Little Daughter of Mr and Mrs. C. L. Brown Drowned in Willow Creek.

Grace, the little daughter of Mr. and Mrs. C. L. Brown of this city, was drowned in Willow creek some time Sunday morning after she had wandered away from home. The body was found just below the bridge at the end of Center street by E. M. Shutt, Leo Nicholson and Jasper Crawford, who formed one of the many parties that had gone out in search for the little girl. The general supposition is that she fell in the creek while playing under the May street bridge.

It was about 10:30 when Mrs. Brown first missed the little girl and she began looking for her at once. It now appears that Grace had followed the two older children off when they left for Sunday school, getting some distance from home before being sent back by the other children.

The funeral was held on Monday afternoon from the Federated church, Rev. H. A. Noyes saying the last sad rites over the body of the departed. Burial was made in Masonic cemetery.

SAVE SUGAR FOR CANNING SEASON

War-Time Recipes Prepared By Domestic Science Class.

(By Katherine Anderson.)
It is particularly necessary at this time for us to save sugar in our cooking so that we may have enough for the canning season. The food administrator asks us to use sugar substitutes as far as possible to sweeten our food. The sugar substitutes that we ought to use are corn syrup, molasses, honey and brown sugar.

Sugarless Cakes.
The following are sugarless cake recipes that have been approved by the Food Administration.

1. Wheatless, eggless, butterless, milkless, sugarless cake.
1 cup corn syrup
2 cups water
2 cups raisins
2 tablespoons fat
1 teaspoon salt
2 teaspoons cinnamon
1 teaspoon nutmeg
1 1/2 cup fine corn meal
2 cups rye flour; or 3 1/2 cups whole wheat flour
1 1/2 teaspoon baking powder; or 1/2 teaspoon soda
Cook Corn syrup, water, raisins, fat, salt and spices slowly 15 minutes. When cool, add flour, soda or baking powder, thoroughly blended. Bake in a slow oven for one hour. The longer this cake is kept, the better the texture and flavor. This recipe is sufficient to fill one medium bread pan.

2. War Time Fruit Cake
1 cup honey or corn syrup
1 tablespoon fat
1 egg
2 cups flour
1 teaspoon cinnamon
2-3 cup milk
1 teaspoon cloves
1/2 teaspoon salt
1 cup chopped dates, figs, prunes or raisins.
1/4 teaspoon soda
Cream fat, honey and egg. Sift dry ingredients. Add alternately with milk. Bake in loaf 45 minutes in moderate oven.

3. Soft Cinnamon Cookies
1 cup molasses
2 tablespoons fat
1/2 cup boiling water
1 cup flour
1 teaspoon soda
1/2 teaspoon ginger
2 tablespoons cinnamon
1/4 teaspoon salt
1/2 teaspoon cloves
Mix molasses, fat and boiling water. Sift dry ingredients. Add the liquid. Add enough more flour (about 4 cups) to make dough stiff enough to roll out. Cut and bake about 15 minutes in moderately hot oven.

(This is the 4th of a series of war recipe articles being run in this paper by the Domestic Science Department of Heppner High School.)

Canada Thistle Causes Heavy Grain Losses

Being A Perennial It Propagates by Roots as Well as Seeds—College Will Help Control.

Corvallis, Ore., May 8.—"The greatest loss to grain crops in our district is by Canada thistle," writes D. F. Burge, Route 2, Albany, Oregon, to Prof. H. P. Barss, botanist at the O. A. C. Experiment Station. Mr. Burge is a reporter of the Oregon crop disease survey and information service, and says that while the greater number of farmers fight the thistle all the time it is a great nuisance.

The Canada thistle is distinguished from bull thistle and others principally by its clusters of small flowers and more crinkled leaves, which are covered with a great many small, short spines.

Being a perennial, it propagates itself by its underground parts as well as by seed. The root, which varies in size from a small rootlet up to a quarter of an inch or more, spreads in all directions, at a depth of a few inches to a few feet below the surface, depending on the kind of soil. From any point in the root, buds may form and send up new shoots that form new plants. Shoots in all stages of development can be found during the growing season.

The Canada thistle is generally introduced by seeds, which are carried by wind, water and birds, and in grass, clover and small grain seed, especially oats.

Methods of eradication must be suited to the conditions on the farm. Being in touch with many growers who have been successful the College is in a position to give any farmer information that will enable him to eliminate this weed in the shortest time and at least expense.

The Experiment Station will gladly identify specimens of plants sent

UNITED STATES SENATOR CHARLES L. MCNARY

Because United States Senator Charles L. McNary has made good he should be nominated to succeed himself in the Republican Primary, May 17th.

From the day he became Senator he has loyally championed the prosecution of the war, and during his term of office has accomplished more for Oregon than any other member of Congress in a like period.

Among his colleagues he is known as "the man on the job," and during the present war crisis Oregon should consider itself fortunate in having an opportunity to return him and not be compelled to send to Washington, a new, untraded man.

Believing that the supreme obligation he owes his country is to help win the war, Senator McNary, instead of returning to his state to conduct a political campaign, is at his post in Washington working for Oregon and aiding in the prosecution of the war.

Always since entering the Senate he has been a friend of our soldiers and has introduced legislation giving them preferential homestead rights and repeatedly championed their cause when their welfare was in jeopardy.

Championing the cause of the Oregon Farmers, Senator McNary procured for them a primary wheat market, saving thereby several million dollars to the wheatgrowers of the Northwest.

Realizing the present Food Control Law fails to fix prices for many commodities, Senator McNary has introduced, and is laboring for the passage of a bill, striking at profiteering and fixing prices on the necessities of life.

Senator McNary has procured: Government contracts for the first time in the State's history for Oregon products, such as prunes, dehydrated potatoes and vegetables in large quantities.

Large Government contracts for Army clothing and shipbuilding yards.

Favorable action by the senate committee on irrigation on a bill providing for the government marketing of district irrigation bonds, thereby supplying funds for irrigation projects.

Favorable action from same committee on a bill authorizing the Secretary of the Interior to accept irrigation or drainage district bonds and exchange them with the Secretary of the Treasury for certificates of indebtedness, thereby providing funds for legitimate projects.

Senator McNary is working: For prompt payments of allotments to dependent relatives of our soldiers and sailors.

For the construction of a coast military highway at Government expense.

A comprehensive plan for the utilization of the water resources of Oregon.

Senator McNary was born on a farm in Oregon; reared in the Baptist Church; educated in the public schools; worked his way through Stanford University; is a lawyer and farmer and has been a life long Republican. He was formerly a Justice of the Supreme Court and later chairman of the State Republican Central Committee.

- Space forbids further enumeration of the vast amount of work Senator McNary has done for Oregon, but anyone will realize from the foregoing the Senator has displayed truly remarkable ability, coupled with extraordinary diligence and energy. His native State can best show its appreciation of his faithful and efficient services by nominating and electing him.
- THOMAS B. KAY, State Treasurer.
 - B. W. SLEEMAN, Bus. Rep. of District Council of carpenters.
 - MRS. GEO. W. McMATH, Pres. of Co-operative League.
 - THOMAS A. McBRIDE, Chief Justice of Oregon Supreme Court.
 - T. B. NEIFHAUSEN, Vice-Chairman Hughes Campaign Committee.

The Greatest Mother in the World

STRETCHING forth her hands to all in need; to Jew and Gentile, black and white; knowing no favorite, yet favoring all.

Ready and eager to comfort at a time when comfort is most needed. Helping the little home that's crushed beneath an iron hand, by showing mercy in a healthy, human way; re-building it, in fact, with stone on stone; replenishing empty bins and empty cupboards; bringing warmth to hearts and hearths too long neglected.

Seeing all things with a mother's seventh sense that's blind to jealousy and meanness; seeing men in their true light as naughty children—snatching, biting, bitter—but with a hidden side that quickest touched by mercy.

Reaching out her hands across the sea to No Man's Land to cheer with warmer comforts thousands who must stand and wait in stench and crawling holes and water-soaked entrenchments where cold and wet bite deeper, so they write, than Boche steel or lead.

She's warming thousands, feeding thousands, healing thousands from her store; the Greatest Mother in the World—the Red Cross.

Your help is needed—give till the heart says stop.

Every cent of every dollar received for the Red Cross War Fund goes for War Relief

The American Red Cross is the largest and most efficient organization for the relief of suffering that the World has ever seen.

It is made up almost entirely of volunteer workers, the higher executives being without exception men accustomed to large affairs, who are in almost all cases giving their services without pay.

It is supported entirely by its membership fees and by voluntary contributions.

It is today bringing relief to suffering humanity, both military and civil, in every War torn allied country.

It plans tomorrow to help in the work of restoration throughout the world.

It feeds and clothes entire populations in times of great calamity.

It is there to help your soldier boy in his time of need.

With its thousands of workers, its tremendous stores and smooth running transportation facilities it is serving as America's advance guard—and thus helping to win the war.

Congress authorizes it.

President Wilson heads it.

The War Department audits its accounts.

Your Army, your Navy and your Allies enthusiastically endorse it.

Twenty-two million Americans have joined it.
