Dr. Boyden Returns.

Dr. Frank Boyden and Mrs. Boyden returned last evening from Washington, D. C., where the doctor was called for a national conference of the members of the medical section of the National Council of Defense. Dr. Boyden says that the meetings were very interesting. There is a feeling of optimism in the East regarding the ultimate result of the war, but also a current belief that it will be prolonged.—Pendleton Tribune.

H. C. Githens left Friday evening for Portland, on a brief business trip.

BUSINESS AND PROFESSIONAL MEN TO HELP IN COMING HARVEST

There is an ever increasing feeling of the serious shortage of harvest help. Not only are the farmers and threshing machine operators thinking of this, but we find many of the business and professional men discussing it. A number have signified their willingness to arrange their affairs so that it will be possible to go to the harvest field as part of the time. This is a liberal and desire to do an extra part by caring for the harvest, is very commendable.

There are in the different towns of Morrow county a number of men who have had experience in the harvest fields and could easily get into the harness again if the need becomes serious. The labor committee, of the Morrow County Agricultural Council in conference with Mayor Smead, decided that every loyal citizen who could possibly arrange his affairs would be given an opportunity of volunteering his services. The business houses will be expected to run short-handed or use girls in place of able bodied male help. Blanks may be had at the office of the county agent on which the individual may indicate the period for which he will work. It is not expected that very many will go out for the full period, but rather constitute a working reserve that may be shifted about to relieve temporary shortages to keep all machines running to their full capacity. This will perhaps entail some personal sacrifices, but there are no doubt many who are more than willing to make those sacrifices, and by all getting together and pulling together there should be no doubt of taking care of the harvest in Morrow county.

O. A. C. NOTES.

Dr. Edward Brown of London, international authority of the war food conditions, addressed the Oregon Agricultural College community at Corvallis May 21, on the subject of American relief of its European allies. "England is nearer famine than ever before in its history, and looks to America for relief," was the gist of his message.

William Allen White will be class speaker at the Oregon Agricultural Commencement, June 3. A request has been forwarded to the War Department for furloughs for members of the class now in training camps, and an application made for delay of one day in the departure of the new class of 171 men called to begin training at the Presidio June 4. Oregon has been called to the food production and conservation colors by Dr. W. J. Kerr, of the Agricultural College. Dr. Kerr has traversed nearly every portion of the State calling upon the people to awake to the seriousness of the food situation and hasten to the relief of their suffering associates in the war. The effect of his campaign has been almost magical, arousing the people to renewed efforts to grow and save the maximum food supplies for the army and its allies.

Expansion of its plants to accommodate 500 United States army men in training for mechanical duties in the U. S. Army has been requested of the Oregon Agricultural College by Prof. F. H. Shepherd district superintendent of military education for the Pacific Northwest. The reputation of the College for thorough work was the deciding factor in this effort to enlarge and make continuous for the period of the emergency departments for training the soldiers.

Infant Son Dies.

Ronald Lee, the nine day-old son of Mr. and Mrs. Lee Scribner died at 5 o'clock on Tuesday. Funeral services were conducted on Wednesday at the home of L. B. Scribner, by Rev. Wiedman, and the infant laid to rest in Condon cemetery.—Condon Times.

Attacked By Dog.

Mrs. G. W. Parman had the unpleasant experience of being attacked by a stray dog at her ranch home this week. She was standing in the yard when she saw the dog running rapidly toward her. He jumped upon her, almost felling her. Mrs. Parman seized the dog by the upper and lower jaws and held it thus to prevent biting, until her husband appeared. Judge Parman says the dog was not mad.—Condon Times.

T. G. Denisse, local contractor, made a business trip to Portland the last of the week, returning home Monday.

Mr. and Mrs. Payne have gone to Seattle, where Mr. Payne will attend the University of Washington. Mr. Payne was principal of the Pine City school the past year.—Echo News.

People who once went to New York for the Opera Season-- Now they stay at home with The NEW EDISON

FOR this marvelous instrument brings Grand Opera right into their homes. A new world opens to the eye and to the ear. The New Edison can't supply the former but it certainly does the latter. So far as hearing the great artists of to-day is concerned they themselves can give you no more than

The NEW EDISON

"The Phonograph with a Soul."

You can't improve upon perfection and this invention Re-Creates the singer's voice with such perfection that no human ear can distinguish artist from instrument. The Edison tone tests in which the singers have sung in direct comparison with the New Edison have proved this to more than 2,000,000 listeners. More than 1500 of these tests have been held. More than 30 great artists have appeared in them. Drop into our store to-morrow and hear a demonstration.

Edison Re-Creations should not be played and cannot be played properly on any other instrument. If they could be, the manufacturers who seek to profit by Mr. Edison's research work would be able to make tone test comparisons, such as have been made with the New Edison before two million music lovers.
