D. W. GRIFFITH'S SUPREME TRIUMPH, "HEARTS OF THE WORLD"

"Hearts of the World," the supreme triumph of D. W. Griffith, to be presented at the Star Theater Saturday, May 17, inaugurates a new era in the realm of the screen drama. With the great war as a background, Mr. Griffith has filmed a simple little love story, old as the ages yet ever new. "Hearts of the World" has proven the latest sensation in the screen world. Mr. Griffith realized that the public which became enthusiastic over "The Birth of a Nation" and "Intolerance" would expect something big from him in this latest picture, and therefore instead of trying to outdo himself in staging gigantic battle scenes, he used the Great War only as a background for the filming of a simple and attractive story of tremendous human interest.

"Hearts of the World" shows the happy, peaceful life of the people of a small village before the grim horror of war reared its ugly head over the horizon. The causes that led up to the war are shown; the meeting of the English Parliament on the eventful night when the vote was cast for war, the session of the French Senate voting upon the Declaration of War, the session of the Cabinet awaiting the fatal hour when the ultimatum to Germany would expire. These scenes come as a prelude; then the great drama begins when the German hordes enter France.

In taking the battle pictures for "Hearts of the World," Mr. Griffith had the assistance and co-operation of the British War Office. It is the opinion of all who have seen "Hearts of the World" that Mr. Griffith has outdone his own best achievements and has established a new artistic record which it will take years and years for someone else to equal, if indeed such a thing is possible.

Few Advertisers Fail.

Advertising merchants constitute only 16 percent of all business failures reported in Bradstreet and Dun, says an O. A. C. news exchange. Of all business failures in the entire country 84 percent are non-advertisers, mostly small town merchants. "This shows that the country town merchant is not using publicity as he ought," declares the exchange. The O. A. C. dispatch says that Oregon editors have long known that the phenomenal success of mail order houses in Oregon is due to paid publicity, but many merchants seem to think that this fact is used only to wheedle money out of them. The merchants can hardly accuse the great rating firms of Bradstreet and Dun of being partners in this imaginary scheme.

OREGON VICTORY LOAN.

Portland, Oregon, April 29.—A appeal by Governor Elliott on behalf of the State of Oregon and by John Baker on behalf of the city of Portland, was made today by Secretary Daniels of the Navy Department for the retention of the battleship Oregon in service. When it was learned that the battleship was to be sold to go to the bottom, the importance of taking steps to save it, especially in view of the fact that the ship was immediately reclassified.

It has been asked that the battleship go into ordinary commission and be assigned to the Columbia River station by the Navy Department. Stationed in the Columbia River with a skeleton crew aboard, it is desired that the Oregon be kept as a perpetual reminder of her victories and the glories she brought to the nation and to the state whose name she bears.

There are three classes of service to which a battleship is assigned: in full commission, ordinary commission, or out of commission. The last classification means that the ship is destined for the boneyard.

Hope For Early Forest Flying.

Army aviators should be flying over national forests several weeks in advance of June 15, when forest fire danger becomes serious, according to the Forest Service, United States Department of Agriculture, which has arranged with the War Department for extensive tests during the coming season of the plan to detect and combat woodland blazes by means of an air patrol. It is hoped that the flying will be begun in May, so that maps of the regions to be patrolled will be ready for the aviator by the time the actual fire work becomes necessary. In accordance with instructions from the Secretary of War, the Director of the Air Service, Maj. Gen. Charles T. Menoher, has instructed the commanding officers at Rockwell Field, March Field, San Diego and Riverside, Calif., and the Army balloon school at Arcadia, near Los Angeles, to cooperate by every possible means with the Forest Service in the experimental work. Maj. Gen. Menoher also has informed the Forest Service that if it should be desired to conduct experimental work from Mather

Field, Sacramento, steps will be taken to provide personnel.

SIMONDS SAYS AMERICA MUST END RED RULE

Europe Knows That Only Chance for Safe Peace Lies With U. S.

Frank H. Simonds, the noted war correspondent, in one of his comprehensive peace conference stories from Paris, says:

"All Europe recognizes the fact that the war is not yet over; that it will not be over until its consequences have been liquidated, in a sure peace."

"All allied Europe equally recognizes that only with America's continued aid can a safe peace be obtained and preserved. Accordingly, America's aid being priceless, no price is too great to pay."

"The one essential thing is that America should stay to finish the job. If she doesn't we may have anarchy and Bolshevism from Kamchatka to Land's End."

Simonds is on the job and knows. He isn't writing Victory Loan propaganda but the Victory Loan must be "put over" because of the very facts that he brings out.

We have got to finish 'he job. To finish the job costs money. Every American citizen has got to dig down and help finish it with the Victory Loan.

United States Government War Savings Stamps bear four per cent interest, compounded quarterly. Make your money make money for you.

After all, the fact that there is a Victory Liberty Loan is the big reason for subscribing to it.

Claud Coats this week bought a 3-ton Garford truck from Martin Reid, who has joined the Morrow field, and has joined the Morrow

P. A. Anderson drove to Pilot Rock on Sunday, taking John Elder to that point, where he took the train for Baker. John expects to get work at Baker, and after securing a position there will visit with his parents at Ritter for a short time.

Tim Rippee, who superintends the ranch of Joe Hayes on Big Butter creek, was in Heppner Tuesday. He reports the weather a little cool of nights out that way, with a thin coating of ice on the watering troughs.
