

WITH the Deering Combined Harvester you can harvest your crop for one-half the expense you can any other way. Two men is all that is necessary to put your wheat in the sack.

The machine cleans the grain in perfect manner, takes out and saves all weed seed and leaves straw in bunches to be easily taken care of.

Can furnish them with or without an engine. Will have to have your order early in order to insure getting the machine. The factory is limited to a definite number of machines and when that number is reached there will be no more for anyone.

Nation-Wide Thrift

THE actual practice of THRIFT should begin in every home in the land—and extend over the entire year. A drive has started for the buying of War Savings Stamps and the building up of Savings Accounts. People will prosper and the Government be protected if YOU and YOUR FAMILY take part.

We shall be glad to take your orders for Thrift and War Savings Stamps—and to help you start a Savings Account at the Farmers & Stock-growers National Bank.

I AM GOING TO TELL YOU ALL ABOUT OUR STORE, OUR METHODS AND THE FINE HARDWARE WE SELL.

BE SURE AND MEET ME HERE IN THIS NEWSPAPER EVERY WEEK.

I AM GOING TO WORK FOR

TASH & AKERS

PATRONIZE GAZETTE-TIMES ADVERTISERS

Town and Country.

W. D. Newlon was in the city Monday from his farm in the north Lexington belt.

Frank Evans was in Heppner the last of the week from his farm home just below Lexington.

Matt Halvorsen was a Heppner business visitor from Ione Monday and paid the Gazette-Times office a pleasant call while in the city. Mr. Halvorsen is an extensive farmer of the Ione section and speaks optimistically of crop conditions there.

L. P. Davidson of Ione was in Heppner on business Monday. Mr. Davidson is one of the county's largest farmers and stockmen and operates on a large scale. Recently it was reported that he was about to sell his holdings for \$162,000 but for some reason the deal did not materialize.

M. O. Bennett, state highway engineer with headquarters in Pendleton, was in Heppner the first of the week to confer with the county court regarding road work which is to be undertaken in this county in the near future. The highway survey through Morrow county has been completed and when the survey is worked out there will be a real highway from Pendleton and points east, into Portland.

W. H. French of Forest Grove spent several days last week in Morrow county, coming up to look after his extensive interests in the Hardman section where he owns considerable timber land. Mr. French predicts great activity in the timber and lumber industry in Morrow county before long that will prove of great benefit to Heppner. Large timber interests are now making their plans to begin operations on a big scale in the manufacture of pine lumber, according to Mr. French.

Umatilla county will hereafter limit the number of war drives during the year, will meet her full quota on every such drive but will not over-subscribe, and will not countenance any drive for funds except those seeking money for war purposes. Every potential contributor in the county will be listed, rated according to his or her income, assessed equitably for each drive and will either contribute or take the unpleasant consequences among which will be public advertisement, says the Pendleton East Oregonian.

Lawrence and Stephen Doak, of Ione, were visitors in Heppner for a short time on Saturday. These gentlemen have engaged quite extensively in farming in the north Ione section and have the promise of an abundant yield of grain this season. Having sold their land holdings sometime since, they will only have this one crop before giving possession. Lands have been changing hands quite rapidly around Ione during the past few months, and the original buyer of the Doak land has already made a sale to another party. Many tracts of land in that vicinity are passing into the hands of new owners.

Buys Town Property.

Arthur McAtee has purchased the residence property on Chase street from the Masonic lodge. Mr. and Mrs. McAtee have been living there for sometime. The price paid was \$800.

Chalmers Men Visit Here.

Roy Hemphill, General Manager of the Western Sales Company of Portland and Theo. E. Herilly, assistant supervisor, Pacific Coast, for the Chalmers Motor Company, with offices in San Francisco, were in Heppner last Friday. They were here to confer with Vaughn & Sons, local agents for the Chalmers car. The local agency has just received a car load of the new Chalmers.

J. W. Stevens Buys Additional Farm Land.

J. W. Stevens, Hardman farmer, has purchased 480 acres of farm land from W. H. French of Forest Grove. The land joins the Stevens farm and will make a valuable addition to Mr. Stevens' holdings. The consideration was not named. Mr. French still holds a large body of timberland south of Hardman.

Hardman Farm Loan Association Now Ready To Make Loans.

The Harlman Farm Loan Association is now ready to make loans to farmers up to \$10,000, under the Federal Farm Loan Act, according to C. L. Sweek, attorney of this city, who was recently elected secretary of the association.

The Hardman association held their election last month and at that time Mr. Sweek was placed in the secretarial capacity to succeed O. C. Stevens, who was one of the main forces in getting the organization under way. The press of farm work would not permit Mr. Stevens to give any more of his time to the association and suggested Mr. Sweek as the logical man for his successor.

Wanted: First class man to handle pork cutting and curing. Inquire at this office.

SPECIAL SALE

OF

Minor & Co.

Drawn from a photograph of Christine Miller singing in direct comparison with the New Edison and proving that the two interpretations are identical.

A Faithful Reflection of Christine Miller

Just as the clear surface of a quiet pool mirrors the image above it so does this marvelous instrument reflect with complete fidelity the voices of the Edison artists. So perfect and satisfying are the Re-Creations that no human ear can detect a shade of difference between the performances of the artists and those of

The NEW EDISON

"The Phonograph with a Soul."

Over two million people have attended our famous tone tests in which the artist was pitted against the instrument. And not once has the New Edison failed to meet this searching test: definitely—convincingly—conclusively.

Call at our store for a demonstration.
