fact, the price of our cars should have been advanced several months ago. We have chosen to delay this action, however, until the last possible moment.

But even though Paige prices are to be substantially increased, you can rest assured that our cars will continue to offer more actual dollar for dollar value than any other cars on the American market. From a purely comparative standpoint Paige cars have always been under-priced—and they will remain so no matter how far the commodity prices may advance.

Owing to the scarcity of materials, our production between now and July 15th will necessarily be limited. We have apportioned this production to Paige dealers throughout the country, and they will accept orders until their individual allotments are exhausted.

As a last thought in regard to this matter of price, please remember that the Paige has long since demonstrated its independence of all "price fields." American men and women now buy a Paige—not because of the price tag which is attached to it—but because of its well established reputation as a fine mechanical product.

On this basis the Paige will always represent a preferred investment. Its actual cost in dollars and cents will always be an important but an altogether secondary, consideration.
