W. P. Mahoney, Frank Gilliam, Mr. and Mrs. Earle E. Gilliam and Mrs. Raymond Thornton went to Lone Rock Wednesday to attend the funeral of the late Henry S. Neel.

Many farmers have found that a good system of weeding can be followed out by letting sheep run over the fields. Alex Lindsay of Jordan Siding was in Heppner on Tuesday. He was one of the first farmers in Morrow county to adopt such a system.

Frank T. Peery, who served 18 months with the American forces overseas, has received his discharge and will again make his home at Lena, in this county. His mother, who formerly resided here, is living in Kansas City, Mo., at the present time.

C. W. Acock, Northeast Heppner farmer, got reckless a few days ago and chopped off one of his fingers. He didn't tell us just how he performed the operation, but a well wrapped bandage on his hand signifies that he might have been successful with the job.

An old friend of F. D. McCully of Joseph, J. W. Morrow of Portland, was in last week, accompanied by his son. Mr. Morrow is an official of the O. W. railroad. He is a member of an old family after which Morrow county was named.—Enterprise Record-Clifton.

Arthur S. Olsen, representing the E. L. Devereaux & Company, buyers of municipal bonds, with offices in Portland, spent Tuesday in Heppner. He came in from Tuneson and left the same evening for Bend. Mr. Olsen says there is considerable activity in the bond market at the present time.

F. R. Brown returned the last of the week from a business trip to Spokane. He announces that Mrs. Brown and the children, who are now visiting in Portland, will arrive within a few days to make their home in the residence recently purchased by Mr. Brown from C. D. Watkins in south Heppner.

J. W. Christopherson, accompanied by Mrs. Christopherson, of Gooseberry, spent Friday in Heppner. Mr. and Mrs. Christopherson have just returned from a visit in the Willamette Valley and spent some time at Newberg. Their sons just recently took a lease on some 2400 acres of fine farming land which comprises the Jake Bortzer ranch in the Ione section.

L. A. Hunt returned early Monday morning from a two weeks' trip which took him to Portland and Salem. Mr. Hunt was with the Morrow county exhibit both at the Land Show and the State Fair, where he took first prize. However, Mr. Hunt is of the opinion that the less said about the Land Show the better. The State Fair was pronounced by everybody to be the best in history this year.

Ed Musgrave was in the city this week, not from Hardman, but from Jordan Siding. Mr. Musgrave bought a farm on Rhea creek last Spring from Laxton McMurray and he is now moving with his family to his new possession. The Musgraves lived in the Hardman section for a number of years. On their new place, they expect to engage extensively in the dairy business, and while in the city yesterday, Mr. Musgrave left the order with Manager Cox of the creamery, for a number of milk cans.

TESTED AND PROVEN

There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Heppner readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit?

C. W. Shurtle, Heppner, says: "Several years ago I was more or less subject to bladder trouble. The kidney secretions were unnatural and too frequent in passage. During these spells, my back felt weak and lame. After taking a few doses of Doan's Kidney Pills I got over the bladder trouble and my back felt as strong as ever."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Shurtle had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

U. S. RUBBER COMPANY'S GREAT PLANTATION.

Far around on the other side of the world, where the fierce rays of a tropical sun beat down on the Indian Ocean, is the great rubber plantation of the United States Rubber Company on the Dutch island of Sumatra.

Yankee genius for handling big business ventures in a big way finds one of its best examples in the establishment of this enormous plantation so far from American shores. Though faced with jungle conditions, the greatest rubber company in the world has set up the largest rubber plantation in the world, and has at the same time set to working in the midst of Asiatic environment a germ of American ideas and methods that is slowly but steadily bringing about improved conditions among the 20,000 Malays and Mongols who toil on the plantation. A perfectly equipped hospital manned by American and European physicians has already won a royal medal from the Dutch government.

The big tract covers seventy square miles. It is a great orchard of state trees growing under a high state of cultivation. Large staffs of tree, soil and rubber experts are constantly finding new methods of increasing and improving the output.

Users of United States tires have a direct interest in this plantation, because by growing and preparing its own rubber, this company is enabled to prevent adulteration and deterioration to give a high quality and uniformity to the crude rubber used in its tires.

Chas. O'Neill of Ione was in the city on Monday. Mr. O'Neill, who has been in the garage business in that town for the past six years, has sold out to his brother, H. J. O'Neill, and will now take a much needed vacation.

A Permanent Institution

The First National Bank was organized first of all because the men who invested their money in the business had faith in this community, its people and their future welfare.

These men were convinced that the people would be benefitted largely by the bank service they hoped to offer. To what extent their plans and purposes have succeeded, one has merely to look back over recent years. Proof is plentiful.

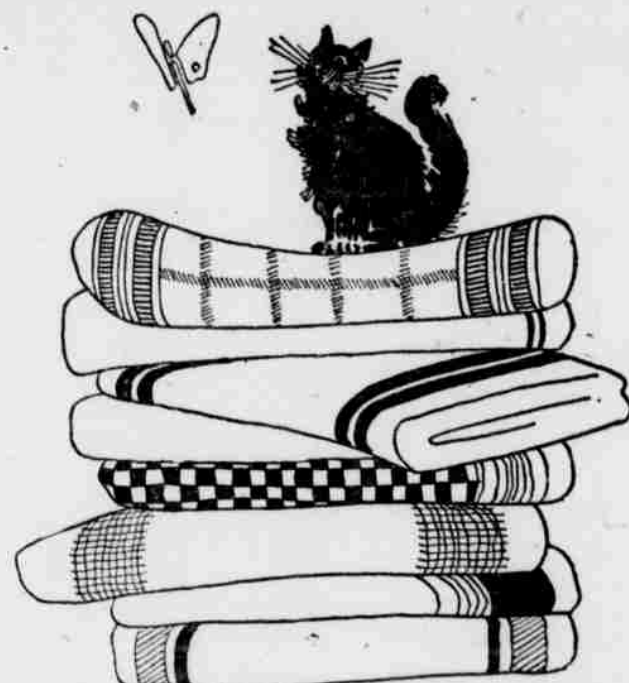

To a great extent, the usefulness of the First National Bank has been due to the fact that it is a permanent institution—an established business managed by men who are ready and willing to serve you day after day, year after year.
