One Year \$2.00  
Six Months 1.00  
Three Months .75  
Single Copies .05

### MORROW COUNTY OFFICIAL PAPER

Dan Stalter returned on Thursday last from a visit of 20 days in Portland, where he says it rained all the time he was there and he was glad to be back east of the mountains again and get a glimpse of the sun once more.

W. G. Scott, W. F. Barnett, W. O. Hill and Prof. Houga were members of the Lexington delegation attending the meeting in Heppner last evening and helping to boost along the good roads program, as well as the State Chamber of Commerce.

Mrs. Jay McKinley of Portland, visited a few days the past week at the home of her mother, Mrs. N. S. Whetstone in this city. She returned home on Monday, being accompanied by Mrs. Whetstone who will spend a week or so visiting in the city.

The engineers from the office of Burns & McDonald are expected to arrive at Heppner immediately to begin the survey of the proposed pipe line from the mountains for the city water works. This is according to word received this week by City Attorney Nys.

Maek Riley, one of the pioneer residents of Hardman, was down to Heppner the forepart of the week taking some treatments at the hands of Dr. Chick for rheumatism. Mr. Riley does not come to Heppner often and this is his first visit in many months.

Tom Collier, of Hardman got in from Portland on Friday. He has been below for sometime and confined to a hospital, where he underwent an operation for hernia. He is now rapidly improving and expects to be able to join the Turner shearing crew and start to work by the middle of the coming month.

John T. Kirk and family have returned to Heppner after having spent the winter at the Joseph M. Hayes place near Lone Rock, where Mr. Kirk had charge of a band of sheep for Mr. Hays. John states that the winter was ideal for the stockmen in the Lone Rock country and all stock has come through in excellent condition.

Attention has been called to the fact that the Income Tax law requires all persons working for wages to file a return, even though a part of their compensation is in the shape of board. Those who have been drawing down wages around \$100 per month and board additional, should see about making their return. They may be called on later by Government agents and asked to give an accounting.

Walter Duncan and wife returned this week from a visit of two months in Virginia and Missouri. Mr. Duncan, who hurried east to see his father who was sick at his Virginia home, failed to reach there before his parent died. After visiting among relatives in his home state of Virginia for a time, Mr. and Mrs. Duncan came on to Missouri and visited with her relatives. They are glad to get back to Heppner and have purchased the Dick Lahue place near the Farmers Elevator and will make their home here in the future.

Ralph Justus reached home Tuesday evening, coming direct from Louisville, Ky., where he received his discharge. It has not been long since Ralph was at the front in France, and with his company of heavy artillery was held just behind the lines in readiness to help the boys go over the top in the big drive, when the armistice was signed. Like many others, it was a disappointment to Ralph not to get into the active engagements, but just the same he is glad to be back in the good old U. S. A. again.

This paper certainly enjoyed the privilege of a visit from Jas. S. Stewart this week. Mr. Stewart was for thirty years editor of the Fossil Journal. We had met him but a time or two during this time, as Heppner was somewhat out of his circle and he never came this way, and our personal acquaintance with the Jolly Scott was gained mainly through the medium of his paper. But Jim has made a place for himself with the Heppner people and he has a strong invitation to return and help us put over our road bonding program. Mr. Stewart now lives at Corvallis where he has children attending the O. A. C. but he has a desire to get back into the newspaper game and he will no doubt do so before very long.

Rooms for rent, either by the month or for transient; just across street from Federated church.

# A HOME

## MR. FULL-BLOODED AMERICAN

You have routed the Hun by your untiring efforts to show your Patriotism. Your Patriotism made this Country a safe place to live. When Kultur threatened your home nothing daunted you; you fought the Hun with every conceivable weapon, from a gun to Liberty Bonds.

**Our buys that carried the guns are coming home**

After receiving their discharge they will turn to us for that Home, or the right to live and by that right I mean we have got to find employment for them.

Mr. Merchant, Mr. Shop-Keeper, Mr. Manufacturer and Mr. Laboring Man, ask  
**How Can We Help?**

Foolish question! If you have exhausted all your think-cap contains, here is one  
**BUILD A HOME**

By doing this you will put not less than two men to work on that building alone, besides you help create a demand for material that will keep the factories going the same as they were during the war, and you know what that means—Work For All.

**Do It Now; Don't Put It Off**

COME IN AND LET US EXPLAIN OUR SYSTEM TO YOU.

We have a large number of plans of Homes to pick from on display in our office, or if we haven't got exactly the Home you want we can at least get suggestions from some of them, and that is where we shine, for we have connected with our engineering department a man that makes a specialty of building houses on paper.

Come In And Let Us Prove It.
