

Town and Country.

Good second hand Ford for sale. W. T. McROBERTS.

Have moved my dressmaking parlors to my residence. MRS. A. G. DeVOIRE.

W. W. Shambart is getting started in the second hand business at his stand on May street. He expects to have a stock of considerable dimensions as fast as he can gather it together.

Fred Crump made this office a pleasant call on Monday and left his measure for 52 issues of this first class family weekly. He states that the present weather conditions are hard on the hay stacks, but that stock in his section is doing well.

Judge Williams is able to be on the streets again after a spell of sickness that kept him confined for about three weeks. It was reported that he was sick with the flu, but this is a mistake as his trouble was of another nature altogether.

Frank Lideau was in from Rhea creek Saturday and reports some cold weather out that way. His family, who reside in Heppner, were quarantined with the flu so Frank had to stay away from home for a time. He reports them all recovered now.

I will sell four of the best building lots in Heppner for \$250.00 each. The lots are each 50x100 feet and true parallelograms, each corner being a right angle, and each lot is a half of a square.

HARRY CUMMINGS.

Dr. N. E. Winnard, wife and daughter departed for Eugene on Saturday, where they go to locate permanently. Dr. Chick, who takes up the practice of Dr. Winnard, has now moved to Heppner from Ione with his family and they are domiciled in the J. H. Kinsman property in East Heppner.

Robert Notson, son of District Attorney Notson of this city, arrived home from Salem on Thursday evening last and is spending a short vacation with his parents. Robert is a pupil of Salem High School and will return to his studies as soon as the flu ban now on in that city has been removed.

Robert Allstott was in town on Monday, the first time in a good many weeks. The quarantine has been lifted at his home on Eight Mile and his family has entirely recovered from the siege of small pox. But one member of the family was really very sick with the disease though several of them had it in mild form.

Announcement was made last week that the lid would be lifted in Heppner on Saturday last and the churches and school would resume their meetings again. However, it was thought best not to open up, so the ban has been continued during this week, and it is impossible to state right now when it will be lifted.

Joseph A. Hughes, elderly pioneer resident of the Ione section, died in that city on Sunday after an illness of long duration. Mr. Hughes suffered a stroke of paralysis some two years ago and from this he never fully recovered. Funeral services were held on Tuesday and burial took place in Ione cemetery. He was 83 years of age.

Mr. Robert Oscar Donovan and Miss Greta Misner were married at the parsonage of the Federated church in Heppner on Saturday evening, Rev. H. A. Noyes, officiating. The young people are residents of Ione, where they will make their home in the future, the bride being the daughter of Dwight Misner, proprietor of the Misner Garage at Ione.

According to telegraphic word received yesterday by S. E. Notson, his son, Edward, with the 127th Field Artillery in France, had landed safely at Newport News, Va., and would soon be on the way home to Heppner to visit the folks, at least this is inferred from what they have been able to learn. Edward will likely receive his discharge at Camp Funston. Edward has been away from Heppner ever since the fall of 1914.

J. D. French and John Brosnan moved some four hundred head of cattle over from the Butter creek ranges to the Earl Warner place a few miles northeast of Lexington, where they are now quartered for the winter months and being straw fed. Mr. French tried this experiment last winter and found that it worked very successfully and the straw brought the cattle out in fine shape.

We are glad to announce that Miss Martha B. Struck, teacher of domestic science and art in Heppner High School, and who was last week tendered a visit with O. A. C., has decided to remain in Heppner and continue her work with the school here. Miss Struck is a very able teacher in her department and the school board is pleased to announce that she will remain.

J. H. Kinsman, who has been in Heppner for several weeks past, supervising the repairs to his residence property that was badly wrecked by fire, returned to McMinnville, Oregon, on Wednesday. He has placed his property here in better shape than it was before the fire.

D. R. Engleman, painter of Ione, and who has been doing some work at the Bob Thompson ranch southeast of Heppner, finished up there on Friday and left for Ione Saturday. Emmett Hughes, who has been home on a visit since being relieved of his duties at the naval training school at Seattle, left on Saturday for Corvallis, where he will continue his studies at the O. A. C. Emmett was not fully discharged from his naval enlistment and is subject to call at any time by the Government during the next four years.

Johanne Hiatt was from his ranch on Rhea creek Tuesday. He has just finished threshing of his own grain, and seems to think it does not speak very well when a farmer has to take two years to thresh out a thousand sacks of grain. However, it was pretty close to 1919 when he got home with the machine and went to work on his own crop. Weather is mild out that way, it being much warmer toward the mountains than it is down at Heppner.

Is Putting Up Ice.

Joseph Snyder, the ice man, is busy these days in storing away a quantity of ice for the coming season. He has been harvesting the product quite lively and thinks he has put up at present about 175 tons. Should the present favorable weather continue for any length of time Mr. Snyder will gather in at least 300 tons of fine, clear ice which is being frozen on the pond at the Cowins place. This amount should be sufficient to run the season out and avoid the shipping of the product during the late summer from outside points.

Returns From Navy.

Oliver Potter, son of Mrs. Annie Potter of this city, came in on Christmas, direct from New York. Mr. Potter enlisted in the Navy last March, going from here to Bremeron Navy Yard, where he remained for only a short time, being transferred to New York. Just prior to the signing of the armistice, he shipped for France and when in 300 miles of his destination orders were given to return home. Young Potter tried to get transferred into the military service but could not, and was honorably discharged from the Navy, coming direct home. He was not a little disappointed in the failure of his boat to land at a port in France, and further disappointed that the war was brought to a close before he had seen active service.

Guy L. Hadley Dies.

Influenza claimed as its victim at Hardman this week, Guy L. Hadley, well known resident of that section. Mr. Hadley passed away at his home at 6 o'clock on Sunday evening of pneumonia, following an attack of influenza. Mr. Hadley was 36 years of age and leaves a widow and two children. He was a prominent citizen of the Hardman section, where he grew up, and was held in high esteem by the people of that community. To his family and aged parents the sympathy of the entire community is extended in this hour of bereavement.

Price Fixing Days Draw to Close.

The Governmental restrictions have already gone off millstuffs and flour and in all probability there will be an easing off along the line very early in the new year and it will be every man for himself and the "devil take the hindmost." There are few people who would own up to being pleased with governmental regulation of prices. The man who bought the regulated stuff always figured that the price was put too high to the producer and the producer felt that if the Government hadn't batted it he would have been able to have got more than he did.

There were laboring men who for the first time in life got more wages than their grocery bill and rent and other living expenses come to and they wanted to buy all the sugar they wanted for once in their life and the Government wouldn't let them, and so on down the line. When we consider what threatened the world, and the privations suffered by those within the smell of the gun powder, the noise that we heard around home here was nothing more nor less than a whine. —Soldiers' News Letter.

Ben Spencer Gets Sedan Car.

Ben Spencer, son of John Spencer of Butter Creek, was the fortunate young man who secured the Sedan car awarded by the Girls' Honor Guard Wednesday. The winning number was 153. R. B. Stanfield held the second number drawn, but as there was no prize attached to second place, it was an empty honor.

Awarding of the car was to have been made several weeks ago, but it was delayed because of the influenza ban. On the first of the year the young ladies of the Guard decided to get rid of the car without waiting for that indefinite time when he ban is lifted. The net proceeds go to Co. E of the County Guards.—Echo News.

The new County Court was in session for several days this week, having on hand the usual amount of business for the first of the year, and chief of which was the drawing of the 200 names of tax payers to be put in the jury box. Full proceedings next issue.

FLU REGULATIONS TO BE STRICTLY ENFORCED

Dr. McMurdo, New City Health Officer Takes Steps to Stamp Out Epidemic.

The steady encroachments of influenza at Heppner has called forth a general demand that the most stringent steps be taken to stamp out the epidemic here. It seems that in spite of all that has heretofore been done to impede the progress of the disease, new cases are reported daily and the epidemic is steadily going through every family of the community. In order to head this off just as speedily as possible and to lessen the danger of its spreading, Dr. McMurdo, the newly appointed City Health Officer has issued the following:

Official Notice.

The epidemic of influenza now raging throughout the country and in our city is a deadly plague. Already more than 600,000 lives have been lost. It is agreed by all health authorities that it can be controlled by the proper cooperation of the public.

Let us all work together to stamp it out and to keep it out. The city health authorities will gladly give any information on the subject.

Regulations.

The following rules and regulations have been authorized by the city health authorities and will be vigorously enforced:

Churches and picture shows will be allowed to open, providing each person to enter wears a mask of standard pattern, sanctioned by the City Physician. Mask to be constructed of fine mesh gauze, of ten-ply thickness to cover nose and mouth.

Pastimes will be allowed to run, providing every person to enter wears a mask of standard pattern.

Barber shops will be allowed to do business providing place checks are used and only the customers in the chairs are allowed in the room.

Department stores and business houses to allow not more than three customers in each department at a time.

Not to exceed three people may enter the postoffice at one time.

Crowds will not be allowed to congregate at any place on the streets, unless a mask of standard pattern is worn. More than three people constitute a crowd.

In order to help stamp out the epidemic of influenza each person is requested to assist the authorities in every way and report all cases of sickness to the City Physician or City Marshal.

DR. A. D. McMURDO, City Physician and Chairman City Health Board.

JOHN KILKENNY ADDS TO LARGE HOLDINGS

Morrow County Sheepman Makes Secure His Summer Range in Mountains.

To make secure his summer range, John Kilkenny closed a deal the past week for 13,000 acres of land in the vicinity of Susanville in Grant county.

Mr. Kilkenny is one of the biggest land and sheep owners of Morrow county, having within the boundary of this county nearly 30,000 acres of land, consisting of his holdings in lower Sand Hollow and the old Hugh Fields lands on Hinton and Butter creeks. He runs large bands of sheep and has felt the need of summer range very badly the past season, when he was "jitted" out of a lot of range land in the mountains that he felt he was entitled to use. In order to overcome this difficulty in the future, Mr. Kilkenny has purchased the 13,000 acres in the high mountains and this will aid him materially in caring for his summer problems in the handling of some 20,000 head of sheep.

This deal was handled through the agency of the Farmers Exchange of the Inland Empire of Heppner, Messrs. F. A. McMenamin and F. R. Brown, managers. The Exchange has been doing business at Heppner but a short time but they have already put through a number of important deals, and look forward to handling much business in this line. The Kilkenny tract was purchased from the Oregon Lumber Co., of Baker at a consideration of \$65,000. It is understood that the Exchange have some other large deals pending that will be put over in the near future.

A Daughter Is Born.

At Ione on January 5, 1919, a daughter was born to Mr. and Mrs. Elmer Griffith (Fannie Goodall), weighing eight pounds. The young lady will be prepared to meet her father, Corporal Griffith, who is at present at Camp Lee, Va., when he returns from the service. Mother and child reported to be doing fine at this writing.

*Kozy Komfortable Klose
for Kold Klimate*

You will find our stock well supplied to keep you warm and comfortable these cold days

For Women and Children

For Men and Boys

Sweaters, Caps, Mufflers, Gloves Mittens, etc., etc.

Let us fit you out and make you comfortable. You will find the Salespeople agreeable, the merchandise reliable and the prices reasonable

Minor & Company

Save For A Purpose

During the past year and a half, you have saved to win the war. There was a purpose back of your thrift and saving.

You learned that you can save, even under trying conditions. It will be easier to save from now on, and we suggest that you continue the habit of thrift.

Have a purpose for saving—more bonds, a cash capital for investment in business, for opportunity, to carry forward some plan. We invite Savings Accounts with a purpose behind them.

FIRST NATIONAL BANK
HEPPNER, OREGON

County Farm Bureau Wins.

Oregon Agricultural College, Corvallis, Jan. 6.—County farm bureau and county agricultural agent work received a tremendous impetus in Oregon last year from war necessities for increased production and conservation, according to the annual report of Paul V. Maris, state leader of county agent work. State leader has had the hearty cooperation of the federal food administration, state council of defense, granges, farmers unions, officers and teachers of the public schools, and other organizations working in the cause of national defense. The county agent is the representative of the United States department of agriculture and the State Agricultural college and farm bureaus directed the campaigns for increased food production in the several counties, made surveys of seed stocks and labor needs, and organized defensive measures against rodents and other crop pests.

Students Will Be Advanced.

There seems to be some apprehension on the part of many pupils and parents, that, owing to the influenza having closed down the school for so long, pupils will lose out in their grades, and fail of proper advancement. We have been given to understand that this will not be the case and that a proper plan of grading the pupils for the advancement will be worked out and all those entitled to go ahead will be allowed to do so. Heppner is suffering no worse from the influenza situation than most other towns and cities of the state, and the school authorities will do all they can to help the pupils along. We had announced the raising of the ban on the Heppner school for last Monday, but for good and sufficient reasons the authorities thought best to keep closed for a time yet, and we cannot say just when the school will open for work again. In the meantime, much home work has been done and the pupils are handing in their papers for proper marking by their teachers.

WHY IT SUCCEEDS.

Because It's For One Thing Only, and Heppner People Appreciate This. Nothing can be good for everything. Doing one thing will bring success. Doan's Kidney Pills are for one thing only. For weak or disordered kidneys, they are a splendid medicine for backache and kidney disorders. Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ball had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. Dan Barlow, extensive Eight Mile farmer, was a business visitor in this city Friday last.
