SOME GOOD ADVICE

Strengthened by Heppner Experience
Kidney disease is too dangerous to neglect. At the first sign of backache, headache, dizziness or bladder disorders, you should give the weakened kidneys prompt attention. Eat little meat, take things easier and use a reliable kidney tonic. There's no other kidney medicine so well recommended as Doan's Kidney Pills. Heppner people rely on them. Here's one of the many statements from Heppner people.

Mrs. A. G. DeVore says: "Speaking from past experience, I gladly recommend Doan's Kidney Pills. I know they are a medicine of merit and I couldn't recommend a more reliable one."
Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. DeVore had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

He came to Morrow county with his family many years ago and settled in the Eight Mile country as a farmer. Prior to that time he resided in the Walla Walla country near Watsburg, Wash. He was a native of the state of Missouri. Interment was in the cemetery at Hardman.

What Osteopathy Does For The Welfare of Women

The real cause of many of the ailments peculiar to women was never properly understood until osteopathy was discovered. That this is a fact is proven by the wonderful results which have been accomplished by osteopathy in the treatment of diseases of women. Among those who know about it a great deal of fame of osteopathy is attributed to its success in women's cases but unfortunately a great many women have a wrong impression about the practice and consequently are prejudiced against it or are afraid of it.

How Mrs. J. Investigated Twentieth Century Medical Advancement and Found Out What Every Woman Should Know About Osteopathy

In the October issue of Osteopathic Health—the popular magazine about osteopathy—there is an interesting story of a lady who did some investigating of osteopathy for herself. It tells how she visited a free clinic at an osteopathic hospital and some of the things she learned by conversation and observation and how she later proved the merits of osteopathy by personal experience in her own case.

Get a copy of this October issue of Osteopathic Health. Any osteopathic physician will be glad to present you with a copy complimentary. It is an explanation of osteopathy in a woman's own terms and will certainly prove interesting reading whatever may be your own health conditions or your personal views about osteopathy.

Another instructive article in the October issue of this magazine tells about the benefit of having osteopathic attention during pregnancy. There is no more important time in family life than when a little new comer is expected in the home. Every married woman and every husband should be informed concerning the protection and satisfaction in having osteopathic assistance on such occasions.

Osteopathic Health is published to give the public information about osteopathy and you can get a copy from any osteopath on request.—Adv
