In making note of the sale of the Penland estate lands last week, it was stated that C. A. Minor was the purchaser at a price of \$88,000. This sum was correct, but it included the purchase price, also of the lands

of George W. Sperry and the amount going to the Penland estate was \$65,000. Evidently our informant did not have the correct dope and we make this correction in justice to the parties interested.

T. J. Humphreys made a trip to Jordan Siding and up Rhea creek as far as the Frank Lieuallen place on Sunday, accompanied by his family in the Maxwell car. Mr. Humphreys says that he found everything looking pretty well along the creek, and he was particularly impressed with a

few miles of road under the care of John Olden, that Mr. Olden had dragged following the rain storm of last week. This piece of road is just like pavement now, and Mr. Humphreys is convinced that it would have paid Morrow county to put the road crew at work dragging a lot of the roads following the rain, if the good work done by Mr. Olden is a criterion. The rain had washed out the road up Rhea creek in many places and large boulders had been moved down from the hill sides, making it somewhat difficult to get by in some places.
