**Roof Paint for Tree Wounds Found to be an Economical Way for Sealing Abrasions.**

Many orchardists and tree surgeons have found that the best and most economical way of treating tree wounds of all kinds is to cover them with roof paint. It is easy to apply and farmers throughout the country have used it with benefit in the treatment of abrasions, cuts and grafting. It is heavy enough in body to form a thick coating over the wound, thus preventing insects and the elements from harming the tree. It is also very easy to apply.

A professional tree surgeon and pruner who is taking care of some 20,000 trees, writes enthusiastically about it for use on citrus trees. "It is," he says, "the best thing I have ever used or heard of, and being so well satisfied I heartily recommend Ornite roof paint to any and all orchardists who may be interested in such a paint."

The use of this paint is undoubtedly the best, most convenient and economical way of healing abrasions of trees, and it greatly prolongs their life and productiveness.

**BE A Y. M. C. A. SECRETARY**

If you can measure up to these requirements you can go to France as a Y. M. C. A. War Work secretary:

- Good mixer
- Over draft age
- Not a pacifist or slacker
- Willing to go under shell fire
- Broad-gauged and willing to go where sent

The call has gone out from the National War Work Council of the Y. M. C. A. for 400 men for overseas service before September 1. These men must go to France as big brothers for the boys who have gone from their homes to fight in the great cause. The Y. M. C. A. secretary must take cheer into his life, serve him at all times and keep him fit to fight.

Frank A. Jackson, head of the bureau of personnel for the National War Work Council of the Y. M. C. A. with headquarters at 519 First National Bank Building, San Francisco, says that the need for men at this time is most urgent.

"We want men big enough to have a smile and a cheery word when they themselves are fagged out after hours of service for our boys. We want men with big hearts and hard muscles, men who will go to France on a blind assignment, ready to handle whatever job appears at the moment to be most important. We need natural leaders, men who are real men, good mixers and capable of exerting the proper influence."

"We don't want pacifists, slackers. Our men go under shell fire. They have been gassed and wounded by bursting shrapnel. We need men who understand something about athletics, who can drive motor trucks. We need red-blooded American men who don't know what fear is but who want to serve overseas and do something to help win this war."

**To Our Subscribers Living Outside of Morrow County**

**THE NEW ZONE POSTAL LAW** has gone into effect and as a result the cost of mailing The Gazette-Times to you has been materially increased. This increased cost, added to the already greatly advanced cost in all departments of the publishing business, makes it imperative that we collect in all due subscription accounts at once. Especially is this true of out-of-county subscriptions. Those living outside of Morrow county who are in arrears are urgently requested to send in their money at once.

**You Do Not Want To Do Without The Old Home Paper**

**IT IS NOW BETTER** than ever and getting better all the time. But "it takes money to make the mare go," and the quality of the paper must necessarily be determined by the response we receive on subscription accounts.

**The Gazette-Times MORROW COUNTY'S NEWSPAPER Is Now \$2.00 Per Year**

Statements are being mailed to all out-of-county subscribers and an early response will be appreciated.

**FOOD SAVING MUST BE KEPT UP.**

No matter how large may be America's next yield of wheat, it would be folly to suppose that there will be any return to a policy of unrestricted consumption of wheat products. The fact is that tendencies will probably be all the other way. For American wheat is no longer the property of America alone. Out of the wheat that we grow we must build up a great reserve that will be a bulwark against privation not only for us, but for all the countries by whose side we are fighting. We have got to make provision for a possible short crop next year and for possible short crops in France and England as well.

That means we must save without letup, and save on a scale even larger than heretofore. Our reward will come in knowing that while we are saving wheat we are saving the situation, too.

Part of that reward is already at hand in the shape of figures showing how American self-denial has tided England over the most difficult period of the war. Only American wheat, according to a British authority, saved England from adopting the restriction which her statesmen most dreaded—the rationing of bread. Bread cards, it is said, would have had a most depressing effect on British morale and the fighting spirit, yet bread cards would have been inevitable but for American wheat.

The meat situation was hardly less serious, and would have been positively disastrous except for American bacon, which all through the winter was a saving help in time of trouble of the English food administration. These are big results to show for the comparative little that we have given up. Even greater things may be accomplished if we do not relax.—Spokesman-Review.

**Why Not Others?**

E. M. Shutt, who is a successful salesman for the Oregon Life Insurance Co., went out to Jason Biddle's ranch on Rhea creek last Sunday, and will spend the next thirty days helping Mr. Biddle harvest his grain. Mr. Shutt aims to practice what he preaches—that it is a wrong policy for the soldier boys to be required to come home from their training camps to help save the grain crops while the towns and cities are full of able-bodied men, who are engaged in occupations that they could leave till after harvest. Insurance men and numerous others engaged in non-productive and non-constructive pursuits by helping the farmers with their crops could enable the soldier boys to go ahead with their much-needed training and thus be in shape to help lick the Kaiser and bring the war to an end as soon as possible. Mr. Shutt's example is worthy of emulation.

**CARD OF THANKS.**

We desire to express our thanks to the relief committee for the substantial aid rendered us following the destruction of all our property in the Heppner fire, and also the kind ladies who did sewing and brought in seedful articles of wearing apparel. This kindly assistance is appreciated more than mere words can express.

MR. AND MRS. BERT KRAMER.

Good music and a fine time for all those who attend the dance at Parkers Mill on Saturday evening, July 20.

If you have used other enamels you'll readily recognize the superiority of B-H Gold Seal White Enamel.

It's white and stays so. Makes a hard, glass-like, elastic finish that will retain its fresh appearance indefinitely.

**THEY ALL DEMAND IT.**

Heppner, Like Every City and Town in the Union, Receives It.

People with kidney ills want to be cured. When one suffers the tortures of an aching back, relief is eagerly sought for. There are many remedies today that relieve, but do not cure. Doan's Kidney Pills have brought lasting results to thousands. Here is Heppner evidence of their merit.

Mrs. H. Hughes, Court St., says: "My back ached and throbbled so badly at times I could hardly stand the pain. The way my kidneys were acting was causing me a lot of distress. I had taken only a few doses of Doan's Kidney Pills when I noticed a big change; my back felt stronger and my kidneys acted more regularly. One box permanently cured the trouble and since then I have enjoyed the best of health."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hughes had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

**Now Is the Best Time to Get Your Sedan**

THOSE who bought Chandler sedans last Fall, with the Winter in mind, find now that they have a most delightful Summer car. And those who buy now, with the Summer in mind, will find in a few months that they have a most comfortable Winter car.

For the handsome Fisher-built convertible sedan body which is mounted on the Chandler chassis is quite as much a Summer car as it is a Winter car. It is an open car when you want it open, and a closed car when you want it closed. All the windows are instantly adjustable and may be either entirely lowered away into the body panels or removed. The car is roomy, splendidly upholstered and seats seven in perfect comfort. The auxiliary seats face forward.

There can never be a better time of year than right now to get your sedan.
