LEGAL NOTICES

NOTICE OF STOCK HOLDERS MEETING

NOTICE IS HEREBY GIVEN, that the regular annual stockholders' meeting of the Lexington State Bank, will be held at its banking rooms in the Town of Lexington, Oregon, at two o'clock P. M. Thursday, January 8, 1920.

The purpose for which this meeting is called is to elect a Board of Directors for the ensuing year and for the transaction of any other business which may properly come before it.

W. G. SCOTT,
President.
Attest: W. O. Hill,
Cashier & Secretary.
Dated at Lexington, Oregon,
December 3, 1919.

NOTICE FOR PUBLICATION

Department of the Interior,
U. S. Land Office at The Dalles,
Oregon, December 3rd, 1919.

Notice is hereby given that Joseph E. Musgrave, of Ione, Oregon, who, on January 26th, 1917, made Homestead entry No. 018227, for NW 1/4 SE 1/4, section 27, township 5 South, range 25 east, Williamette Meridian, has filed notice of intention to make final three year

proof, to establish claim to the land above described, before J. A. Waters, Clerk of the Circuit Court, at Heppner, Oregon, on the 27th day of January, 1920.

Claimant names as witnesses: Ernest Cannon, Charles M. Hastings, W. A. McCarty, Geo. W. Chapman, all of Hardman, Oregon.
H. FRANK WOODCOCK,
Register.

NOTICE OF GUARDIAN'S SALE OF REAL PROPERTY.

Notice is hereby given that the undersigned, Guardian of the person and estate of Clarence Clayton Wells, a Minor will on and after Saturday the 10th day of January, 1920 at the hour of 10 o'clock in the forenoon of said day, at the office of Woodson and Sweck in the City of Heppner, Oregon, offer at private sale to the highest bidder for cash in hand, all of the right title and interest of Clarence Clayton Wells, said Minor in and to the following described real property situated in Morrow County, Oregon, to-wit:—

The South half of the Northwest quarter and all of the Southeast quarter Section 15 in Township 1. S. R. 23 E. W. 15.

This sale is made under and in pursuance of a license and order of sale granted by the County Court of Morrow County, State of Oregon on the 24th day of November, 1919 in the matter of the guardianship of said minor authorizing this guardian to sell said real property.

JENNIE WELLS GRANT,
Guardian of Clarence Clayton Wells, a minor.

NOTICE OF STOCKHOLDERS MEETING.

NOTICE IS HEREBY GIVEN that the annual meeting of the stockholders of the Farmers & Stockgrowers National Bank of Heppner, will be held in their banking rooms on Tuesday, the 13th day of January, (second Tuesday in January) 1920, at 4:30 o'clock in the afternoon of said day; for the election of officers for the ensuing year and the transaction of such other business as may legally come before said meeting.

S. W. SPENCER,
Cashier.
Dated at Heppner, Ore., this 11th day of December, 1919.

APPLICATIONS FOR GRAZING PERMITS

Notice is hereby given that all applications for permits to graze cattle, horses and sheep within the WHITMAN NATIONAL FOREST during the season of 1920 must be filed in my office at Baker, Oregon, on or before January 31, 1920.

R. M. EVANS,
Forest Supervisor.

Country Town Champion

Senator A. A. Jones of New Mexico, is championing the country-town newspaper reader in the print paper bill he is fostering, which would limit the number of pages big city dailies might use. The print paper shortage is due to the big publishers having hoarded the market, buying up all supplies possible as a result of their great resources. It is pointed out that 2000 to 5000 rural publications in the United States face suspension—if not extinction, unless the present shortage is relieved.

Red Cedar Fence Posts Best on Oregon Farms

Some Other Materials Last Better But Are Too Scarce to Be of Economic Importance.

Oregon Agricultural College, CORVALLIS, Dec. 24.—Western red cedar posts dipped in creosote are the best for use on Oregon farms, asserts H. S. Nowins, technician of the forestry department.

"Western yew, juniper, lignam vitae, and several other woods, he says, "will outlast cedar as fence posts but owing to their scarcity are not of economic importance. Woods having resin well distributed throughout the cell structure, and woods of high specific gravity are most durable when in contact with the ground."

Treatment of fence posts with creosote as a preservative is recommended, as records show that the life of the post may be more than doubled by such treatment. Treatment is not expensive and may be performed at such time as will not interfere with the other farm work.

Round posts that have been well saturated with preservative, points out Professor Nowins, are a little better than either sawed or split posts as they present less surface for the action of decay organisms and the absorption of the preserving liquid. But any red cedar post that

EVANGELISTIC MEETINGS BEGIN AT LEXINGTON

The meeting at the First Christian church started off well last Sunday evening with M. H. Petelle, evangelist and Miss Mae Morris leading the singing. The church is crowded each evening.

The play, "The Minister's Wife's Bonnet" which was given by home talent—as reproduced at the Lexington opera house on Christmas eve and the receipts were \$160. It is now the plan of those in charge to present the play at Ione, Heppner and other points in the county.

Mrs. George N. Peck was called to Junction City on account of the serious illness of her sister, who is sick with typhoid fever.

Rollien Dickerson attended the meeting for Portland to lend the Sunday of the State Teachers' Association.

Miss Myrtle Lay and Miss Gertrude Urton left on Sunday for Portland, where they will attend the State Teachers' convention. Miss Urton will visit with folks at Molalla while away.

T. L. Dorman has recovered from his recent illness.

Mrs. Ida Nolan and two daughters, who have been visiting with Mr. and Mrs. T. L. Dorman and other relatives, left Friday morning for their home in Idaho. They spent about three weeks here.

Gene Gentry, who suffered the loss of two fingers a short time ago, when they came in contact with a wood-saw, is recovering as rapidly as could be expected.

Mr. and Mrs. L. D. Countryman have arrived to take up their residence. He is the new Tum-A-Lum Lumber Co., manager.

MARRIED

Ora Winnett of Walla Walla and Miss Ona Cecil Morey of Echo were married in this city on Wednesday December 24, at the home of Rev. H. A. Noyes, who performed the ceremony.

Demand Continues to Increase

According to information from the Home Office of the Ford Motor Company, Detroit, their unfilled orders are continually increasing and have long since ceased to be reckoned by the thousands but are now a matter of hundreds of thousands and the present demand is not being met.

Already where -inter dealers in those states where -inter brings a slight decline in the number of sales are advising prospective spring purchasers to buy now. Nothing but real orders will bring cars to their territory. Southern dealers and the foreign demand will other wise consume the entire output.

has been properly treated with preservative will give maximum service under Oregon conditions.

Make Tests of Concrete Pipe

The need for standardizing the methods of manufacture and the development of standard tests and testing equipment to determine the strengths of concrete pipes has resulted in the establishment of a field laboratory by the Bureau of Public Works, United States Department of Agriculture, where equipment is being experimented with and tests have been conducted. Field tests have also been made to determine the tensile strength, resistance to internal pressure, and the previousness of 40 kinds of concrete pipe now used in irrigation. These investigations have been prompted in part by the high cost of iron and steel, which has greatly enlarged the demand for concrete pipe to meet rigid conditions in irrigation systems, notably where pressure pipe is needed to carry water under high heads. California alone now has more than 150 concrete pipe manufacturers, and concrete pipe is being laid at the rate of many hundred miles a year.

Millions Saved from Wild Beasts

Taking the estimates of farmers and stockmen themselves, there has been saved to them during the past year not less than \$5,000,000 from the hunting of predatory wild animals by the United States department of Agriculture, in cooperation with the Bureau of Biological Survey and such agencies as are designated by the various States. During the past fiscal year about 32,000 wild animals were killed under the direction of the Biological Survey by a force of between 400 and 500 skilled hunters. Indications are that still greater numbers were killed by poisoning, though no actual count could be made of animals thus destroyed.

Extensive poisoning operations were conducted in the great sheep-growing sections of Arizona, Colorado, Nevada, New Mexico, Utah, and Wyoming. This was followed by a marked decrease in the number of coyotes, particularly with a corresponding decrease in the losses of sheep, cattle, pigs, colts, and poultry. Stockmen say that on many important ranges not lambing grounds the former heavy annual losses have become negligible or have been entirely eliminated. As an illustration, there is an area about 75 miles in diameter in western Colorado where sheep owners formerly reported an average loss of about 25 sheep a day throughout the season. Poisoning operations have been conducted through two successive seasons. Destruction of predatory animals has been so thorough that sheep now range freely, sometimes unattended for several days in succession, without loss. Losses throughout the area are nominal.

THE PACIFIC COAST'S GREAT FUEL SUPPLY

Industrial development, shipping and home comfort on the Pacific Coast are to a large extent dependent on oil for fuel. There are no great deposits of coal in the Coast states, but Nature has given a compensating advantage in the great oil fields of California. From these

BOARDMAN OBSERVES CHRISTMAS FITTINGLY

BOARDMAN, Ore., Dec. 29.—The community Christmas exercises at the church were very well received, the building being taxed to the limit. An enjoyable program was presented by children and all were treated to popcorn, apples, oranges and candy. Santa Claus—as in evidence in the event and had as good a time as the rest of the crowd.

Practically all the teachers of the Boardman schools will attend the O. S. T. A. at Portland, Dec. 29, 30, 31. Principal M. E. Bean will also represent the Commercial Club at the annual state meeting of Chamber of Commerce, Mrs. Signs will attend as a delegate from the Parent-Teachers' Association.

C. C. Paine, county secretary of the Farm Bureau will attend Farmers' Week at Corvallis, December 29, to January 3.

Rabbit drives are following the poisoning campaigns with good results. Plans are also on foot to have a supply of poison on hand for another campaign later. According to government predictions another storm or two will be due before the winter is over and if the results are as good as in the previous drive, there will be few rabbits left in this section.

School will begin January 5th. Anna Hanson, of the Minnesota State Normal, has been offered a place in the third and fourth grades.

Oregon Farm Livestock

Farm livestock of Oregon, the kind of beef and dairy cattle and poultry that has made the state known around the world, will receive a big share of the attention of farmers and college men at a O. A. C. Farmers' week, beginning Monday next. The principles underlying the remarkable development of the high producing pure bred industry will be explained by men who know because they helped develop it. High producing college animals and birds will be used to exemplify the principles.

come fuel for most of our industries our railroads, the ships that call at our ports, including the grim, grey also furnish the crude oil from which is derived the super-refined water white oil for heating, cooking and lighting in our homes. The Standard Oil Company has done a great service in perfecting methods of refining coal oil, or kerosene, for in Pearl Oil they have given the housewife a convenient and economical fuel for all household purposes, which burns without smoke or odor. Pearl Oil has become a most important factor in the comfortable home life of the Pacific Coast.

Public Auction SALE

I will sell at Public Auction at the old Myers ranch, 6 miles northwest of Heppner and 6 miles south of Lexington, on

Friday, January 9, 1920
