

YOU COOK YOUR FOOD—WHY NOT YOUR TOBACCO?

YOU know what broiling does to steak, baking to a potato—and toasting to bread. In each case flavor is brought out by cooking—by "toasting." So you can imagine how toasting improves the flavor of the Burley tobacco used in the Lucky Strike Cigarette.

EYE SERVICE

To a large extent your eyes automatically adjust themselves to different conditions of vision—far, near, etc., also to varying degrees of light. Perhaps you can see to read by the light of the full moon and likewise by the noonday sun, yet the one is over a million times more luminous than the other. When your eyes begin to fail a pair of suitable glasses will restore them to their former usefulness.

Hooverizing

Means something more than theorizing. It means practical observance of the laws of conservation three times a day.

The bulk of our wheat must cross the Atlantic to feed the allied armies. Therefore the American people at home must save by substituting for wheat. We can use

CORN MEAL—Both yellow and white, Hominy

OAT MEAL, rolled oats and barley flour

CREAM OF RICE, whole rice and buckwheat flour

Have you tried the new Potato Flour? This is one of the newer substitutes proving popular in the kitchen.
