T. R. Smith and wife went to Heppner last week to have some dental work done for Mrs. Smith. A little over a month ago she had a number of teeth filled by a lady dentist who was traveling through the country, and two of the fillings pressed against the nerves of the teeth, causing Mrs. Smith much pain. The dentist at Heppner only gave the necessary relief by extracting the teeth.—Spray Courier.

Hanse & Seelye have rented the R. J. Carsner place, and Mr. Carsner is moving to Camas Prairie. This will place him near his cattle range.—Spray Courier.

HEPPNER PHYSICIAN WRITES OF TRIP EAST

N. E. Winnard and Son Norton Now in Chicago.—Remarks on Extensive Preparations Being Made For War in Middle West.

Chicago, Ill., June 7th, 1918.
To The Gazette-Times:

Before leaving home I believe I promised to write you a letter telling of my wanderings. The past three weeks have been so full of events I have hardly had time to write.

I left Heppner on May 12 with my son Norton as chaperon. After a 12-hours' rest at "Dad" Maddock's hotel at Arlington, we were on our way to Rochester, Minn., via Spokane. From Spokane to St. Paul we took the Chicago, Milwaukee & St. Paul. This is the newest and best of the transcontinental lines. Besides dining car service they stop every three or four hours for a lunch at the R. R. lunch counter where good food can be had at a reasonable price. The scenery through the mountains is beautiful. There are numerous high bridges and trestles and many tunnels. It certainly took some good engineering to build a road through so rough a country.

The morning we should have arrived in St. Paul there was a train wreck just ahead so we missed connections at St. Paul. We spent the day seeing the Twin Cities and they are well worth seeing with their beautiful lakes and falls and other attractions. We visited Ft. Snelling, situated on the banks of the Mississippi just below Minneapolis. We saw some troops drilling. They could not have been there very long for our Heppner Home Guard could have made them ashamed of themselves.

Two miles below Ft. Snelling are the Minnehaha Falls and the big government dam across the Mississippi, and the Soldiers' Home. Norton made some good pictures of these places. We reached Rochester that night well pleased with our trip.

The next day we were at the Mayo Hospital at 8 a. m., ready to see how the Rochester M. D.'s "cut up." No one except doctors are allowed to see the operations so I had to do a bit of Camouflaging to get Norton by, but we made it all O. K. and saw about thirty operations that day. There are six operating rooms in the main hospital, then there are several small operating rooms in the other hospitals. More than one hundred doctors are employed. While we were there patients were arriving at the rate of 200 per day.

They have specialists in every branch of medicine. We spent several days there which were very interesting and profitable. They handled about 50,000 patients last year. Many come hundreds of miles when they could be cared for just as well by their home physician. In fact nearly all the operations performed while we were there have been done in our Heppner sanatorium with just as good success as the Mayo's. I hope I will not be accused of boasting in saying this. There are some complicated cases that should go to specialists like the Mayos, but 95 cases out of 100 can be handled just as well at home.

After a short visit at White Water, Wis., we reached Chicago May 23rd. This great city is as busy, dirty and noisy as ever. While here, I have been taking special courses and attending clinics of the various hospitals. At the Cook county hospital there are 2700 beds. They handle 80,000 patients a year. There I saw everything from leprosy to ingrowing toe nail.

Everywhere one goes he sees soldiers and sailors, on the trains, at the hospitals, in the medical colleges. They have taken over the technical departments of the public schools. The army doctors are taking special courses in various branches of the medical schools. Five thousand navy boys from the Great Lakes Training station were out on parade last Wednesday. The factories of Chicago have been largely converted into munitions factories. It is hard to realize the extent of the preparations that Uncle Sam is making to get ready for the titanic struggle that is yet to come.

Next week is the meeting of the American Medical Society here in Chicago. They are expecting five or six thousand doctors at the meeting, which will have a department devoted especially to army surgery.

There is lots more I would like to tell but I fear this is too long for you to publish. We were so sorry to hear of the fire at home but are thankful it was not worse.

N. E. WINNARD.
Came to See Sisters.
Mr. and Mrs. W. T. Campbell are in town today from Heppner, having come to see the latter's sisters, Miss Mary and Miss Ellen Young, who left for Ontario, Canada. The young women came from Summerville, near La Grande, and took the train here this morning.—Fendleton E. O.

People once went to New York for the Opera Season-- Now they stay at home with The NEW EDISON

FOR this marvelous instrument brings Grand Opera right into their homes. A new made gramophone with double appeal: to the eye and to the ear. The New Edison can't supply the former but it certainly does the latter. So far as hearing the great artists of to-day is concerned they themselves can give you no more than

The NEW EDISON
"The Phonograph with a Soul."

You can't improve upon perfection and this invention Re-Creates the singer's voice with such perfection that no human ear can distinguish artist from instrument. The Edison tone tests in which the singers have sung in direct comparison with the New Edison have proved this to more than 2,000,000 listeners. More than 1500 of these tests have been held. More than 30 great artists have appeared in them. Drop into our store to-morrow and hear a demonstration.

Oscar R. Otto
Heppner, Oregon

Edison Re-Creations should not be played and cannot be played properly on any other instrument. If they could be, the manufacturers who seek to profit by Mr. Edison's research work would be able to make tone test comparisons, such as have been made with the New Edison before two million music lovers.
