Made Visit to Old Home State.
After spending six weeks of delightful travel through the middle west and east, Mr. and Mrs. Ed Buckman have returned to their home in this city.
The main object of their trip was

a visit to their old home in Birmingham, N. Y., but while away they visited many other points of interest such as Niagara Falls and New York City. Mr. Buckman says war conditions have made for busy times in the east and everybody is working. This is quite a contrast to conditions when

Mr. and Mrs. Buckman came west a few years ago.
Industrial slackers receive almost as severe treatment as the army slackers, according to Mr. Buckman, and anyone found idle is called up and made to give the most minute account of himself.

Figures made public by the bureau of foreign and domestic commerce show that the embargo against Northern European neutrals is having its effect, as the entire exports to those countries from the United States amounted to only \$7,772,836 for October 1917 as compared with \$30,385,721 for 1916.

George Zink has enrolled in Rahe's Automobile Training School in Kansas City, Mo., and will take a thorough course in automobile mechanics. He is but one of several young men in this section of the country who are attending the school. Many who are in the draft are taking advantage of the delay in the second call by educating themselves for service in the transport department of the army. These young men have come to realize that service in the transport department is just as noteworthy as service in the trenches and they can learn truck driving and repairing in a very few weeks.—Lone Independent.

Ernest Ellis of Hardman, Morrow county, was here several days front end of the week moving the last of his things to his new home. Mr. Ellis is going in strong for thoroughbred hogs, believing that this is the quickest and best stock money to be had under the present conditions. Starting with just one brood sow two years ago, he now has 27 head, a splendid nucleus from which to build a good business. He believes that a great deal of good hog pasture is going to waste in the grain fields of this section because of a lack of hog-proof fences, so that hogs may feed on the stubble land in the summer and fall.—Condon Times.
