Expense lowest, much opportunity for working one's way. Write Registrar, Eugene, Oregon, for illustrated booklet.

"Proven Entirely Satisfactory"

Only perfect satisfaction can account for the use of ZEROLENE by the majority of automobile owners.

Leading coast distributors also testify that it is "a most satisfactory motor oil."

They know from the records of their service departments—and we know from exhaustive tests—that ZEROLENE, correctly refined from selected California asphalt-base crude, gives perfect lubrication with least carbon deposit. Get our lubrication chart showing the correct consistency for your car.

At dealers everywhere and Standard Oil Service Stations.

STANDARD OIL COMPANY
(California)

ZEROLENE
The Standard Oil for Motor Cars

This, the "L" Head type of automobile engine, like all internal combustion engines, requires an oil that holds its lubricating qualities at cylinder heat, burns clean in the combustion chambers and goes out with exhaust. ZEROLENE fills these requirements perfectly, because it is correctly refined from selected California asphalt-base crude.

Deering

WITH the Deering Combined Harvester, you can harvest your crop for one-half the expense you can any other way. Two men is all that is necessary to put your wheat in the sack.

The machine cleans the grain in perfect manner, takes out and saves all weed seed and leaves straw in bunches to be easily taken care of.

Can furnish them with or without an engine. Will have to have your order early in order to insure getting the machine. The factory is limited to a definite number of machines and when that number is reached there will be no more for anyone.

Saving Sugar Saves Shipping

REGARDING HAWAIIAN SUGAR AT CALIFORNIA PORTS

LOADING CANE IN HAWAII FROM WHICH AMERICA GETS HALF A MILLION TONS OF SUGAR A YEAR.

AMERICAN families would have less sugar than the people of war torn France, if we depended entirely on our home-grown sugar stocks.

Approximately 75 per cent. of our sugar is shipped to our shores. We produce about 1,000,000 tons of sugar a year. Our imports from abroad amount to over 3,000,000 tons a year in normal times.

The United States Food Administration asks each family to limit its use of sugar to two pounds per month per person for household use. The military situation demands that every available ship be placed at the disposal of the Army or Navy. When we save sugar, we save shipping.

FOURTH LIBERTY LOAN CAMPAIGN WILL OPEN FORMALLY SEPTEMBER 28

The Fourth Liberty Loan Campaign will open formally throughout the country on September 28th, but a preliminary educational campaign will be undertaken in Oregon commencing on September 15th, for which purpose organization is now being perfected.

The country will be called upon to subscribe six billion dollars, of which Oregon's allotment will be approximately forty million dollars.

In order that Oregon may meet this huge demand upon its resources, every citizen of the state must be enlisted in the united and undivided support of the loan, and be thoroughly aroused to the necessity of responding promptly to the demands which loyalty and patriotism place upon him.

The citizens of Oregon have resolutely met every duty and obligation incident to the war, and have placed their state among those who rank foremost in duty well performed. We expect that this standard will be maintained in the Fourth Liberty Loan Campaign.

You are, therefore, urged to give this cause your earnest attention and to assist in every possible way the movement to put OREGON FIRST OVER THE TOP.

Our boys on the western front have their faces toward Berlin—there can be no backward step. We are determined that the struggle for democracy and universal peace throughout the world shall not be in vain.

Let us at home do our full duty.
Yours for World Democracy,
MILTON A. MILLER,
Chairman, Sub-Committee, Federal, State and County Officials, Fourth Liberty Loan Campaign.
EDGAR B. PIPER,
General Chairman, Committee on Speakers and Music, Fourth Liberty Loan Campaign.

OREGON ZERO HOUR 9 O'CLOCK SEPT. 28

The all-important "zero hour" of the battles in France is to have its counterpart in the campaign of the Fourth Liberty Loan in Oregon.

Battles in France are timed from an hour, or minutes of an hour. This time is known as the "zero hour" and is a secret closely guarded by the division heads. All movements of troops and all action is based on time calculations made from the "zero hour." A certain infantry receives instructions to take a certain objective at so many minutes past the zero hour. In that way a whole campaign can be worked out in detail, with all commanders fully aware of their relation to other movements, waiting only the secret which is the key to the whole movement.

Oregon's "zero hour" for the next Liberty Loan is nine o'clock, September 28. This is the watchword of the whole drive and through voluntary subscriptions this state is expected to have attained all objectives and again be "over the top" first by nine o'clock of the day when other states will just be getting into action.

County managers and committee men in their recent meeting in Portland decided that it could be done; that all Oregon needed was to be told how much Uncle Sam needed, and how badly he needed it, and its patriotic citizens would do their part so willingly that the effort of soliciting committees would not be needed.

Symbolizing this whole scheme, state headquarters has sent to the Gazette-Times a graphic interpretation of the hour of the campaign. It is a small clock with the "zero hour" nine o'clock pointed out by the hands.

At the top, a soldier in an expression of grim determination brings home the spirit of accomplishment while at the bottom is Uncle Sam, confidently looking at the time indicated. It is up to Oregon to see that he is not disappointed.

Buttons for subscribers to the next loan have also arrived in Oregon and are now being distributed to the county organizations. The button is slightly smaller than the last. It is patterned after the honor flag of the last loan, being a rectangle of white bordered with red and crossed by the four blue stripes, symbolizing the Fourth Liberty Loan.

Posters and other advertising matter are arriving in great quantities and problems of previous drives with regard to slow deliveries of supplies have been overcome with early movement from Washington in the way of large posters and lithographs and local production of the smaller matters.

Local committees will get what they want when they need it so they will be able to offer their subscribers every inducement to make his voluntary declaration in plenty of time to make good the plan of the state committees.

Mr. and Mrs. Harley Sprouls of this city and Mr. and Mrs. Chauncey Keeny of Monument departed on Sunday for Seattle, the young men going to that city to obtain work in the ship yards.

Mr. and Mrs. Frank Anderson of Eight Mile were visitors in Heppner on Saturday.

SWIFT & COMPANY U.S.A.

Packers' Profits Are Regulated

The public should understand that the profits of the packers have been limited by the Food Administration since November 1, 1917. For this purpose, the business of Swift & Company is now divided into three classes:

Class 1 includes such products as beef, pork, mutton, oleomargarine and others that are essentially animal products. Profits are limited to 9 per cent of the capital employed in these departments, (including surplus and borrowed money), or not to exceed two and a half cents on each dollar of sales.

Class 2 includes the soap, glue, fertilizer, and other departments more or less associated with the meat business. Many of these departments are in competition with outside businesses whose profits are not limited. Profits in this class are restricted to 15 per cent of the capital employed.

Class 3 includes outside investments, such as those in stock yards, and the operation of packing plants in foreign countries. Profits in this class are not limited.

Total profits for all departments together in 1918 will probably be between three and four per cent on an increased volume of sales.

The restrictions absolutely guarantee a reasonable relation between live stock prices and wholesale meat prices, because the packer's profit cannot possibly average more than a fraction of a cent per pound of product.

Since the profits on meat (Class 1), are running only about 2 cents on each dollar of sales, we have to depend on the profits from soap, glue, fertilizer (Class 2, also limited) and other departments, (Class 3) to obtain reasonable earnings on capital.

Swift & Company is conducting its business so as to come within these limitations.

Swift & Company, U. S. A.

Problems of Harvest

AS THESE APPROACH—as the gathering and marketing of products arise—then truly does the value of a bank account make itself known to the rancher. Backed by established credit—as well as cash—he is in a position to reap the reward for his labors.

THE FARMERS & STOCKGROWERS NATIONAL BANK IS ALWAYS IN A POSITION TO CO-OPERATE WITH THE LEGITIMATE NEEDS OF CUSTOMERS.
