The Chandler Sedan Affords You Four-Season Service

HANDSOME in design and operation, this Chandler seven-passenger convertible sedan affords full four-season usefulness that is keenly appreciated by those who demand the maximum of efficiency and comfort in their motor cars.

Will Start Saw Mill At Once.

W. L. Houston, who recently purchased the Parkers Mill from J. T. Knappenberg, was in town the first of the week getting a load of supplies. He will begin the operation of the mill at once, cutting up a large amount of logs. Mr. Houston also purchased a large amount of the Knappenberg stumpage, and besides working the suitable part of the timber into lumber, he will also manufacture a large amount of sixteen-inch stove wood which he expects to find a market for at Heppner. We understand that Mr. Knappenberg will work up the tree tops into firewood, making use of all limbs and this will be hauled to Heppner by trucks and marketed here. There should be no fuel shortage here during the coming winter for these pine limbs will make excellent wood.

John Cochran Makes Good Record Killing Coyotes.

As a coyote hunter, John Cochran of Ione is without a peer in the Northwest. Considering the rapidity with which these animals are disappearing from this section of the country, Mr. Cochran does exceptionally well in ferreting out the location of dens and bringing to his doom the sly coyote.

Mr. Cochran has bagged 124 coyotes so far this month and before the thirty day period expires, he expects to run the number up to 200. He brought in the pelts of 69 last Saturday, for which he received a bounty of \$3.00 a piece. Mr. Cochran has worked for the government during past years and expects to take up the job of hunting coyotes and other pests, about the first of June.

Before joining the colors, he was interested with his brother Alva in farming on Heppner Flat. Alva is now somewhere in France with General Pershing. Glen came home at this time to look after the ranch, inasmuch as crops are as necessary at this time as sailors. He says all the Heppner boys now at Mare Island are enjoying the best of health and like the training fine.

in the packing industry.

Swift & Company, although the largest packer, handles not to exceed one-eighth of the total meat production of the United States.

The five large packers do not handle to exceed one-third of the total meat production of the United States.

Swift & Company is not in combination with any other packer or packers to control prices.

There is very active competition in the buying of live-stock and equally keen competition in the sale of dressed meats and by-products.
