MORROW COUNTY OFFICIAL PAPER

**100 X YES.**

October 25th, 1919 will be a red letter day in Heppner's history. It is on that day that the legal voters of the city will go to the polls and cast their votes for a bigger and better water supply for the town. It will be one of the greatest privileges accorded to loyal Heppnerites in many days. In fact the entire future of this municipality hangs by that single hair of yes or no.

We believe the people generally are pretty well informed as to the object of the election. It has been called for the purpose of submitting to the voters, the proposed charter amendments which will provide the funds for taking over by the city, the water plant of the Heppner Light & Water Company and the putting in of pipes and other necessary equipment which will make up a gravity water system for the city. It is proposed in order that Heppner may have an adequate supply of water for all time to come to vote bonds in the sum of \$100,000, said bonds to be in denominations of \$500 or \$1000 each and bearing interest at the rate of 5 1/2 percent payable semi-annually. The bonds are to be matured in twenty years.

Hence the ballot title will read: **CHARTER AMENDMENTS.** Submitted to the voters by the Common Council. AN ACT to amend the Charter of the City of Heppner, submitted to and approved by the legal voters thereof at a special election held therein on December 20, 1918, and to amend all other acts providing a charter for said city, or amending same by adding thereto Chapter X, providing for an issue of City of Heppner bonds, in the sum of \$100,000, for procuring funds for the purchase of the Heppner Light & Water Company Water Works System and for making additions, betterments and extensions for adequately supplying the city with water. Vote 100 X Yes.

Buildings with an estimated cost of \$200,000 are now under way or will be started within the next few weeks in Heppner. Looks like building activity may become a reality. Highway work will start before another month rolls around, and with the farmers all busy putting in their crops there won't be any chance for the bolsheviki bug around here. Everybody too busy to listen to the propaganda.

Oregon citizens at large are offered the opportunity to subscribe money to a fund which will give Portland a new hospital. Its alright. But speaking as a Heppner citizen, we want to say that if there is any town in the State of Oregon needing a hospital any worse than Heppner, we have yet to hear of it. And when Heppner gets a notion to construct a new hospital, Heppner money will let's look to our own doorstep awhile.

Morrow county has got the finest looking lot of school teachers in the state. They are here attending to a part of their official duties. Let's show them every courtesy and make them feel at home.

A traveling man said the other day, "If I was a young fellow starting all over again, I would go down to Boardman and buy every acre possible, raise hay, milk cows, turn off a few hogs for market each year, and in about fifteen years I figure I could sell out my holdings and have enough money upon which to retire." The way some of the Boardman farmers are building up their bank accounts leads us to wonder if it would take fifteen years to accomplish what the traveling man had in mind.

**THERE WAS NO "OBEY" CLAUSE.**

A man in Boston was married the other day by a minister who used a ritual that the bridegroom himself had devised. That man was fair enough, since

he was willing to try the system personally. The marriage was declared to have been solemnized on a democratic basis. There was no "obey" clause. Man and woman stood equal, as they are, and by rights ought to be. The declared purpose of this marriage was to found a home which should be a "bourn of beauty, a

haven of rest and a heaven of joy." Did ever a trusting bride and a hopeful groom face the parson with any lesser intention in mind? Lovers in all ages, under all religions and customs, have aspired to beauty and to joy in their partnership. The form of the ceremony makes little or no difference with

success of the great undertaking. Two hearts embark on a venture, and it is doubtful whether counsel, advice, resolution or theories have much to do with their subsequent happiness or lack of it. The elusive chemistry of human nature is this fateful combination is almost totally beyond human control.

**EXTRA TEST For Frictioning**

"Frictioning" is the process by which rubber and fabric are milled together. This extra test insures, by micrometer measurement, the exact thickness and precise proportion of rubber to fabric.

**RACINE TIRES**

HERE we reveal another of the extra tests that make Racine Tires better tires. Each of these extra tests is vitally important. Combined, they promise the utmost in mileage for Racine Tire users.

**Racine Country Road Tires** are specially built to resist the wear and tear of country road service—6000 mile guarantee. Let us show you this tire triumph.
