

Is It Hat, Blouse or Sunshade?

Some say it is the hat that attracts. Others say the blouse of ruffled net, trimmed with cuffs and fichu; others say it is the sunshade of Oriental lines—while others say it is the maid herself. Take one—or all. They are all 1919 newest. The hat is made of straw, tilted to show a facing of plaid silk. The black pompadour furnishes the finishing touch.

WILL STRICTLY ENFORCE NEW PROHIBITION LAW

More Than One-Half of One Per Cent Of Alcohol to be Held Intoxicating.

By Snell Smith.

Washington, April 12.—Preparation for the strict enforcement of the amendment to the constitution which prohibits the manufacture or sale of intoxicating liquors will be made at the extra session of Congress and enacted into law so as to become effective next January.

Representative Andrew J. Volstead, of Minnesota, the new chairman of the House Judiciary Committee, which will initiate the legislation, declares that the first thing Congress should do is to determine what should be termed intoxicating. The regulation of the Commissioner of Internal Revenue that any drink is such which contains more than one-half of one per cent of alcohol will probably be adopted.

"The law amendment should be either enforced or repealed," he said to your correspondent. "It is now a part of the law of the land and should therefore be carried out to the letter. Attempts to evade it cause disrespect for our institutions. I am not in favor of forcible searches and seizures of wet goods which may have been purchased by individuals before the new regulation became effective, because the provision applies only to manufacture and sale; but for the rest I think there is and will be found adequate means of very

strictly enforcing prohibition in every community in the country."

"In this much of the old machinery of the government for the prevention of illicit liquor manufacture, such as that of the moonshiners, should be used. This is the Bureau of Internal Revenue of the Treasury Department. Its inspectors are trained in ferreting out evasions of the government. The states also have means at their disposal. Licenses will no longer be issued and the separate commonwealths can prevent sale without them. Evaders should be tried by a jury and convicted. They should be prevented by injunction from again committing the offense. Importations will be effectually stopped by the officers at the port of entry. The war time prohibition law will be effective until six months after the declaration of peace, but, in any event, will become subordinate to the constitutional amendment and the statute for its enforcement. While there will be some evasion, just as there are crimes despite the laws against them, I believe even opponents of the amendment respect it as a part of our law. And it will be much more difficult for local sentiment to override the national law than the state officials who might sympathize."

John C. Brown, who was here from his home at Walla Walla for a few days the past week, contemplates going to Redlands, California the coming week, where he thinks of making his home in the future. Mr. Brown recently passed his 85th birthday, is hale and hearty and feels fine, and states that he believes he should find a home now in sunny California and spend the remainder of his days in real enjoyment of life.

GARY MOTOR TRUCKS WIN IN ROAD WORK COMPETITION

GARY 3 1-2 TON TRUCKS

Three Gary 3 1/2-Ton Trucks, purchased by Kay County, Oklahoma, for public road work—after a competitive test with five other leading makes of trucks.

We now have twenty trucks on the way like those shown above, all equipped with 3 1/2 yard steel lined bodies, with Hydraulic Hoist, that we are bringing in for road construction work. These will be sold under the government's absolute guarantee for the full period of one year.

GARY steel products lead the world. GARY Trucks are in the same class. Don't chance an unknown quantity.

REPORT OF W. C. NORRIS CO.

Here is the report of the W. C. Norris Motor Sales Company, of Tulsa, Oklahoma, on the three trucks shown above, and covering their experience with motor trucks in general and GARY trucks in particular.

"We have just closed the deal with the County Commissioners of Kay County for three GARY 3 1/2-ton trucks. We competed with five other makes and outperformed them all. The performance of the trucks we frankly state is marvelous. The "H" and "HU," 2 and 2 1/2-ton models with four speed transmission outpull, overpower and outclass everything in their rated capacity; while the 3 1/2 ton is even greater in pulling power and load carrying capacity. We consider your worm drive, semi-floating Sheldon Axle as the only safe and sure form of construction for hard usage and to withstand the strain and abuse to which a truck is subjected in the oil fields and kindred lines of work. Our observation, experience and knowledge of actual results in meeting oil field requirements, with heavy loads and no roads, convinces us that GARY TRUCKS can be relied upon in every instance and will deliver a long life of service at a nominal upkeep and low cost of operation. We are for the GARY TRUCKS strong and shall concentrate our future efforts exclusively on the GARY line.

W. C. NORRIS MOTOR SALES CO.,
(Signed) N. D. Southerland, Gen. Mgr.

Note: The W. C. Norris Motor Sales Company are a million dollar concern, and one of the largest in Oklahoma. After several years' experience with other lines of trucks, they have dropped them all and rely exclusively on GARY Trucks for heavy duty oil field work and for all purpose usage.

There is a Gary Truck for every purpose, one to five-ton sizes. All of the highest quality of design and construction. Certainty of Service is our slogan, and as WEST COAST FACTORY AGENCY we shall always be prepared to supply any duplicate part that may be required, and do any repair or service work necessary.

Can You Beat It?
Mansfield, Wash., January 29, 1919.

Gentlemen: You want to know how we like the 1 1/2-ton Gary Truck we bought in Spokane last July. We are more than pleased with it. We thought at the time we had bought the best, but we really got more than we expected.

We have done lots of hauling and the truck is in just as good shape as ever. We have done more hauling than trucks lots larger, and with less expense.

Yours truly, (Signed) W. F. PENNINGTON, Mansfield, Wash.

BREWSTER-BRIDGEPORT GROWERS, INC.

Producers, Packers, and Shippers of Fine Apples.
Brewster, Wash., August 1, 1918.

Gentlemen: The 2-ton Gary Truck that we purchased from you in June, 1917, has been in service continuously since that time, and during the busy months of the fruit season we have operated the truck 24 hours a day. We have had no trouble, requiring no repairing or duplicate parts and did not have the truck in the shop until we sent it in to have the new tires put on.

We consider this a wonderful record and evidence of the highest standard of design, material and workmanship, to outwear a set of solid tires over rough roads, without having any repairing to the mechanical parts of the truck.

The truck has been handled by one of our former teamsters, without truck experience, and he worked the truck over the rough roads that one will find mostly in our section. The GARY has the power and never fails to deliver the load. We think it is the best truck built, and give it our unqualified endorsement.

Yours very truly,
BREWSTER-BRIDGEPORT GROWERS, INC.,
(Signed) Sam Berry, Sec. Brewster, Wash.
