Wages for Farm Labor to Be Uniform.

A meeting of the Labor Committee of the Morrow County Agricultural Council was held in the office of the county agent Saturday evening April 6. This committee is made up at present of R. W. Turner, president of the County Council, C. E. Jones and W. B. Barratt of Heppner, C. R. Pointer of Lexington, W. F. Palmateer of Morgan, and Jack Hynd of Cecil. Other members will be added to this committee as the need arises.

O. H. Baldwin, Assistant Farm Help Specialist of the U. S. Dept. of Agriculture, was present and after discussing what had been and was being done in other counties to relieve the shortage of labor advised with the committee regarding plans for the harvest season. Baker, Union, Yellowa, Sherman, Gilliam, counties have each set \$60 as the wage for common farm labor. Arrangements are being made to furlough the farmer boys in the training camps for thirty day periods and place them where they will be of most help to the farmers. Mr. Baldwin stated that there were hundreds of men waiting for a chance to go to work in the ship yards but that they cannot be used. The federal office in Portland is trying to induce those suitable for farm work to go into those counties where the labor shortage is most serious.

County Agent Brown outlined a plan for enlisting the business and professional men of the towns in an emergency working reserve for harvest. Mayor Smead who was present thought a plan for voluntary enlistment would be better than an ordinance closing non-essential business houses during that period. Meetings will be held in each town to give everyone an opportunity to enlist.

Believing that a lack of understanding between farmers has been one of the chief sources of unrest among the farm help and to subsequent loss of time through changing employers, the committee urges that farmers and farm help get in touch with the nearest member, obtain reliable information and stop the rumors that are going around. They also recommend that sixty dollars per month be adopted as the average wage for common labor in Morrow county; that farmers cooperate more closely rather than compete with each other in securing farm help and in planting of crops; and that the farmers and farm help co-operate with this committee in every way possible to render the most effective service to our nation.
