The DAWN of OUR NEW IDEA in BUILDING

It took 710 bushels wheat to buy this home in 1914. It takes 400 bushels wheat to buy it in 1919.

BUILD FROM ACCURATE PLANS

Our architectural department prepares plans and estimates. We tell you EXACTLY how much your building will cost before you spend one cent—Blue prints and material lists furnished showing where every piece of material goes—no guesswork—no extras—our guaranteed material price covers ALL material necessary.

ASK TO SEE OUR FREE PLAN BOOKS

We have prepared books of plans for all buildings, containing many designs recommended by leading north-west authorities, most all of which have been built one or more times—putting it off simply means that the material you are going to need will cost more money—planning will have to be done in a rush—material will have

to be hauled when teams and railroads are working overtime—Hundreds lost money last year by not buying in January and February.

Come In Today. Talk It Over With Us

See our pictures, plans, cost estimates—no obligation to buy as we are glad to be of service.

HIGH PRICED CROPS
LOWPRICED LUMBER

The average rise in prices of building materials has amounted to about 30 per cent. The rise in prices of farm and many manufactured products has amounted to from 100 to 300 per cent.

Think of it! With the same quantity of wheat, corn, oats, alfalfa, hogs, etc.—as before the war, you can build two houses, two barns, two chicken sheds, two anything—
