Sale of war savings certificates continue to grow and from reports sent out by the state chairman, it is evident that Oregon has fully decided to take her share. So far as Morrow county is concerned she has a long way to go before completing the quota, which has been placed at \$90,000. The local organization, under the direction of C. E. Woodson, is planning a campaign which will mobilize every idle cent in the county, and from now on thrift will be the order of the day.

A Child's Delight Was Death For the Mule.

"Bill" Padberg, extensive wheat grower of the Clarks Canyon has one less white mule this week than he had last week. As the story goes, the mule rambled off to the school house not far from the Padberg fields, and entered the school house yard. Being an inquisitive sort of mule he began an inspection of the play ground apparatus and it was not long before he became involved in the intricacies of a child's swing—and thereby hangs a tale. Mr. Padberg found his big white mule, the animal had been unable to solve the mysteries of this child's plaything, and his soul had departed for mule heaven. It appeared that, in trying to get out of the coils of the swing ropes, which in some manner he had twisted about his neck, Mr Mule had pulled back and choked himself to death.

Federated S. S. Notes.

The adult bible class known as the "Roe Bible Class," has been divided into two flourishing classes, the older ones of the class continuing the "Roe Bible Class." They have chosen Rev. H. A. Noyes as their teacher, and report very enjoyable sessions. The younger division of the class are now known as the "Ithiel Bible Class." The word Ithiel means "God is with us." They have unanimously elected Mrs. C. E. Woodson as their teacher. The class recently took sides in a drive for members and our attendance increased greatly. The losing side in the contest gave an entertainment in the church parlors Friday evening of last week. A very pleasant time was reported by all present, light refreshments were served. This class is "up and coming," having decided to rehabilitate an orchard in France. Also they expect to do some work along Christian endeavor lines in outlying districts.

The work in the Primary department is also thriving we hear, as they have added another class. Miss Lois Hall has taken charge of the tiny tots, and it is needless to say her hands are full. Miss Lois seems perfectly able, however, to handle the situation.

Drawn from a photograph of Christine Miller singing in direct comparison with the New Edison and proving that the two interpretations are identical.

A Faithful Reflection of Christine Miller

Just as the clear surface of a quiet pool mirrors the image above it so does this marvelous instrument reflect with complete fidelity the voices of the Edison artists. So perfect and satisfying are the Re-Creations that no human ear can detect a shade of difference between the performances of the artists and those of

The NEW EDISON

"The Phonograph with a Soul."

Over two million people have attended our famous tone tests in which the artist was pitted against the instrument. And not once has the New Edison failed to meet this searching test: definitely—convincingly—conclusively.
