Mr. and Mrs. Alex Lindsay were in Heppner on Monday and Tuesday of this week. Mr. Lindsay has just received his sheep home from the summer range in the mountains. They were on excellent feed and come home rolling fat. Mr. Lindsay herded the sheep in the mountains during the summer and says the old habits came back to him very naturally and he felt much at home.

The Morrow county grand jury was kept quite busy investigating numerous cases brought to their attention the first of the week but no indictments were turned in. John McCullough had been indicted by the old grand jury for not using due diligence in extinguishing a fire on the McCullough premises during the late summer, but the case was referred back to the new grand jury who returned not a true bill. Aside from this, no other cases were brought in to court and the session proved to be a very light one.

NOW'S THE TIME

TO BUY YOUR

MACKINAWS, STAG SHIRTS
OVERCOATS

WE take a great deal of pride in being able to offer so desirable a selection of Mackinaws, Stag Shirts and Overcoats this season. The scarcity of woolen materials, due largely to the fact that the government has taken practically the entire output of many mills, has made it very difficult to secure necessary material, but our unusually large early purchases have put us in the fortunate position of preparedness to supply our customers' wants.

The new Trench model or Army coat is sure to please in the overcoat line. We also have the conservative models for those who prefer them.

Our prices on Stag Shirts and Mackinaws are sure to please. Call in and have a look at the line and be your own judge.

Could FIVE HUNDRED Newspaper Critics Be Fooled?

IF you were a music critic on a big paper you would soon become a very blase and skeptical sort of person. You would be preyed upon by press agents; all sorts of tricks would be played upon you; you would soon get suspicious of the motives of everyone who had anything to do with the giving of musical performances.

If you were a music critic and were invited to attend a demonstration in which an artist sang in comparison with a phonograph's reproduction of his voice and were told that it would be difficult if not impossible for you to distinguish the artist's living voice from the phonograph's reproduction of it, you would laugh with scorn, and if you attended the demonstration, it would be with the intention of expressing your scorn in a sizzling criticism.

The music critics of five hundred of America's principal papers have done the very thing that you would do if you were a music critic; they went prepared to scoff and they were converted. they found that

The NEW EDISON

"THE PHONOGRAPH WITH A SOUL"

actually Re-Creates all forms of music. They found that when Marie Rappold, Anna Case and other great artists stood beside the New Edison and sang in direct comparison with its Re-Creation of their voices, it was impossible to distinguish the living voice from the New Edison's Re-Creation of it. These men, who intended to jeer at these demonstrations in the columns of their papers, have, instead, written unqualified admissions that the New Edison's Re-Creation of music cannot be told from the original.

If you will come to our store we shall be glad to show you what has been said about this new invention by the great newspapers of New York, Boston, Philadelphia, Chicago, St. Louis and other cities. But principally we want you to hear with your own ears the instrument which has baffled the ears of five hundred newspaper critics and five hundred thousand music lovers.

Please let us make plain that you will not be asked to buy. We are satisfied to have you merely stop, look and listen.

NOTICE—Please do not ask us to sell you Edison Re-Creations if you intend to attempt to play them on any other instrument than the New Edison. No other instrument can bring out the true musical

quality of Edison Re-Creations. Furthermore, injury to the records is likely to result if you attempt to play them on an ordinary phonograph or talking machine.
