HOW TO MAKE SOCKS EXPLAINED TO WORKERS

Seattle, Wash., March 1st, 1918. Chairman Heppner Chapter, American Red Cross.

Dear Madam:
We are in receipt of your letter of February 26. The directions which we have sent out for socks are intended to be a help and not a hindrance. I do not know what directions you have been using heretofore. Socks should be of a soft, rather loose texture such as is obtained when thirty stitches measures four and one half inches as is described in the first paragraph of our last sock directions. The leg should be about four and a half inches all the way down, and ten and a half to eleven inches long. The heel may be either the strap heel or the angular heel. The heel should not be made so long that the sock is too wide through the instep. The foot should be the same width as the leg or a little less and should measure when finished eleven inches. A slight variation in length is all right. The new directions for the Kitchener toe aim at exactly the same thing as the old ones and anyone may follow whichever he chooses. The thread to make the Kitchener toe can go just one way no matter how it is described.

Thanking you for your cooperation, we remain,
Very truly yours,
MRS. JOHN H. POWELL,
Superintendent Miscellaneous Department.

STENOGRAPHERS WANTED

Qualified stenographers and typists are urgently needed by the various bureaus of the Government, especially in Washington, D. C. Examinations will be held every Tuesday in fifty cities of the Pacific Northwest. Persons who have a knowledge of stenography or typewriting are urged to apply for the Departmental Government service. An examination will also be held for the Field Service on April 20, 1918.

Thousands of appointments have been made at salaries of \$1000 to \$1200 in the last six months. Thousands of additional appointments will be made soon.

Application blanks and information may be secured from Herbert F. Ward, District Secretary, Eleventh U. S. Civil Service District, 303 Post Office building, Seattle, Wash.

An engine that translates gas into a new kind of thrilling power through the "Hot-Spot" and "Ram's-Horn" Manifold—Chalmers devices

Power to take a hill, and power to pass the other fellow are still claimed by many car makers; but here's a car that puts such expressions into the dark ages of automobiling. It is the current Chalmers, equipped with the famous "Hot-Spot" and "Ram's-Horn" Manifold, which wrings from gas more power than was ever taken out of gas before.

But not merely brutal power (for that it has), but a newer kind, a softness of power that is as thrilling to bear witness to as the technique of a great musician.

Accomplished how? By those two great devices: a "Hot-Spot", which fairly cooks the gas, then "cracks it up fine as a powder", and the "Ram's-Horn" Manifold which "sets it down" in the combustion chambers with celerity and without disturbance.

So that when the spark touches it off, it gives nothing but power; soft, harnessed, controlled power that you will never forget once you have had its feel.

The Gazette-Times
Makes Clubbing Arrangement With
The Oregon Farmer
Offers Unusal Opportunity to its Readers

AMONG our large circle of readers there are a great many who are interested directly and indirectly in fruit growing, dairying and other branches of farming. All of these naturally wish to keep in close touch with agricultural activities throughout the state; and to know about any fight which is being waged for the measures Oregon farmers want and against all sorts of schemes that are detrimental to the people and agricultural interests of this state.

We have, therefore, made a special clubbing arrangement with THE OREGON FARMER whereby any farmer or fruit-grower, who is one of our regular subscribers and who is not now a subscriber to THE OREGON FARMER, will be entitled to receive THE OREGON FARMER in combination with this paper at the same rate as for this paper alone.

This offer applies to all those who renew or extend their subscriptions as well as to all new subscribers. If you are interested directly or indirectly in Oregon agriculture, do not miss this unusual opportunity, but send your order in now.

THE OREGON FARMER is the one farm paper which is devoting itself exclusively to the farming activities and interests of Oregon. It has a big organization gathering the news of importance to farmers, dairymen, fruitgrowers, stockraisers and poultrymen; and it has the backbone to attack wrongful methods and combinations and bad legislation, and support honest leaders and beneficial measures. We are confident that our readers will congratulate us on our being able to make this splendid and attractive clubbing offer.
