Attention is called to the big public sale to be held at the Rugg ranch on Rhea creek on Saturday, by the Farmers Exchange of this city. At this sale will be offered a large list of farm machinery and live stock. Sale begins at 11:00 a. m. See adv.

Ike Howard, alfalfa farmer and sheep raiser of Ione, and a member of the Morrow County Fair Board, is in the city today. Mr. Howard is of the opinion that a good rain would be of much benefit right now to the Ione section, though crops are doing exceedingly well.

Neil White, successful young farmer residing north of Lexington, was in town on Monday. He is feeling good over the wheat outlook in his section, and states that there is every prospect of an abundant yield. Fall sown grain on summer-fallow ground is doing especially well.

Hugh C. Githens was suddenly taken with a very severe attack of appendicitis while at work at the Ralph Thompson place last week. He was brought to the hospital at Heppner and immediately operated on, and for a day or two his condition was very critical. He is getting along all right now.

Word was received at Heppner this week of the death of Mrs. Victor Baldwin at a hospital in Portland on Friday, May 2nd. Mrs. Baldwin was aged 26 years, and her death came after a short illness. Mrs. Baldwin was formerly a resident of Heppner, having resided at this place for several years with her husband. The remains were taken to Grangeville, Idaho, where her parents reside, for interment.

Ralph Gilliam, who has been visiting with his aunt, Mrs. C. L. Keithley, in this city for the past week, departed this morning for Love Field, Fort Worth, Texas. He was enjoying a short furlough, and on the way back to the aviation station will stop for a visit with his parents who reside at Wolf Creek, Oregon. He has enlisted in the service for another year. Six months in the hospital with broken legs and ribs was the result of a fall that Ralph took out of the clouds at the Texas aviation field, in which accident his flying companion met death. Regardless of these experiences, however, Ralph is in love with the profession of an aviator.

Boardman people in Heppner on Monday in the interest of the John Day irrigation project, a unit of which is being organized in that section, were J. T. Hinkle, who was accompanied by his wife, also Messrs. J. C. Ballinger, T. E. Hendrick, B. L. Brown and A. W. Cobb. The petition for the West Extension Irrigation project was up for consideration before the County Court, and these people were here to help out in any way that they might be called upon. The court has set the election in this matter for June 10th. They also talked good roads with the court and have the assurance of that body that Boardman district will be furnished with a rock crusher at once.

Carpenters, painters and plasterers are fast putting the finishing touches to the D. E. Gilman building on Willow street. Messrs. Watkins & Oviatt, butchers, are getting moved into their new quarters in this building, and Stephen Irwin is also getting set up for business in the tire repair and auto accessories line, and the rooms upstairs will soon be ready for occupancy, some four different families going up there.

Frank Frates was in Heppner a short time on Monday. He was completing his arrangements to

leave for Richmond, Calif., on Wednesday, where he goes to look after the estate of his father. His business will keep him absent for several weeks.

County court met in regular session at the court house yesterday, and is finding an abundance of business to be attended to. Full proceedings will appear in our next issue.

Men, you will not forget that the ladies expect you to gather tomorrow afternoon at the Fair Grounds, with your shovels and various other necessary implements to assist in the clean up preparatory to making a nice little park. It is Park Day for Heppner.

Prohibition Fund Enlarged.

Two traveling men coming into Heppner on Tuesday night late, were ditched on the hill just opposite the Charley Jones place. They had left Condon on their way to Ione, but because of a little too much of the fluid that cheers and does not mix well with gasoline, they hit the wrong road. Turning off the grade at this point the jitney rolled completely over and smashed a hind wheel. One drummer escaped injury but the other was somewhat jammed up. He was eventually brought before Justice Cornett on the charge of drunkenness and fined \$25 and costs. Other fines of a similar nature were turned in by the J. P. and the prohibition fund was swelled an even hundred this week.

Gets German Army Rifle.

P. A. Anderson received a German army rifle direct from France on Tuesday evening. The weapon was sent over by Willis McCarry and is now on display in a window at the store of Minor & Co. The gun shows that it has had plenty of use but is in excellent condition and shows that the Boche who owned it knew how to care for it.

Like ball bearings

The mica in Mica Axle Grease fills up all roughness in spindles and bearings, keeps them cool, slippery and smooth as glass. Then the grease works better and lasts twice as long. No hot boxes. Just like putting ball bearings on your wagon. Ask your dealer. Buy by the pail.
