Victory Boys and Girls.

In the big drive of the United War Work activities, the boys and girls will have a prominent part in raising the big fund for our boys "over there" and in the training camps. The boys will be known as "Victory Boys" and the girls as "Victory Girls." The quota for the whole country is one hundred seventy million dollars. The boys and girls are not to solicit funds. They are to follow the plan of "earn and give." The campaign opens November 11. The subscriptions will be taken up during that week. A reasonable time will be given in which to pay the pledges. It is planned to enroll one million boys over fourteen years of age who will pledge themselves to earn and give \$5.00 each, or more. Many cannot pledge that much, and the younger boys and girls will not be expected to undertake such amounts. But nearly every boy or girl in the first grade can earn 25 cents or more. Older boys and girls can earn 50 cents, \$1.00, or more. Do not wait for the campaign to open. Begin looking around for a chance to earn something for the fund. Some of the merchants would be glad to give away the crates and some of the boxes which they throw out back of their stores and hire hauled away. Some of the boys might break these up and sell them for kindling. That would help in the fuel conservation and enable them to get a few dimes for the big fund. There are many other ways for making money, and older people should assist in finding jobs for the boys and girls. If any boy or girl has any good plan for earning money for the fund, please let me know about it, and it will be passed along to others.

S. E. NOTSON, County Chairman.

NO GASOLINE FOR SALE ON SUNDAY

New War Measure By Oregon State Council of Defense.

The Oregon State Council of Defense has requested that no delivery of gasoline, engine distillate or other petroleum products be made on Sunday and as a result the Standard Oil Company has announced that beginning Sunday, October 20th, and hereafter until further notice, all of their distributing stations in the state of Oregon, including their automobile service stations, will be closed on Sunday. No sale or delivery of any kind will be made on any day.

As in the case of the recent announcement regarding the sale of gasoline and engine distillate on week days only between the hours of 6 a. m. and 6 p. m., this latest request by the State Council of Defense is made for the purpose of conserving man-power. It is expected that all users of petroleum products will patriotically co-operate in mak-

ing this important new war measure effective.

New Enterprises to Start in Boardman.

G. C. Blayden, the well known Boardman contractor and builder, dropped into our sanctum Saturday of last week while here with Mrs. Blayden on a visit to their daughter, Mrs. J. F. Gorham, and during the course of conversation informed us that his home town in Morrow county was about to enjoy unprecedented prosperity.

This is coming about through the town endeavoring to keep pace with the fast settling surrounding country. Recently a Mr. Haskins from Portland purchased five business lots and is now making preparation to have a large concrete block erected in which he will establish a general merchandise store. Another enterprise is a grocery, stationery and notion store which has been started by C. C. Payne. It was also stated by Mr. Blayden that the Boardman school has a corps of teachers equal in educational qualifications to any in Morrow county, and that the enrollment is climbing up admirably with the arrival weekly of new families.—Hermiston Herald.

Mayor Smead has been laid up at home this week with an attack of the "flu," so-called, though we suspect it was just a plain case of grippe. His case is not serious.

WANTED TO RENT—Farm from 200 to 500 acres—shares or cash. Have stock and implements to do farming. Inquire WM. SALZWEDEL, Heppner.

LOST—Some sheep, coming from the mountains—about 150 head, o-o brand. Will pay reward of \$1.50 per head for their recovery. JAMES CARTY, Lexington, Ore.

NOTICE TO CREDITORS.

Notice is hereby given that the undersigned has been appointed by the County Court of the State of Oregon for Morrow County administrator of the estate of John H. Thomas, deceased, and that all persons having claims against the said estate must present the same duly verified according to law, to me at the office of my attorney, S. E. Nelson, in Heppner, Oregon, within six months from the date of the first publication of this notice, said date of first publication being October 25, 1918. JAMES THOMAS, Administrator.

Government Restrictions on Building

What is essential to YOU, and your NEEDS, in the building line, is essential to the Government—providing it doesn't cost over \$2,500.

That, in brief, is the ruling of the War Industries Board with reference to building activities until the war is over.

It is true that the Government is restricting building operations of all kinds. Men and materials must be conserved and all available resources devoted to the one great purpose of WINNING THE WAR—but:

If you are planning a new home that doesn't cost over \$2,500;

If you are planning extensions or improvements to your present home that do not cost over \$2,500;

If you are planning a new barn, hog houses, sheep sheds, or any other farm improvements, the entire cost of which does not exceed \$2,500, you may proceed with your plans and go ahead and build without asking anybody's consent or authority.

If, however, your contemplated new home, or the building improvements that you have in mind, will COST MORE THAN TWENTY FIVE HUNDRED DOLLARS, then you will have to make ap-

plication in writing for permission to do so to the local representative of the Council of National Defense.

Convince him that it is essential; that it is necessary for the health and comfort of your family or your hired man's family; that it will help you produce more food for the boys at the front and the folks at home; that the materials and the labor can be had in your own home town, and you will likely have no trouble in getting your permit to build.

We, doubtless, can furnish all the materials that you will require for a new building of any kind. We probably have got all the lumber, and other things that you will need, already in stock.

We KNOW we have if it's only a small building that does not come within the Government restrictions; we BELIEVE we have if it's for a more pretentious home.

At any rate, come in and let us figure with you. The Government is welcoming farm improvements and buildings of the kind that will increase crop and live stock production. There is no reason for delaying work of that kind any longer.

Do it NOW, while you have the time, the money and the inclination.

People once went to New York for the Opera Season-- Now they stay at home with The NEW EDISON

FOR this marvelous instrument brings Grand Opera right into their homes. It has a double appeal: to the eye and to the ear. The New Edison can't supply the former but it certainly does the latter. So far as hearing the great artists of to-day is concerned they themselves can give you no more than

The NEW EDISON

"The Phonograph with a Soul."

You can't improve upon perfection and this invention Re-Creates the singer's voice with such perfection that no human ear can distinguish artist from instrument. The Edison tone tests in which the singers have sung in direct comparison with the New Edison have proved this to more than 2,000,000 listeners. More than 1500 of these tests have been held. More than 30 great artists have appeared in them. Drop into our store to-morrow and hear a demonstration.

Oscar R. Otto

Heppner, Oregon

Edison Re-Creations should not be played and cannot be played properly on any other instrument. If they could be, the manufacturers who seek to profit by Mr. Edison's research work would be able to make tone test comparisons, such as have been made with the New Edison before two million music lovers.
