NEWS OF STATE AND NATION

Governor Withycombe has announced that he will be a candidate for re-election in the Spring primaries.

Camp Lewis, Wash.—Many letters of commendation are being received by Brigadier General Fred S. Foltz, commander at Camp Lewis, for his stand against the nickname of "Sammys." Captain M. D. Welty, official censor has announced. It was the general opinion of nearly every letter writer that "Tanks" should be the official nom de guerre. Captain Welty explained that in army circles "Sammy" refers to a thick molasses formerly used by the students at West Point.

Secretary McAdoo has extended his plan for conserving capital and labor to include the prospective home builder. He says, "home building in normal times is an excellent thing, but at present, unless there is a real shortage of houses for war workers, I strongly advise that materials, valuable labor and credit be not utilized for this purpose. Whether homes should be built should be determined strictly by the urgency of the need."

Six thousand soldiers have been called from Camp Sherman, Ohio, by the war department under sealed orders. No intimation has been forthcoming as to the ultimate destination of the troops.

Washington.—Production will begin not later than August in the government's big \$50,000,000 smokeless powder plant to be constructed at Charleston, W. Va., and Nashville, Tenn., the war department has predicted. Each of the plants will employ from 10,000 to 15,000 men. Much of the output of the new factories, the department's statement said, will be made available to the allies.

Hoff Is Candidate For State Treasurer.

Labor Commissioner, O. P. Hoff, has announced that he will be a candidate for the Republican nomination for state treasurer and herewith sets forth his principles in a brief statement.

"I am seeking the Republican nomination for State Treasurer, and in support of my candidacy submit my record, well known to the people of the State of Oregon, of fifteen years service as Labor Commissioner; one of the most difficult positions to fill and one of the least paid elective state offices.

"In standing between employers and employees to see that all possible protection is afforded and justice is done to both, I have given the best that is in me, and that the results obtained have been satisfactory to the people of Oregon is indicated by repeated re-election and consequent endorsement of the clean, fearless, and independent administration of this office.

"As Labor Commissioner, my duties have carried me into every nook and corner of the State. I know the State, its resources, its great possibilities and its needs. In my work I have come in contact with all industrial and business interests. I know the businessman's risks, difficulties and requirements. I comprehend the

O. P. HOFF

troubles, hardships and struggles of the working people and can act with understanding in the solution of their problems as they come before the various boards of which the State Treasurer is a member.

"My knowledge of State business and long training and experience in handling public and private funds certainly qualifies me for the other duties of the State Treasurer.

"Under the present stress of our national crisis, I believe that every ounce of the State's resources should be developed and utilized to the greatest extent, and the expenditure of public funds curtailed to the degree of absolute necessity, consistent with efficient and conservative government.

"In conclusion, I need only to assure you that I still stand upon my declaration that 'My oath of office is my platform; my record is your guarantee, and my experience is your protection.'"

MEN TRAINED IN MODERN WAR METHODS

Golf Course Turned Into Battle Front Bayonet Drill and Bomb Throwing Held Sway.

University of Oregon, Eugene, Feb. 4.—In four weeks, Lieutenant Colonel John Leader, commandant of the University battalion and instructor in military science, has converted the 300 men in the University battalion, who hardly knew the rudiments of the manual of arms into a unit working with precision and accuracy. Eight hours of military work a week is being required of every man in the University who is able to shoulder a gun. All of the military instruction is being carried on with the idea that the men will have actual use for it when they get to Europe. This semester for the first time military science is being taught as a profession and is becoming a major department instead of a side issue.

Colonel Leader is fitting his cadets for officers. He believes that the United States needs officers trained in military science even more than it needs privates.

President Campbell, who is at present in Washington, D. C., has been sending encouraging messages in regard to a reserve officers' training camp at the University. Application for training camp rating has been made.

Out on the University golf course are being constructed trenches, dug outs, machine gun emplacements, barbed-wire entanglements, sapping tunnels, first aid pits, sniping pits and other contrivances of the battle front.

The art of camouflaging is not being neglected. Colonel Leader has called upon the girls to help in this.

A row of dummies labeled "Bosche" is made to suffer while the cadets practice bayonet drill, and already the boys are becoming adept in the art of throwing dummy bombs.

Add to these the manual of arms, drill, rifle practice, and lectures three times a week by Colonel Leader and you have an idea of the training under the present regime.

In all, the University is offering more than 20 different courses in military science. With an aim of being the greatest possible service to the country, the University has made special provision whereby everyone desirous of training is given an opportunity to secure the military training offered here. Men may enter as special military students upon payment of the entrance fee of five dollars.

Chamberlain Files Complaint.

Washington.—Senator Chamberlain has filed a complaint with the quartermaster general that goods manufactured in Portland must be sent to San Francisco for inspection, that the goods purchased in Portland and sent to San Francisco for inspection are returned, manufactured, and the product again sent to San Francisco for inspection. If the inspection were made in Portland, he declared, the saving of 3000 miles in transportation would be effected.

J. H. Carmichael and son Park were Monday visitors in Heppner from their Lexington home.

Roy E. Tyler of Lexington was a business visitor in Heppner Saturday.

Washington.—The department of labor has announced that more than 12,000 agents throughout the country will be engaged for the next two weeks in the enrollment of 250,000 men skilled in the shipbuilding trades. Two thousand of the agents are appointees of the trades unions, who are co-operating in building up the industrial army for the final drive to

victory. Hun forces on the western front of the European battlefield now number 2,850,000 men, as estimated by allied armies in the field on the front. Although Germany has drawn heavily upon her troops on the Russian front, it is estimated she still has 60 divisions there.

The Gazette-Times

Makes Clubbing Arrangement With

The Oregon Farmer

Offers Unusual Opportunity to Its Readers

AMONG our large circle of readers there are a great many who are interested directly or indirectly in fruit growing, dairying and other branches of farming. All of these naturally wish to keep in close touch with agricultural activities throughout the state; and to know about any fight which is being waged for the measures Oregon farmers want and against all sorts of schemes that are detrimental to the people and agricultural interests of this state.

We have, therefore, made a special clubbing arrangement with **THE OREGON FARMER** whereby any farmer or fruitgrower, who is one of our regular subscribers and who is not now a subscriber to **THE OREGON FARMER**, will be entitled to receive **THE OREGON FARMER** in combination with this paper at the same rate as for this paper alone.

This offer applies to all those who renew or extend their subscriptions as well as to all new subscribers. If you are interested directly or indirectly in Oregon agriculture, do not miss this unusual opportunity, but send your order in now.

THE OREGON FARMER is the one farm paper which is devoting itself exclusively to the farming activities and interests of Oregon. It has a big organization gathering the news of importance to farmers, dairymen, fruitgrowers, stockraisers and poultrymen; and it has the backbone to attack wrongful methods and combinations and bad legislation, and support honest leaders and beneficial measures. We are confident that our readers will congratulate us on our being able to make this splendid and attractive clubbing offer.
