**LIVE CECIL NEWS ITEMS**

Joe White of Willows left for Heppner Tuesday.

Phil Doherty of Wells Springs transacted business in Cecil on Monday.

A. Henriksen and sons left for Heppner Friday and returned home Saturday.

Miss Annie C. Lowe arrived from The Dalles Sunday to spend a few weeks at her Cecil home.

Mr. and Mrs. Henry Streeter, accompanied by J. W. Osborn, visited friends in and around Arlington Sunday.

George R. Melton returned from Pendleton Sunday and left for Heppner to work during the remainder of the threshing season.

Miss Bernice Franklin of the Fairhurst ranch, is staying with Mrs. Jack Hynd so that she may be able to attend the Cecil school.

Misses Barratt, Hynd and Lieualen of Heppner participated in the basket social held at Cecil Saturday evening. They returned home on Sunday.

A large crowd assembled at Cecil Hall Friday evening to attend the Fourth Liberty Loan meeting. Many bonds were sold and Cecil again showed her true color by going over the top. Everyone enjoyed the fine speeches and musical program given by the ladies and gentlemen from Heppner and Ione.

T. W. Lowe, who has been attending camp at Whitney for W. B. Barrat, of Heppner, for the past few months, returned to his home at Cecil on Monday. On Wednesday he proceeded on to Portland with his father, T. H. Lowe, postmaster of Cecil. There he passed the medical examination at the British recruiting office and later left for Seattle en route to Nova Scotia to enlist in the army.

The basket social, organized by Mrs. Lowe, Cecil Red Cross chairman, was a splendid success. There was a fine display of baskets and some of these sold for as high as \$10. The ladies' hand bag worked and donated by Mrs. George A. Miller, was sold for \$10.50. A sheep, donated by Jack Hynd, brought \$18, and a special donation of five dollars was handed in by R. E. Duncan who was unable to attend the social, and other donations are promised. The account in detail of the proceeds will be given next week. Many thanks are also due to the Liberty Loan speakers and singers of Heppner who kindly donated \$5.25 towards the basket social.

**Heppner Man to Install Water Power Plant.**

From the Klamath Record of Klamath Falls, we take the following with reference to an irrigation plant that will be installed by Dr. N. E. Winnard of this city.

Development of a power sight at Crescent, in northern Klamath by Dr. N. E. Winnard of Heppner, is reported today by Don Jolly, a prominent resident of that section who arrived from there yesterday. He indicates that the power will be used for pumping water on lands in the Fort Rock district in Lake county and for other purposes.

The power site is located on the outskirts of the town of Crescent. Engineers are already at work on the new project according to Mr. Jolly. It is well known that there are rich tracts of land in the Fort Rock districts which will produce abundantly, once the water for irrigation can be supplied.

**Idaho Farmers Pool Wool Shipments.**

Two hundred and thirty thousand pounds of wool were handled by a farmers' wool pool organized with the help of the farm bureaus of Ada and Canyon counties, Idaho, and the United States Department of Agriculture. The wool sold at 60 cents a pound, and the total amount received by the farmers was \$76,400. The cost of handling was prorated and found to be three-thousandths of a cent a pound. The farmers feel that the pool saved them several thousand dollars. Members of this year's pool are planning for next year. They are learning something of the different grades of wool, so that next year they can grade and classify to better advantage. Through the help of the Lewis County Farm Bureau a similar pool was organized which shipped 10,000 pounds of wool to Salem, Oregon. Lewis county has always been regarded as a grain-growing county. Since the organization of the farm bureau, however, a great interest has been developed in sheep raising, and this wool pool indicates what measure of success has already been obtained. Ninety five thousand pounds of wool were sold by the Jerome Wool Growers' Association, developed with the help of the farm bureau in Lincoln county.

Percy Jarmon, of Butter creek, was a Heppner visitor Monday, accompanied by Ed Ditty. The small rain out that way Sunday evening put the hay pitchers out of business for a day.

Andy Cook was exhibiting some fine specimens of field corn on the street Monday morning. It was grown on the sidehill at his place just south of town and is a variety that he has developed during the past seven years. This particular corn was planted in May and is thoroughly well matured. He also has some of the same variety that was planted on the 6th of June, and this, also, is now maturing nicely. The specimen ears we saw are certainly fine, and Mr. Cook is furnish-

ing seed to his neighbors, having sold some 400 pounds already and he is prepared to furnish plenty of seed to those who are looking for a corn that can be relied upon to produce a crop.

Mr. and Mrs. H. M. Olden of Fairview were visitors in Heppner on Thursday last. Mrs. Olden returned a few days before from a visit with

her sons Walter and Harold Dobyns, who are now in the service of Uncle Sam. Harold is at Seattle and Walter is at Camp Fremont, Calif., and expects that he will be called to go to the front at a moment's notice now. Mrs. Olden enjoyed her visit at the military camps and was well pleased with the treatment the boys are receiving.

**COOK WITH PEARL OIL**

**Ready to Cook in a Jiffy**

Just the touch of a match and your New Perfection Oil Cook Stove is ready for cooking. No waiting for the fire to burn up.

Easier to operate than a coal or wood stove: No smoke or odor; no dust or dirt. Bakes, broils, roasts, toasts,—all the year round. All the convenience of gas. And a cool kitchen in summer.

In 1, 2, 3 and 4 burner sizes, with or without ovens or cabinets. Ask your dealer today.

**People once went to New York for the Opera Season-- Now they stay at home with The NEW EDISON**

FOR this marvelous instrument brings Grand Opera right into their homes. It has a double appeal: to the eye and to the ear. The New Edison can't supply the former but it certainly does the latter. So far as hearing the great artists of to-day is concerned they themselves can give you no more than

**The NEW EDISON**

"The Phonograph with a Soul."

You can't improve upon perfection and this invention Re-Creates the singer's voice with such perfection that no human ear can distinguish artist from instrument. The Edison tone tests in which the singers have sung in direct comparison with the New Edison have proved this to more than 2,000,000 listeners. More than 1500 of these tests have been held. More than 30 great artists have appeared in them.

Drop into our store to-morrow and hear a demonstration.

**Oscar R. Otto**

Heppner, Oregon

Edison Re-Creations should not be played and cannot be played properly on any other instrument. If they could be, the manufacturers who seek to profit by Mr. Edison's research work would be able to make tone test comparisons, such as have been made with the New Edison before two million music lovers.
