

IF YOU FAIL

If you fail to go to the polls and vote whether you are registered or not

June Third

You are not a loyal citizen and you will have missed one of the greatest opportunities ever afforded you to boost for Morrow County and Eastern Oregon

.....

IF YOU FAIL to vote YES on the *Morrow County Road Bond Measure* on JUNE THIRD

You will have thrown a stumbling block in the way of progress in Morrow County that will take years to overcome. The future prosperity and progress of the county depend upon our ability to now build good and permanent roads throughout the county. The development of your own home and the prosperity of your business depend upon this measure. The transportation problems must be solved and without the funds provided by this bond measure nothing can be done.

Remember that if Morrow County bonds herself to the legal limit at this time she will, thru co-operation with the state and federal governments, on the building of certain roads, receive four dollars in road work for each dollar of

county funds expended. In other cases where state co-operation only is provided the county will receive two dollars for one in road expenditures. Such an opportunity will never come to Morrow County again. The generous state appropriations provided by our last legislature will soon be exhausted and we must provide a means of getting our share. The State Highway Commission will help only those who help themselves. It must be borne in mind by the taxpayers and voters of Morrow County that if we fail to vote this bond issue we will be compelled to bear our share of the state at large in the ten million dollar issue, while other counties who do vote their local issues will get the full benefit of the state's funds.

.....

IF YOU FAIL to vote YES on 304 for our *Eastern Oregon Irrigation Project* on JUNE THIRD

You will have missed the opportunity to add seven million acres of rich productive land to the taxable property of the state without cost to the State of Oregon.

.....

IF YOU FAIL to vote YES on 310 for the *Roosevelt Memorial Highway* on JUNE THIRD

You will have missed the greatest opportunity of a lifetime to develop the great resources of this magnificent coast country for which our government is willing to pay half.

.....

Western Oregon has pledged herself to vote for the Irrigation Project if we vote for the Roosevelt Highway.

.....

These Measures Will Help Oregon Immensely

Let Us Pull Together
