How We're Going to Help Uncle Sam Put More Money Into Lexington.

(Explaining the use of "TRADE ACCEPTANCE" in plain terms.)

In order to put more money in circulation throughout the country Uncle Sam has created the FEDERAL RESERVE BANKS.

Here's how it is done:

Suppose John Doe has purchased merchandise to the extent of \$40. from Richard Roe & Co. and desires credit on same longer—for 60 days.

The banks have furnished a "TRADE ACCEPTANCE" which looks like this:

Accepted Sept. 1, 1918. Payable at LEXINGTON STATE BANK Lexington, Oregon By John Doe, Per	TRADE ACCEPTANCE RICHARD ROE & COMPANY Lexington, Oregon, Sept. 1, 1918.
	On Nov. 1, 1918 Pay to the order of ourselves Forty DOLLARS \$40. Plus interest at 8% after date. The obligation of the acceptor of this bill arises out of the purchase of goods from the Drawer. VALUE RECEIVED AND CHARGE TO THE ACCOUNT OF To John Doe Lexington, Oregon. RICHARD ROE & CO. By

Mr. Roe then takes this TRADE ACCEPTANCE to his local bank who sends it in to the Federal Reserve Bank nearest and this money is then credited back to the local bank for FURTHER CIRCULATION IN LEXINGTON.

The TRADE ACCEPTANCE has been recommended by Uncle Sam in these WAR TIMES. We feel that it is a patriotic duty to use this form of extension of credit at this time and thus HELP UNCLE SAM PUT MORE MONEY INTO MORROW COUNTY.

For further information consult your banker or we will be glad to explain.
