If Swift & Company Made No Profit

The cattle raiser would receive only 1/8 cent a pound more for his cattle

So small is Swift & Company's profit on any single transaction that if it were turned over to the cattle raisers of the country, they would receive only 1/8 cent a pound more for cattle than they receive now.

Swift & Company pays for live cattle about 90% of the amount received for dressed meat and by-products. The remaining 10% pays for packing-house expense, freight to market, operation of distributing houses and profit. Swift & Company's actual figures per head for 1917 on over two million cattle were as follows:

Receipts		Payments	
From By-products	\$24.09 26%	Paid for Live Cattle	\$84.45 91%
From Meat	\$68.97 74%		
Total	\$93.06	Total	\$93.06

* This net profit of \$1.29 per head averages 1/8 cent a pound live weight. And out of this small net profit dividends must be paid to shareholders.

Khaki Handkerchiefs IN DEMAND OVER THERE

Corporal Wayne C. Jackson With Pershing's First Expedition, Writes To Sisters In Heppner That This Is One Thing Overlooked.

There is a demand for khaki handkerchiefs among the fighting sons of America. This is the word that comes to Mrs. F. A. Stapleton and Mrs. A. C. Crowel of Heppner, thru a letter received from their brother, Corporal Wayne C. Jackson, Co. H, 9th U. S. Infantry, A. E. F. Young Jackson, who is but 22 years of age joined the regular army from Salem nearly two years ago, when there was trouble along the Mexican border, and he saw his first service under General Pershing. Mr. Jackson has been on the firing line in France since February.

Somewhere Else in France. April 18, 1918.
Dear Brother and Sister and Children:

I received your ever welcome letter of February 18, yesterday, and was surprised to hear that the last letter you received from me was last Christmas. I have written five or six since that time. Well, here goes one more, so that if it arrives you will know that I am still alive and kicking. I received one box of tobacco while up in the front line and the two pairs of socks just before we left our rest camp the last time and was glad to get them.

The socks sure came in handy for the French shies they furnish us sure wear out socks quick. Khaki handkerchiefs are one thing that the people in the states have overlooked in sending boxes to the boys here, or if they did, they only sent a few. They are very hard to get here and are the only kind that can be used

here to advantage. So let the news be known to those who have boys over here.

I am sending you a clipping (picture) out of the paper which shows the auto rifle and team. I have a rifle the same as the one in the picture and am a gunner of the team.

Well bye-bye with love to you all. Your Brother,
Corporal WAYNE C. JACKSON.

CORA VINCENT ELLIOTT.
Cora Vincent Elliott passed away at the Butter creek home of Mr. and Mrs. Tom Johnson early Tuesday morning, May 7th. Mrs. Elliott had been in failing health for some time, and last year made an extended stay in Arizona, in order that a change of climate might prove beneficial to her condition. The change was only of temporary benefit and for the past several months she had been under the care of Mrs. Johnson, who is a trained nurse.

Cora Vincent Elliott was born in Walla Walla, Wash., December 13, 1883 and was the second daughter of G. W. and Elizabeth (Baird) Vincent. The greater part of her life was spent on the old Vincent farm on Butter creek.

She is survived by one living relative, a brother, Waldo Vincent, who lives near Lena.

The funeral was held on Wednesday at the Butter creek cemetery, where the body found its final resting place. Rev. H. A. Noyes of Heppner conducted the services and about 100 friends were present to pay their last respects to this good woman, who was called by death while yet in the prime of life. The deceased was not yet 35 years of age.

CARD OF THANKS.
We wish to extend to the kind friends our thanks and appreciation for the sympathy and kindness to us during our recent bereavement, in the death of our sister, Cora Vincent Elliott, also for the beautiful floral tributes.

DELCO-LIGHT

Increases Farm Efficiency

Fifty thousand Delco-Light plants in operation on American farms are saving at the most conservative estimate, an hour a day each—or over 18,000,000 work hours a year. That is equal to an army of 60,000 men working ten hours a day for a full month.

Delco-Light is a complete electric light and power plant for farms and suburban homes. It furnishes an abundance of clean, safe, economical light, and operates pump, churn, cream separator, washing machine and other appliances. It is also lighting rural stores, garages, churches, schools, army camps and railway stations.
