OREGON SETTLEMENT PLAN MEETS FAVOR

Purchase and Resale of Reclaimable Lands to Soldiers to Farm Under College Supervision.

Oregon Agricultural College, Corvallis, Jan. 14.—The Oregon land settlement plan, which provides for the reclamation and purchase of lands for resale to soldiers and other desirable settlers, and which practically guarantees the success of the settler by supervision of the farm management department of the Oregon Agricultural College, is the first project of the kind ever attempted, according to H. D. Scudder, professor of farm management, who has just returned from Washington, D. C., where he received promise of favorable legislation on the plan.

"This plan of ours has captured everybody," he says. "We have been promised just the legislation we want—broad enough to provide for cooperation of the states with the federal government and permitting us to carry out our Oregon land settlement plan."

"Model farm management farms for settlers in every part of the state will be our program in future land settlement, and the federal legislation will provide the funds for reclamation and purchase of lands for resale to soldiers on the easy payment, low interest plan. We expect to get the necessary state legislation to go with this at the coming session."

"The authorities at Washington tell us that the application of the farm management idea to settlement is brand new and our model farm management farm is the first thing of the kind ever attempted. The office of farm management has promised us funds for both investigational and demonstration work in farm management in Oregon."

—AND THE GERMANS ASK US TO FORGET

The Germans send allied prisoners of war back to us like this, then ask us to forgive and forget—and send them food. This is a new and exclusive photograph, showing British prisoners who have been allowed to get home (under terms of the armistice) virtually all suffering from disease and malnutrition, starved, while the Hunns had plenty for themselves. This is just one of the thousands of reasons why the German white for "an easy peace" will be ignored.
