R. R. Lewis & Co. Store and Real Estate is Sold to Thomas Ross.

One of the largest business transactions in the history of Echo was completed yesterday when Thomas Ross purchased all of the real estate and the mercantile business of the firm of R. R. Lewis & Co. The consideration for the transfer has not been made public, but the value of the property sold is proof that a considerable amount of money was involved. It was a cash transaction.

The mercantile business heretofore conducted by R. R. Lewis and Mrs. Lewis under the firm name of R. R. Lewis & Co. is to be taken over by Mr. Ross about the first of November, and is definitely announced at this time that the business will be continued by Mr. Ross, but he will not make a statement regarding his plans until later.

Included in the transfer is the real estate occupied by the store building and bakery shop. This property has 100 feet frontage on Main street. In the rear of the store there is a quarter block facing First St., and there is also a large tract in the block across Main street from the store. This property has 100 feet frontage on Main street, 200 on First street, and 50 feet on Bridge street.

### STEWART FAVORS INCREASE

Petitions To Be Circulated Raising Road Bond Limit to 6 Per Cent

From James S. Stewart ofossil and Corvallis, Oregon, legislator, members of the Northwestern Society of Highway Engineers heard last night that initiative petitions soon will be circulated in Oregon to place on the ballot a measure to raise the limit on bonded indebtedness of the state to 6 per cent. At present the limitation is 2 per cent. for the state and 6 per cent. for the counties.

Mr. Stewart declared that the commonwealth is under a handicap in matching the federal funds that are and will be made available for highway construction in Oregon. With authority to use the credit of the state up to the same limitation that is placed on the counties he said it would make possible the matching of government funds to the amount of \$40,000,000.—Condon Globe-Times.

One hundred and seventeen thousand dollars was the winner end which the world champion Cincinnati team was paid for defeating the Chicago White Sox. The check was made out to Captain Henry K. Groh. Here is shown the check and manager, Pat Moran, dividing the money—paying a little over \$3,000 to each Cincinnati player as their share of the spoils. Groh received the first check. Jake Daubert and Merris Rath are standing, awaiting their turn.

**Not Particular.**  
Farmer—So you're an experienced milker, hey? Now, which side of a cow do you set on when you milk her?  
Applicant for job—Oh, I ain't a bit particular, if the cow ain't.—Buffalo Express.

### WOMAN CAN'T RESIST RESISTING FURS

Women can't resist these furs—but they—the furs—are fashioned and built to resist winter breezes—therefore opposites come together. At the top a cape of mole combines both fashion and warmth within its pelts; second from the top is a neckpiece of Canadian martin suitable for all occasions. Third from the top is the popular dark natural blue fox made into a scarf that most all women admit to be the most practical piece of fur sets. At the bottom—a bit of dress up fineness, an ermine neckpiece that simply takes one's breath away and is a real joy.

### Tank Now a "Rubber-Neck" Bus

War tanks in Flanders fields are performing a bit different feat than a little more than a year ago. Here is a picture of the shell-torn fields of France where the whippet tank, made over into a "sight-seeing" bus, climbs the steep grades with its load of ten passengers. It is being used most in the French Alpine country.

The Story of a Turret Captain  
Promotion in the Navy comes quickly to those who qualify for higher ratings. In March 1909 A. P. Nilsson enlisted in the Navy as an Apprentice Seaman, 3rd class. In April 1907 he was rated Chief Turret Captain. His pay today is \$163.76 per month.
