25,000 WOMEN WANTED IN NURSE RESERVE

The Government is calling for 25,000 young women to join the United States Student Nurse Reserve and hold themselves in readiness for service as nurses.

The war is creating an unprecedented demand for trained nurses. Only those who have taken the full training course are eligible for service with our forces overseas. These nurses are drawn largely from our hospitals at home. Their places must be filled by student nurses enrolled for the full training course of from two to three years. Every young woman who enrolls in the United States Student Nurse Reserve is releasing a nurse for service at the front and swelling the home army which we must rely on to act as our second line of hospital defense. Upon the health of the American people will depend the spirit of their fighting forces.

Age.—The call for women between the ages of nineteen and thirty-five.

Qualifications.—Intelligent, responsible women of good education and sound health are wanted—the pick of the country. A college education is a valuable asset, and many hospitals will give credit for it. Credit will also be given for a special scientific equipment or for preliminary training in nursing, such as that given in special courses now being conducted by various colleges and schools. Some schools, on the other hand, do not even require a high-school education.

Enrollment.—Women will be given an opportunity to enroll in the United States Student Nurse Reserve in any one of three ways.

(1) As engaging to hold themselves in readiness until April 1, 1919, to accept assignments to nurses' training schools. These women will be sent to the schools as fast as vacancies occur. Those of superior qualifications will be given preference, and it is, of course, possible that not everyone who enrolls will be accepted.

(2) As desiring to become candidates for the Army Nursing School recently established by authority of the War Department, with branch schools in selected military hospitals.

(3) As engaging to hold themselves in readiness until April 1, 1919, to accept assignments to either a civilian training school or the Army Nursing School. Those who so enroll will be called where the first need arises. The Government hopes that a majority of those who enroll will thus put down their names for both.

Nurses' Training Schools.

There are 1,579 nurses' training schools in this country. Their need is as great and imperative as that of the Army School of Nursing. Those who enroll for these schools will be assigned as vacancies occur.

The enrollment card will indicate two classes of registrants—Preferred and Deferred. The Preferred class will be those who are ready to accept assignment to whatever hospital the Government directs them, although they may state what training school they prefer to be sent to. Those who register in the Preferred class will be assigned first and all possible consideration will be given to their preference as stated. The Deferred class is composed of those who limit their pledge of service—that is, who will not engage to go except to certain hospitals. This class is intended largely for those who, for family reasons, can not accept training at a distance from their homes. Those who register in the Deferred class will be assigned only after the Preferred class is exhausted.

The Government relies on the patriotism of those who enroll to fill out Preferred cards if they possibly can, thus volunteering to go where they are most needed.

Nobody will be assigned to any schools whose conditions of training are not approved by the State Board of Nurse Examiners.

Terms of Training.—The term of training varies from two to three years, according to the requirements of the particular school to which the student nurse may be sent. No course takes less than two years nor more than three.

What the Training Course Prepares For.—At present every woman who completes satisfactorily her training in any accredited school is eligible for service as an Army nurse at the front and stands a chance of being assigned to duty abroad. At the same time she will be qualified to earn her living in one of the noblest professions open to women. It should be remembered, furthermore, that her acquisition will begin not when she graduates from the training school but as soon as she enters it. Practical nursing work is a part of the work of every training school, and the student nurse is not only learning to serve but serving her country from the outset.

Finances.—The student nurse gets her board, lodging, and tuition free at practically every training school, and in most cases receives a small remuneration to cover the cost of books and uniforms. After graduation she has an earning capacity of from \$100 to \$300 a month. Private-duty nurses now receive an average

of from \$100 to \$120 a month together with board while on duty; institution nurses from \$50 to \$250 a month together with board, lodging, and laundry; and public-health nurses from \$100 to \$250 a month without maintenance. There is no danger of the earning capacity of nurses being lowered after the war ends on account of the greater number who will then be qualified for the profession; the country will need all the nurses that can be trained, not only during the war but after it, especially for reconstruction work. Even if the war ends within three years, every student nurse will be able to complete her training and will be needed.

An Honorable Service.—Ever since the days of Florence Nightingale the nursing profession has been one of of especial honor. It was never so honorable as it is to-day. The Army needs every nurse it can get to "keep up with the draft." The United States Student Nurse Reserve is the equivalent for women of the great National Army training camps for soldiers. The Government will rely upon the student nurses to fight disease at home, to care for those injured and disabled in our hazardous industries, and to make themselves ready to serve when the time comes as fully trained nurses, either abroad or at home. Let us show that we know how to answer the Government's call to the women of the country.

Enroll at the nearest recruiting station established by the Woman's Committee of the Council of National Defense.

Morrow county's quota for the United States Student Nurse Reserve in this drive for 25,000 is five, and anyone desiring further information should see Mrs. A. E. Biens, Heppner; Mrs. T. B. Buffington, Ione; Mrs. H. N. Swank, Morgan; or Mrs. T. H. Lowe, Cecil. The time of enrollment is from July 29 to August 11th.

Former Heppner Girl Married.

The following clipping from a Weiser, Idaho paper will be of interest to the many friends of Miss Nellie Thompson, who was recently married to Mr. John L. Jackson of Emmett.

Miss Nellie J. Thompson and Mr. John L. Jackson were married at the home of the bride near Crystal Tuesday, July 23rd. Rev. F. D. Muse of the Christian church officiating.

Miss Thompson graduated this year from the Weiser high school. Mr. Jackson is the son of Alexis Jackson of Sunnyside. Just three months before the sister of the bride, Miss Pearl Thompson was married to the brother of Mr. Jackson by the same minister on the same day of the month and the same day of the week, at the same place in the presence of the same people. This son, Delbert Jackson, is in training in Southern California and will soon go to France.

John L. Jackson and bride will reside for the present at Emmett where the groom has employment.

New Warehouse Going Up.

Gradually new structures are being planned and some of the burnt-over district of Heppner is to be rehabilitated. Willow Lodge No. 66, I. O. O. F. will begin at once the construction of a new warehouse just at the rear of the store of Minor & Co. This is to take the place of the wooden warehouse destroyed by the fire of May 27. The new warehouse will be of concrete construction, 20x50 feet and built to the rear of the store room. We understand that Ed Buckman has the contract for the work.

Fire Destroys Grain.

About forty acres of grain, a barn and two horses were destroyed in a fire which started on the place farmed by A. D. Sichter on Balm Fork. The fire started late Monday evening and although assistance from Heppner was called for, the neighbors had the fire under control before help arrived from town. It is not known how the fire started. The amount of damage done will be in the neighborhood of \$1800.

Karl L. Beach and family of Lexington passed through Heppner this morning, their auto loaded with full camp equipment. They were headed for Ditch creek to spend a short outing.

TO WAR FUND SUBSCRIBERS

Will Spend Vacation at Sunnyside.

Rev. H. A. Noyes wife, and two small children departed Monday for Sunnyside, Wash., where they will spend their vacation. Mr. Noyes expects to be absent for at least three weeks, during which time there will be no preaching services at the Federated church. He has a small fruit farm at Sunnyside, and the days of his vacation will be taken advantage of in looking after this place and the fruit crop.

Robert Service, prominent business man of Baker, passed through Heppner today by car on his way from Portland. Mr. Service has been engaged in the lumber business and other lines of trade in Baker county for many years, and at the general election two years ago he was a candidate before the people for nomination to the office of public service commissioner from Eastern Oregon. Many of our people made his acquaintance at that time and found him to be a very worthy man.

Stephen Irwin is home for a few days on a short furlough from Berkeley, Calif., where he has been since leaving Heppner some two months ago, in the technical school studying aviation. He expects to go into actual training very shortly at Camp Dix, Texas. After a short visit here, Stephen will go to Rockaway, where the Irwin family are staying for the summer, and spend the balance of his furlough with the folks at the beach.

George Meade, farmer of Sour Dough canyon, was in Heppner this morning. He has just about finished his heading and will be ready for the thrasher as soon as it can reach his place. D. M. Ward will do his threshing.

NO REASON FOR IT

When Heppner Citizens Show a Way.

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of urinary disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who has found relief. Read what a Heppner citizen says:

I. R. Esteb, says: "I am a strong believer in Doan's Kidney Pills and whenever I get a chance I recommend them to others. I don't hesitate to do so, for I know that they can't be beat. When I feel in need of a kidney medicine, I get a box of Doan's Kidney Pills from Humphrey's Drug Store, and in a few days the pain in my back is relieved and my kidneys become normal."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Esteb had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.
