**CHANDLER SIX**

*Famous For Its Marvelous Motor*

**A Great Automobile At Moderate Cost**

NEARLY fifty thousand Chandler owners know how powerful and responsive, how economical, how dependable and enduring the Chandler car is.

"Greatest of all light sixes" never more accurately described the Chandler than it does today. If you wished to search the whole market with minute comparisons and tests this would be your answer, too.

In the ownership of a Chandler Six you will possess a really great automobile—great from the standpoint of mechanical excellence and daily performance under all road conditions, great from the standpoint of economy in operation and maintenance. Thousands of Chandler owners tell of gasoline mileage of fifteen to seventeen miles per gallon. Seven thousand to nine thousand miles per set of tires is the usual Chandler report. Owners and dealers alike say the service upkeep of the Chandler car is much less than that of other good cars which they have owned or sold.

Beautifully designed and finished bodies are mounted on the famous Chandler chassis.
