

## The Flow of Meat

Two-thirds of the live stock in the United States has to be raised in the West.

One-half of the consumers of meat live in the East.

In other words, most of the live stock is one or two thousand miles distant from most of the people who need it in the form of food.

Fifty years ago, when live stock was raised close to every consuming center, the country butcher could handle the job after a fashion.

But the job got too big.

Now millions of animals have to be moved hundreds of miles to millions of people. Somewhere on the way they have to be turned into meat.

The packers solved the problem. They set up plants where the "live haul" and the "meat haul" were in the right balance. They built up distributing systems—refrigerator cars, refrigerating plants, branch houses. They saved time, money and meat everywhere. The stockraiser benefited in better markets and higher prices; the consumer, in better meat and lower prices.

As the country grew, the packers had to grow, or break down. Because of its present size and efficiency, Swift & Company is able to perform its part in this service at a fraction of a cent per pound profit.

Swift & Company, U. S. A.

## FARM IMPLEMENTS

## Time for Spring Work Approaching

The time is rapidly approaching when it will be necessary to begin Spring farm work.

ARE YOUR IMPLEMENT POSSESSIONS SUFFICIENT FOR YOUR NEEDS?

The world needs food, and more food, and it behooves every farmer to raise as large crops as possible this year.

LET US HELP BY SUPPLYING YOU WITH UP-TO-DATE, LABOR-SAVING FARM IMPLEMENTS.

## WORK OF NEW CONGRESS PLANNED BY MAJORITY

Republicans Will Urge Many Measures to Remedy Conditions Since the War.

By Snell Smith.

Washington, May 5.—Republican majorities in both House and Senate are planning constructive legislation for the special session which will create prosperity, promote domestic and foreign trade, expedite industrial initiative and development, enhance good feeling toward capital in the ranks of labor, and place the nation in an adequate state of defense against future trouble. Their plans include the following:

Enactment of a tariff law which will cover the difference between the cost of production and living at home and abroad.

Shifting the burden of taxation from the American consumer to the foreign producer and distributor.

Elimination of useless bureaus and bureaucratic methods which have grown up under the guise of the necessity of war and have exceeded their functions.

Paring every executive estimate to the bare necessity in order to provide economical and efficient administration.

Returning the railway, telegraph and telephone systems to their private ownership under federal control, so that the people may no longer be taxed to cover extravagance in their governmental management.

Universal military service for every youth eighteen years of age during three months of the warm season, when schooling will not be interfered with.

Development of the American navy in such a way to meet the destiny of the nation during the next decade.

Extension of the suffrage to all women in every State by amendment to the Constitution.

Enhancement of the method of collective bargaining between capital and labor by which both interests will be protected and amicable relations between them fostered.

Removal of all restrictions upon the farmer, so that he may compete on an even basis in world markets without indirect taxation for the benefit of the cotton planter.

Subsidy to labor in ship building and management, so as to provide a great American merchant marine.

Investigation and exposure of extravagance, waste, and criminal methods of administration in no matter how high places found.

Revision of the military regulations so as to prevent further injustices to enlisted men by court-martial and equalize benefits in regular and national army.

## SUPERFLUITY SALE WAS A SUCCESSFUL AFFAIR

Numerous and varied were the articles disposed of at the superfluity sale at the fair grounds on last Friday evening by P. A. McMennamin, auctioneer, the proceeds of which went into the fund for Armenian relief. Total sum realized was \$223.10. The sale of a turkey was the first item, a sale of this kind was held at S. E. Notson, when he received a fine turkey from a section foreman; at his request donations were called for from others. Not as large a response was made, however, as Mr. Notson had hoped for, but the enthusiasm and lively bidding at the sale made up for this lack in a large measure. Harry Cummings was there and made music on his fiddle, and he also donated a setting of eggs which brought a total of \$27.50. The turkey went for \$30.50 and a rooster sent up by Mrs. E. J. McAllister of Lexington raised the sum of \$10.25. W. B. Tucker donated a sack of wheat, and before the bidding was done, this had brought \$13.00. A number of other things were disposed of and the above total realized from the sale. Mr. Notson believes that another sale of this sort would help swell the Armenian relief funds to a greater extent than did this one, being convinced that with the understanding our people now have they would be more prompt and liberal in their donations. Large credit is due Mr. McMennamin for the splendid manner in which he handled the sale of each individual article. He seems to possess the ability to pull forth the dollars from the bidders.

### Alpine School Has Box Social.

A fine time was enjoyed on Saturday evening, May 3 in School Dist. No. 27 at Alpine. Miss Frances Doherty is the teacher, and a box social was arranged together with a nice literary program, consisting of songs, declamations and dialogues. There was a very large crowd in attendance, and after the exercises the boxes were auctioned off, bringing \$223.10. The social was planned and given for the purpose of raising the district's share of Red Cross funds, and the money was turned

over to the Red Cross. Alpine was also apportioned a sum for the Armenian relief, and the Red Cross, at their meeting on Tuesday evening, decided to take care of the district's quota out of the funds raised at the box social. C. D. Morey, clerk of the district sends us this report, and he states that a splendid time was enjoyed by all who attended.

### A Sad Home Coming.

Riley Juday, one of the Morrow county boys who has put in the past seventeen or eighteen months at the front in France, returned to Heppner on Friday evening, last, and Saturday morning, in answer to a telegram received from Walla Walla announcing the serious illness of his mother, he with his brother from lone left at once by auto for that city. A little later in the day, another message came, stating that Mrs. Allyn had passed away at about 9:00 a. m., and when Mr. Juday reached his destination about 4:00 o'clock in the afternoon, mother was no more. He was happy to be home, and was rejoicing that in a day or so, he and his wife could go on to Walla Walla and see the good old mother, and her passing was indeed a sad home-coming for the soldier boy.

Mrs. Allyn has been living at Walla Walla during the past winter and suffered an attack of influenza, from the effects of which she never fully recovered, and this was no doubt the ultimate cause of her death. She was a very excellent woman and had many friends at home, where she resided for many years and was well known.

### Has Gun Taken Away From Him.

Sandiego Bricino, a young Mexican working for the railroad down at boardman, was brought to Heppner Sunday by Deputy Sheriff Voyer, being charged with assault. The complaining witness was another Mexican by the name of Celco Larino. The twain had an altercation in which rocks were used as weapons and Larino was somewhat worsted. He did not push this charge, however, but complained that Bricino pulled a gun on him, and when the matter came up Tuesday morning to be heard before Judge "Tom" Smith, the young Mexican, who is not yet 21 years of age, pleaded guilty to carrying the gun, which he states he bought over in Washington, and the court gave him a fine of \$10 and costs and took the gun away from him. Larino is a half-breed Mexican Indian and reported to have

a rather bad past, and the boy stated that he was afraid that he would use a knife on him, it being reported that the Indian had killed a man in Texas in this manner.

### Regular Council Meeting.

Aside from allowing a few bills against the city, no business of any particular importance was transacted at the regular council meeting on Monday evening. After some waiting a coram finally gathered, the finance committee got busy with the bills and the mayor called for reports from committees which were not forthcoming. Some talk regarding street improvements and other minor matters was engaged in and it was decided that the city should take over the truck and pay for the same but a warrant was not drawn, though it was understood that it should be. Recorder Williams, who is somewhat indisposed, was unable to be present, and a council meeting seems hardly just proper without his presence. We gather from the talk that there are many good things coming to Heppner in the way of street improvements, the removal of rubbish, and numerous other things, but the present indications, judging from the interest manifested by the

council, are that they may be a long time materializing. Perhaps we are expecting too much.

### YOU CAN NOW GET DAHLIA BULBS AT COST

The ladies of the Civic Improvement Club state that through the courtesy of Minor & Co. the people of Heppner can secure dahlia bulbs at cost. They are on sale now at the store and put up in packages of ten and assorted. Minor & Co. make no profit in handling the bulbs, and are selling them at \$1.85 per package, actual cost, as a courtesy to the Club. Everyone should take advantage of this opportunity and assist in making Heppner the Dahlia City—one of the objects sought to be accomplished by the Civic Improvement Club.

A Mr. Jewell of lower Eight Mile, was another of the appendicitis victims brought to Heppner the past week for an operation. He was one of five cases arriving at the hospital just about the same time, each suffering a ruptured appendix, and his case was one among the worst to deal with. Since his operation, Dr. Chick reports he has been doing fairly well but his recovery is slow.

## Mr. Ford Owner

WHY PAY EXCESS PRICES FOR REPAIR WORK?

We have adopted the system of the Ford Motor Co. in doing all repair work on Ford cars at a contract price.

The advantage is: you know at once the cost of the work. These prices were compiled by the Ford Motor Co. and are considerably cheaper than if the work was done at \$1.00 per hour labor charge.

Bring your car in, we tell you beforehand what the cost will be.

All of our work absolutely guaranteed to be first class, and second to none.

Yours for complete satisfaction,
