### HEPPNER GARAGE

**Elks Will Improve.**  
As announced in our last issue, the Heppner lodge of Elks is making preparations to begin extensive improvement on their main street prop-

erty. This week the old "oyster house" and "hot dog" restaurant was torn down and contractor Ed Buckman will commence work of laying new concrete walks in about two weeks.

**Roberts House Nearing Completion.**  
The new residence of Mr. and Mrs. Stacy Roberts on Center and Gale streets is nearing completion. Work from now on will be confined to the interior of the house. It will be one of the fine homes of Heppner. Mr. Roberts will also build a garage for his automobile.

**SEALED PROPOSALS** addressed to J. C. Ballinger, School Clerk, Boardman, Oregon, will be received by the Board of Directors of School District No. 25, Morrow County, Oregon, until 8 o'clock, P. M., September 15, 1917, for the erection and completion of the first unit of a new Public School Building, as per revised plans. Proposals are invited upon both tile and concrete construction and separate bids are wanted upon heating, plumbing, electric wiring, a deep well and water system.

Plans and specifications can be had by applying to the School Clerk or from the office of E. FRANCIS WILLIAMS, Architect, 217 Alisky Building, Portland, Oregon.

Each proposal must be accompanied by a certified check of 5% of the amount of the bid. Said checks to be made payable to J. C. Ballinger, School Clerk.

If for any reason the bidder fails to execute the proper contract and bond required within 10 days after the notification of the acceptance of his bid, then said certified check will become forfeited to the said school district, No. 25, Morrow County, Oregon.

The Board reserves the right to accept any or to reject any or all bids.  
J. C. BALLINGER,  
School Clerk.

## RECOGNITION!

Never have so many voluntary expressions of satisfaction and goodwill been received as those coming from Cole Eight owners.

Never have sales been so great, nor cars ordered so far in advance.

Never has the Cole been more strongly entrenched as America's dominant Eight.

Each day the growing demand for the Cole Eight is more difficult to meet.

The factory distributors for this Pacific Northwest are literally fighting for every carload shipped into this territory.

We suggest that if you want a Cole Eight now, next month, or the month following, ORDER IT TODAY.

Seven passenger Cole Eight \$1795. Four Passenger Cole Eight Roadster \$1795.  
Prices f. o. b. factory. Subject to change without notice.

Morrow County agent for the **OLDSMOBILE**, a high-grade, light weight car at a moderate price, \$1600 at Heppner

Harold A Cohn, Heppner, Oregon

Thursday, August 30, 1917.

### THE PEACE PROPOSAL.

The Pope's recent advances toward peace are undoubtedly advances in the right direction, but we question the timeliness of his moves. The response of the allies is a clear indication that the time has not yet arrived for peace. The feeling among the enemies of the kaiser is that he should be whipped into an everlasting submission to the end that democracy will be made safe for all time to come.

Yet it seems that if peace is to come on the terms outlined by the Pope, the kaiser is virtually winning the battle and all that has thus far been sacrificed upon the altar of war will have been a sacrifice to no apparent benefit to the cause. Rather will it give the kaiser an opportunity to gather together the badly torn odds and ends of his former great military machine, and with the efficiency of his government yet intact, begin that process over again which would ultimately end in another world's disaster.

Every country fighting on the side of democracy and a free country for all men, has signified their intention of fighting the war through to a glorious conclusion. This means that the end will come only after the forces of the kaiser, the so-called blue bloods of Germany, those self-believed God chosen few who are to lead the rest of the world from out of the darkness into the light of "might makes right," will have been thoroughly licked, beyond any possible chances of a come back. Then, and then only, will the coming of peace be welcomed by those who would insure its perpetuation.

Headline in daily paper says "meatless day will be observed soon." This will be no innovation to the average country editor. One day with meat would sound better to him.

Morrow county farmers are too busy harvesting their crops to give any worry as to what kind of a price Mr. Hoover is going to fix for wheat. Whatever that price will be, anything over the two dollar mark will look good to them. Rumor has it that the price will be around two dollars and fifteen cents per bushel.

Heppner should form a debating society to thresh out the problems of street paving. These debates, held during the winter months, might get better results than those held this summer, during the oppressive heat waves that visited this section. Too much hot air all at one time is not conducive to best results.

A Heppner man has been honored in the appointment of W. B. Barratt to the committee of food conservation of the State Council of Defense. But one other man in Eastern Oregon received such an appointment, all the other members of the committee residing west of the mountains.

The personnel of the list is made of some of Oregon's foremost citizens. It is only natural that men of ability should be appointed to such a responsible task as that of conserving the food resources of the state. Forty eight such committees working throughout the United States will aid greatly in winning the war.

From the chairman of the committee, president of the Oregon Agricultural College, down to the last member, will be found men who are capable of handling the situation and will prove able assistants to Herbert Hoover, the State Council of Defense and the Nation in general.

### IT WILL COME BEFORE LONG.

People who have visions of a larger Heppner can see a few well established industries in the town, each having a considerable payroll. It has been said that no town is larger than its payroll, and in our judgment this comes close to being a true statement.

There never has been an united effort put forth here to get industries. Too many of the more conservative have said there is nothing here that will ever make for any large industry. This may be so, but that doesn't mean that we are to stand still for ever, just because we can't do something real big. We might just as well go after a number of smaller industries, and if they are properly nursed, they will probably grow into big, thriving institutions.

A few miles south of Heppner stands an unlimited supply of timber, much of which can be sawed into good commercial lumber of one kind or another. The world's supply of timber is growing shorter every day and we are sure that the inevitable result will be the marketing of this timber through the lumber markets of the world.

When that time comes, saw mills will be running in Heppner, means for transportation will be provided for and there will be pay rolls in Heppner larger than most of us ever dreamed. It is coming in time. Such a proposition would bring the solution of the fuel problem at the same time.
