RESORT IS IN MID'ST OF SCENIC BEAUTIES

Nestled in the mountains at the gateway of the Wind River gorge, is one of the most beautifully located hotels and health resorts in the Northwest. Shipherd's Mineral Hot Springs is considered the Columbia river's best resort, both from the standpoint of health and pleasure.

The Mineral Hot Springs Hotel is popular on account of its excellent location, surroundings, comfortable rooms, good tables and good service. It is an ideal place, fitted to suit the most fastidious resorter in search of health or a place to spend the warmer days of summer or the winter months, and have the comforts of home while in the invigorating mountain air. Shady trails abound on the mountain sides and through the forests by which the hotel is surrounded. At the base of the gorge the crystal waters of the Wind River flow, where the stream may be your delight with hook and line, or you may watch the salmon jumping the rushing waters of the falls, or the oncoming flood carrying thousands of saw logs, which leap over these falls and pound the rocks like veritable cannonading that may be heard miles away.

The springs are located on the north bank of the Columbia River and are reached by the Spokane, Portland and Seattle Railroad. From here is a magnificent view of the Columbia River Highway, on the opposite side of the river, the most wonderful highway in the world. Shipherd's Mineral Springs is fast becoming an interesting and pleasurable mecca for tourists. Morrow county people will find at the resort a familiar figure in J. L. Wilkins, who has assumed the management of the hotel and he will be glad to furnish information promptly upon request.
