

Christmas Greetings to All

WHILE goods in many branches of the Jewelry line are not to be bought in the Jewelry market, and some lines oversold one year, still we have been able to secure a fairly good general representation of the line, in the following articles. In glancing over the list you might find something suitable for a Christmas gift.

Christ Is Born
 by Louise F. Elmendorf

The world, late racked with pain through bloody years,
 Has climbed its weary long-pathed Calvary,
 Where millions died, as Christ, that they might free,
 Others from wrong and black oppression's tears.
 Once more now through the world comes to our ears
 The song of all the ages, "Christ is born."

Mute tongued to notes of joy have been the bells,
 And only childhood and old age dared try
 To sing, so near the threatening battle sky,
 The song that told, though dulled by shrieking shells
 Whose bursting turned a thousand homes to hells,
 The wonder of the ages, "Christ is born."

Our faith in God has brought to us the goal;
 War-wreathed lands have peace on earth again;
 And in the scarred and fire-purged hearts of men,
 Made sweet and strong by suffering of the soul,
 Through travail of a world once more made whole,
 Anew in human hearts the Christ is born.

Dear God, the Christmas songs are fraught with prayer
 That Thou wilt be with those whose tears still pay
 That we may have the glory of this day;
 That men may live their thanks; that lives may bear
 Eternal witness for Thee, everywhere
 Proclaiming that in us the Christ is born.

Volcano That Emits Lava.
 The following is reported by an observer in Hawaii: Tremendous changes are in progress at Kilauea, and there is no indication whatsoever of any cessation of the monumental rising of the entire vast lava column. Over the southwest brink a wide stream of glistening lava is sluggishly flowing in the direction of the Kau desert, not with the spectacular cascading torrents of the southeastern flows of last March, but with a steady, stealthy gliding, which gains ground slowly at its base, but which piles up into treacherous masses from its source to
