Mr. and Mrs. Johnson and Mrs. Bearis and son of Wasco were Cecil visitors on Tuesday on their way to Boardman. Mr. Johnson reports good wheat crops in Sherman county this season.

We understand that there was a great deal of damage done by the storm which passed over Cecil on Monday, to the alfalfa and wheat crops. J. H. Miller reports his as a total loss, J. Crabtree partial loss, W. G. Palmateer total loss. Between \$35,000 and \$40,000 worth of crops was totally destroyed and several buildings had their roofs removed. On the Winslow & Vandervort place near Ione, the rentor, H. A. Edmonds lost 600 acres of wheat just ready to harvest. Mr. Winslow estimates the crop would have made a yield of thirty bushels to the acre.

FUEL NEWS

Portland, Ore., July 22.—George T. Dalton, special representative of the Federal trade commission who has just arrived to make inquiries concerning the fuel situation in Oregon today stated that Oregonians should accept cheaper grades of coal when they cannot secure early delivery of the best known grades.

"Conditions are such that people of the Northwest will find it almost impossible to secure delivery of many of the standard brands of coal," he said. "Although the bituminous coal production is the greatest in the nation's history the demands for fuel is unprecedented due to war activities."

"As a result the best coal cannot be mined in sufficient quantities to meet the demand. In Washington state, for example investigations just completed show that people have ordered coal early, but many will not secure deliveries until this winter because they have insisted upon specified brands of coal. The best plan is to secure fuel now and take no chances on shortage and fuel rations later."

Dalton and Fuel Administrator Holmes have held several conferences concerning the Oregon situation. Dalton states that Oregonians are among the foremost American to respond to the government's request for early fuel storage.

Still Looking After Sheep.

J. S. Buseick, who recently disposed of his holdings in the northern part of the county, was in town Wednesday. Mr. Buseick is making his headquarters with his family at the Blue Mt. Springs for the present. The lure of the sheep business was too strong after Mr. Buseick sold out and he is trying to break in again.—Canyon City Eagle.

O. B. Gates, of Hillsboro, was in Heppner for a few days during the past week helping with the book

work at the office of the Heppner Light & Water Co. He was accompanied by Mrs. Gates and they returned home on Tuesday morning.

People once went to New York for the Opera Season-- Now they stay at home with **The NEW EDISON**

FOR this marvelous instrument brings Grand Opera right into their homes. It has the double appeal: to the eye and to the ear. The New Edison does the former but it certainly does the latter. So far as hearing the great artists of to-day is concerned they themselves can give you no more than

The NEW EDISON
"The Phonograph with a Soul."

You can't improve upon perfection and this invention Re-Creates the singer's voice with such perfection that no human ear can distinguish artist from instrument. The Edison tone tests in which the singers have sung in direct comparison with the New Edison have proved this to more than 2,000,000 listeners. More than 1500 of these tests have been held. More than 30 great artists have appeared in them. Drop into our store to-morrow and hear a demonstration.

Oscar R. Otto
Heppner, Oregon

Edison Re-Creations should not be played and cannot be played properly on any other instrument. If they could be, the manufacturers who seek to profit by Mr. Edison's research work would be able to make tone test comparisons, such as have been made with the New Edison before two million music lovers.

Build Your Home on Paper First

The Right Way—The Only Way—Is to Plan Your Work Then Work Your Plan

The building game is new to the average home builder. You cannot be expected to tell the carpenter or contractor all you have in mind, nor can you expect him to make a record of everything you speak of.

Meet your carpenter half way by providing him with a carefully prepared set of plans and specifications. These plans show all details and how much of everything.

It is the only economical way to build. It will do away with extras, disputes and misunderstandings.

Ordinarily these blue-prints cost from \$10.00 to \$100.00 for each house. We furnish them free to our customers.

If you are considering making any kind of improvements, your first step should be to see us. We can save you money.
