LIVES ON TOAST AND BUTTERMILK

Kate Bruce, Griffith Player Has Great Record

Kate Bruce, who plays the role of the mother in D. W. Griffith's second Arctcraft production, "A Romance of Happy Valley," which will be shown at the Star Theatre next Monday, has not eaten a meal of meat or vegetables for eight years. She has entirely forgotten the flavor of fat steaks and browned chicken; the crisp tenderness of the goodly vegetables.

Miss Bruce's success as a screen actress is contemporaneous with her successful solution of a most difficult health problem. She lives on buttermilk, toast and ice cream. Her endurance is equal to all the demands of the camera, and her energy is sufficient to permit her to do much patriotic work, and a great amount of ministering to the sick. For there is magic in her nursing efforts.

With the assistance of Mr. Griffith's directing, Miss Bruce, has developed a distinct type of mother for the screen. In "A Romance of Happy Valley," she has opportunity to show her ability to full advantage. The support is excellent.

Fighting for Rural Folks

Congressman Dan R. Anthony, Kansas, is fighting tooth and nail in the House of Representatives for the passage of his print paper bill which would restrict large city dailies to 24 pages daily and which would eliminate the possibilities of suspension of from 2500 to 5000 small rural papers in the United States. The big papers with unlimited resources hog the print paper market, with the result that smaller dailies, tri-sonal and weekly papers, are every day finding it more difficult to get print paper.
