Ed Rugg, farmer of Rhea creek, states that the feed was never better at this season of the year than it is this fall. The Rugg brothers retired from extensive sheep business some time since and are running only a small band of ewes at present. They also have quite a number of head of cattle, and all the stock is doing exceptionally well.

Mr. and Mrs. J. T. Knappenberg have disposed of their Heppner residence property to Mrs. E. E. Campbell. They expect to go to Portland to reside for the winter as soon as the influenza epidemic has subsided. Until that time they feel that it is better to remain in this altitude and get the benefit of the pure air here.

VICTORY BOYS AND GIRLS.

The big drive for the United War Work activities will begin November 11th. Do not think that the prospects for peace make this drive unnecessary. If the fighting should stop, it will be months before the boys can be discharged. During that time there will be more need, if any difference, than now for the work of the United War Work organizations. Every boy and every girl will want to share in the work. The plan is to secure one million boys who will pledge themselves to "earn and give" at least \$5.00 each to this work. The girls will do all they can. Many of the boys and girls will be able to give more than \$5.00, but many more cannot do that much. Any amount will be accepted, and every contributor will be enrolled as a member.

On account of the influenza public meetings can not be held and personal solicitation can not be made. We want every patriotic boy and girl to notify his or her teacher or the county chairman, by mail or telephone, how much he or she will give. The money may be paid in three payments, December 2, 1918, January 15, 1919, and March 1, 1919, or at such other dates as may be convenient before March 1, 1919. This gives you time in which to earn the money. Now, we hope that on November 11, without fail, you will notify your teacher or the county chairman: We want to see which organization makes the best showing. Boys, you will need to look out, for I have heard some of the girls are going to see that the Victory Girls "go over the top" first.

To the older people I wish to say: Do all you can to encourage and help the boys and girls in this drive. See that every boy and girl in your neighborhood knows about it. If anything is not understood, write or telephone the county chairman. In the bright days coming after the war is over, when the boys come home, the boys and girls who wear the Victory buttons will be proud of them and the part they took in this drive. And the soldier boys will be pleased to look into the faces of the boys and girls who wear the Honor Badge. Do not let any boy or girl in your community fail to prove himself or herself 100 per cent American.

KEEP THE HUT FIRES BURNING.
S. E. NOTSON, County Chairman.

THAT BAD BACK.

Do you have a dull, steady ache in the small of the back—sharp, stabbing twinges when stooping or lifting—distressing urinary disorders? For bad back and weakened kidneys Heppner residents recommend Doan's Kidney Pills. Read this Heppner statement.

Mrs. H. Tash, says: "I was almost down with backache and bladder trouble. For several weeks it was hard for me to get about and I felt so miserable I could hardly walk. My back was weak and sore and at times I could hardly straighten after stooping. My kidneys were disordered and bothered me a lot. Since taking three boxes of Doan's Kidney Pills, I have had very little trouble."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Tash had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

OREGON FUEL NEWS.

Portland, Nov 4.—To use wood and save coal wherever possible becomes still more urgent in the face of an estimated coal shortage of 14,000,000 tons of coal for winter. The war is not over, and in the face of decreased production due to Spanish influenza and other causes, and the vast war time fuel needs, fuel conservation is more necessary than ever.

Country communities are in position to help greatly coal conservation by burning wood. It is estimated that farmers now use 83,000,000 cords of fuel wood annually. All farms should use it during the war, especially in the Northwest where it is so plentiful.

A call has been made upon the coal mines of the Northwest to supply South America with fuel which has thus far been exported from the Eastern mines. The Eastern mines have been prohibited from exporting any more coal, which will be diverted to other purposes where it is so badly needed.

The daylight saving plan saved 1,250,000 tons of coal to the nation, according to the U. S. fuel administration. This saving has been mainly in Eastern cities. No exact figures are available for Oregon, but the amount saved is not noticeable. One and one-half cords of Douglas fir wood has the same heating value as one ton of coal. In general, two pounds of wood equals one pound of coal in heat units.

Keep the home warm but don't forget that ventilation is essential. Pure air will heat much quicker than foul air.

Make use of the dampers in regulating the furnace.

Henry Stender, a successful wheat raiser of the Lone section, was a Heppner visitor on Saturday, coming up with his son Roy, who was getting his questionnaire filled out. This office acknowledges a pleasant call from him.

800-Acre Creek Ranch

1½ miles of creek. 110 acres under ditch. One half mile from town. Good house and good out buildings. A bargain if taken at once.

\$20,000, ON EASY TERMS.

Iron ranges are needed for war.

The U. S. Government is calling for the conservation of metal for war uses.

You can help by making your old range "do"

a little longer. Have it repaired, if necessary. If it is past repairing, and you must buy a new range, get a Majestic. It will save fuel—absolutely heat-tight. It will save food—bakes right always. It will save repairs—its malleable iron frame is unbreakable and its charcoal iron body resists rust 300% better than steel.

GILLIAM & BISBEE

Caution: If your Majestic needs new parts, get them from us. We will supply you, with genuine Majestic materials—no light, inferior parts, made by scalpers.

"The Range with a Reputation"
