HOW TO POISON THE RABBITS.

The winter poison campaign for the rabbits, so well organized by Mr. Brown, County Agent, was as everyone knows unavoidably postponed. Winter poisoning is to be commended and encouraged, but the rabbits are here now.

The following receipt is giving splendid results over much of the county:

1 part pulverized strychnine—(alkaloid.)
1 part brown sugar or 1/2 part saccharine.

15 parts common table salt.
Mix dry, taking good care that no dust is inhaled. See that all rabbit pens are well supplied with this mixture, and that bates of one half table spoonful each are placed around exposed fields.

To properly protect livestock, use one of the following devices:

Take a stake 2x2 and drive in the ground leaving the top only four inches above ground; then bore an inch hole in the top of the stake and place the bait in the hole.

Or scatter 2x4 blocks 4 in. long with holes bored in the sides around the field and place the poison in them.

This will entreat bunny for the summer we feel sure.

See that every farmer makes it his personal business to put this out.

Let us know as to results obtained.
L. A. HUNT,
County Agent.

FOR SALE

A Good Tire Year

You have doubtless noticed the growing preponderance of United States Tires.

Every one is asking for tires of known value and proved dependability.

And that is precisely what United States Tires represent in the minds of motorists here and everywhere.

The idea back of United States Tires—to build good tires—the best tires that can be built, is appealing to rapidly growing numbers.

We can provide you with United States Tires to meet—and meet exactly—your individual needs.

United States Tires are Good Tires

We know United States Tires are good tires. That's why we sell them.

Maytag Service Days At Our Stores

For the benefit of our many customers and users of Maytag Washing Machines, we have established Maytag Service Day. On this day we shall be glad to have any Maytag user bring his complete washing machine or any part of it to our store for a thorough and careful inspection and adjustment, which will be made free of charge.

Should any part or parts, due to improper care or accident, need to be replaced, this will be done, the only charge being the price of such new part or parts used. No charge will be made for this service.

A Maytag representative will be with us to assist in this work. Bring in your Maytag washer that day and receive the benefit of his advice in the care and operation of the machine as well as the free service. It is our wish and that of the Maytag Company that every user of Maytag washers gets the maximum of efficiency at the minimum of cost. We, therefore, urge you to avail yourself of this free and useful service.

Remember the date and be sure to come early and avoid delays.
